

"Ayer's Pills are the best cathartic I ever used in my practice."  
J. T. SPARKS, M. D., Yeldro, Ind.

"I don't know of anything that will so quickly relieve and cure the terrible suffering of dyspepsia as Ayer's Pills." JOHN C. FRITCHARD, Irodes, Warren Co., N. C.

"Ayer's Pills do their work efficiently and do not gripe nor make one sick like so many other pills." JOHN M. SMITH, Atlanta, Ga.

"Although mild in action and less liable to gripe than other purgatives, Ayer's Pills are thorough in operation and can always be relied on to cure diseases of the stomach or bowels." PETER J. DUFFY, Rockport, Tex.

"After twenty years' experience, I know that Ayer's Pills are an absolute cure for tertian ague, bilious fever, sick headache, flux, dyspepsia, constipation and hard colds." J. O. WILSON, Contractor and Builder, Sulphur Springs, Texas.

"We always used Ayer's Pills in my father's family. I am now fifty-five years old and never had them in the house because I have found no better pill than Ayer's." MARY JACOBUS, 711 E. Chestnut St., Mt. Vernon, Ohio.

## Thirst-satisfying And health-giving.

Thirst is one of the trials of these warm summer days. What shall we drink? Which do you prefer, a glass of insipid, tasteless water or a cooling, refreshing, effervescing glass of Abbey's Effervescent Salt? A teaspoonful of

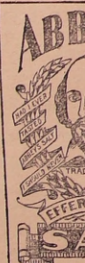

### ABBEY'S EFFERVESCENT SALT

in a tumbler of water not only satisfies the thirst but keeps the system in good order. It may be taken at any time without any unpleasant after-effects.

"I am very happy to be in a position to tell you that I use your Salt with much success. It is certainly a medicine which is destined to render great service. I have already prescribed it to many patients, who have found it without exception most satisfactory."

A Calgary Gentleman Talks Entertainingly on the Crops and Prospects of the Great Northwest.

Mr. A. W. R. Markley, of Calgary, arrived in the city last evening and left to-day in conversation with the gentleman representative of THE INTELLIGENCER.

He stated that the Government building erected by our fellow townsman, Mr. Walter Aitken, was one of the best and most substantial buildings in the place. In speaking of the crops Mr. Markley said they were fine, but he thought that the quantity was somewhat exaggerated.

He had travelled quite extensively through the North West and Manitoba and had never seen grain look better and the yield would no doubt be in excess of that of other years.

In answer to an enquiry as to the political contest which is at present being waged in Manitoba he stated that he was in a position to state definitely, but he thought that Hon. Hugh John Macdonald would be victorious. He further ventured the remark that the school question was still a live issue and would no doubt play an important part in the contest.

Mr. Markley was in Manitoba and the North West during the great boom and related many incidents of those stirring times. He has great faith in the future of that country.

Sir Wilfrid Laurier Not Caught Regarding Elections.

Though Cordon, the Premier Could Not Be Induced to Divulge Any Government Secrets—Regarding the High Commission Sir Wilfrid Said He Would Like to do so and See Sir Chamblain, But Had Not the Time.

Montreal, Sept. 2.—Sir Wilfrid Laurier is nearly always a disappointment to the interviewer. Cordial in his manner, courteous to a degree, the Prime Minister seeks to smile away the question without committing himself to an expression of opinion. The Conservative press has for the last month been hinting at a general election in fall, several papers suggesting that the date only remains to be fixed by the Hon. Mr. Tarte when the latter returns from Europe. "Ah, but we can't help that, you know," said Sir Wilfrid yesterday at the Windsor Hotel, when reminded of the persistent rumors.

It having been suggested that some of the papers pretended to have positive information that a general election would be held in October, the Premier quickly remarked: "The question is, Where did they get their information?"

Could Sir Wilfrid himself set the matter at rest? Would he state whether it was the intention of the Government to bring on a general election any time this year? Were the rumors idle and baseless? Sir Wilfrid smiled and shook his head: "We must let people say what they please, but the Government is not making any statement on the subject."

The High Commission. With respect to the international commission Sir Wilfrid said there had been no change in the aspect of the affair since last February. "I am sending my colleague, Mr. Louis Davies, over to England to see the home authorities on the subject."

"I did think of going, and would like to go, but I find I have too much business to attend to. I am going to Arthursville, but I shall proceed to Ottawa on Sept. 15."

**THE DOMINION DOCTORS**

Concluded Their Business in Toronto—Will Meet in Ottawa Next Year.

Toronto, Sept. 2.—At the Canadian Medical Association yesterday the first year on the list for the morning session was on the use of chloroform and other anaesthetics. It was read by Dr. W. R. Jones of Rochester, Dr. A. R. Robinson of New York contributed an essay on the treatment of cancer. The subject of inter-provincial registration occupied the rest of the morning session. The discussion was opened at 11 o'clock by Dr. Roddick, M.P., convener of the special committee to look into the matter.

Dr. Williams of Ingersoll moved a resolution approving of the scheme of registration proposed by the committee, and it was carried unanimously.

Dr. Roddick, M.P., was empowered and requested to continue his efforts to have the scheme completed and carried into effect by such legislation as may be found necessary.

Dr. R. W. Powell of Ottawa was elected president; Dr. H. B. Small, treasurer, and as general secretary. Dr. J. N. G. Starr. The next meeting is to be held in Ottawa.

**BRITAIN STANDS BY CANADA.**

That is what Sir Wm. Kennedy told an interviewer.

Buffalo, N.Y., Sept. 2.—In an interview last evening on the Alaskan boundary dispute, Sir William R. Kennedy, judge of the High Court of England, who is in attendance at the conference of the International Law Society, said that it was generally believed in England that the matter would be settled without a war, and that the only factor in the dispute was the straining of the line.

**7 PER CENT. CUMULATIVE PREFERENCE STOCK AT PAR.**

**THE CANADA CYCLE AND MOTOR COMPANY, Limited,**  
is to be incorporated under the Ontario Companies' Act to acquire as going concerns the businesses, as manufacturers and dealers in Bicycles and Bicycle Parts, now carried on by the following well known Companies:

**MASSEY-HARRIS COMPANY, Limited, WELLAND VALE MANUFACTURING COMPANY, Limited, GENDRON MANUFACTURING COMPANY, Limited,**

Including the Plant, Machinery, Tools, Stock-in-Trade, Fixtures, Patent Rights, Trade Marks, Trade Names, Copyrights, Good-will and Leaseholds of the above-named Companies in connection with their said business; and including also all the real property of H. A. Loezler & Company, and The Gold Bicycle Company, Limited.

**THE COMPANIES.**  
The bicycle industry is one of great importance and magnitude in Canada. The constituent Companies are the leaders in the trade. Their Trade Marks and Brands are everywhere popularly known, and by reason of their world-wide reputation for unrivalled excellence some of the Companies enjoy a large and growing foreign trade which offers a favourable field for development, and which this Company proposes to extend.

The Companies give employment to about 1,700 men. Their outputs for the past year aggregated about 38,500 bicycles. The plant and machinery are of the latest and best equipment, and capable of twice that production with but small additional outlay in tools. The factory is to be acquired by the Company are especially adapted for manufacturing purposes; have advantageous shipping facilities, and will permit of ample extensions to the existing buildings.

Each of the above-named Companies has covenanted not to engage for long periods of years in any business competing with the bicycle business of this Company.

**NET EARNINGS.**  
The steadily progressive character of the business of the constituent Companies is shown by the following Accountants' certificate:

We certify that the combined net profits in the business of Bicycles and Bicycle Parts of the Massey-Harris Co., Limited, H. A. Loezler & Co. (Cleveland Bicycles), Welland Vale Manufacturing Co., Limited, Gold Bicycle Co., Limited, and Gendron Manufacturing Co., Limited, for the past three years, are as follows:—

1896-7 - - - \$190,914.02  
1897-8 - - - \$304,907.03  
1898-9 - - - \$330,115.35

GEO. EDWARDS, F.C.A. } Auditors.  
ALEX. HART-SMITH, C.A. }

Toronto, Canada,  
August 28th, 1899.

**ADVANTAGES.**  
Amongst the advantages to be gained by this amalgamation of interests, the following may be enumerated:—

FIRSTLY—Reduction in selling and distribution expenses and advertising.  
SECONDLY—The economies and improvements in production arising from the practical knowledge of the members forming the Board of Directors, which will be available for each branch of the business.  
THIRDLY—The economies due to consolidation of management, manufacturing, office work, and of buying, distributing, and financial arrangements.

The Directors are fully alive to the desirability of conserving the individuality and initiative of the various businesses, and will not allow consolidation to act detrimentally in these matters, but there are obvious advantages to be gained, as, for example, in buying in large quantities in the best markets, in the supply of ample capital, and in the manufacture of a large output of high-grade wheels at prices to meet the demands of the public.

**MANAGEMENT.**  
The Management of the Company will be in the hands of experienced manufacturers, who have been identified with the leading bicycle companies of Canada in the past, and have made a success of the business.

**WORKING CAPITAL.**  
The Company will commence business without any bonded or mortgage debt and with a working capital in excess of \$1,000,000, exclusive of the additional capital available from the issue of the Preference Stock in the treasury (\$500,000).

**DIVIDENDS.**  
The Preference Shares shall confer the right to a fixed cumulative preferential dividend of 7 per cent. per annum accruing from the date of payment by subscribers, to be provided for out of the net earnings of the Company before any dividends are paid upon the common stock, and the further right to repayment of capital in priority to the common stock, but they will not be entitled to further participation in profits or assets.

If in any one year dividends amounting to 7 per cent. are not paid on the preference stock the deficiency shall be a first charge upon the net earnings of the Company and shall be paid subsequently before any dividend is paid upon or set apart for the common stock.

Dividends will be payable half-yearly on the 1st days of May and November, or such other half-yearly dates as the Directors may determine.

**RESERVE ACCOUNT.**  
The Charter of the Company will provide that 25 per cent. of the balance of the net earnings, after payment of the 7 per cent. dividend on the Preference Stock, shall be annually transferred to a reserve account in the books of the Company, the better to secure to the Preferred Shareholders the payment of the 7 per cent. dividend on their preferred shares, and such annual transfers shall be continued until the amount of said account reaches \$500,000, at which sum it is to be maintained, and if it is at any time drawn upon it is to be in like manner restored and maintained.

The amount required to pay 7 per cent. on the preference stock already taken by the Directors and that now offered to the public being \$175,000, it is considered that such dividends are amply assured, and the above reserve account of \$500,000 has been stipulated for in order that the position of the preferred shares may be rendered independent of any possible contingency.

**AUTOMOBILES.**  
It is intended that an important part of the Company's undertaking will be the manufacture and sale of motors and motor vehicles. This branch of business is a natural outgrowth of the Bicycle industry, and is believed to offer a profitable investment for the capital and the large and successful experience in manufacturing which this Company will command.

Arrangements have been made to have the books of the Company regularly audited by Chartered Accountants.

Application will be made in due course to have the stock of the Company listed upon the Toronto and Montreal Stock Exchanges.

**\$2,000,000 7 per cent. Preference Stock in the above Company will be offered for public subscription at PAR on WEDNESDAY, the 6TH DAY OF SEPTEMBER, 1899, payable as follows:** 5 per cent. on application and the balance of 95 per cent. on allotment. The right is reserved to reject or reduce any application, and subscription carries with it an agreement to accept such reduced amount. The failure to make payment when due forfeits the previous payment. In case no allotment is made the amount deposited on application will be returned.

Subscription Lists will open at the chief offices of the National Trust Company, Limited, Toronto and Montreal, and at the Head Office and Branches of the Canadian Bank of Commerce, at 10 a.m. on Wednesday, the 6th September, '99, and close at 3 o'clock on the following day.

Forms of Power of Attorney to subscribe may be had on application to any branch of the Canadian Bank of Commerce, or to

Went Out Trolling This Morning and is Supposed to Have Upset His Boat—The Body Recovered.

(By Associated Press To-day.)  
Frankford, Ont., September 15.—Harry Clark, son of Geo. W. Clark, hotelkeeper, of this place, while trolling this morning about 5:30, was drowned. He went out with his dog in a boat just above the bridge. In about fifteen minutes after leaving his dog returned, all wet, and the boat was found below the bridge, partly full of water.  
The river is being dragged, but the body has not yet been recovered.  
LATER—The body of Harry Clark was recovered about two miles down the river, in the rapids, at 11:30 to-day.

### Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in my back and sides, no appetite, gradually growing weaker day by day. Three physicians had given me. Fortunately a friend advised trying 'Electric Bitters,' and to my great surprise, the first bottle made a decided improvement. I continued their use for three weeks, and now, as a well man, I know they saved my life and robbed the grave of another victim. No one should fail to try them. Only life guaranteed, at J. S. McKeown's Drug Store."

### Will be Another Concert.

We are informed that Ald. Humberford, Chairman of the Park Committee, has completed arrangements with the I.O.O.F. band for another concert at Queen Victoria Park on Thursday evening next, weather permitting. This will be welcome news to the large crowds who always listen with delight to the music of our excellent band.

### WHAT PEOPLE ARE SAYING

That the minister who on Sunday warned his flock against telling "tall" fish stories is a good judge of human nature.  
That there is a hole on Bridge St., opposite Dr. Ross's residence, which would break any horse's leg that stepped in it.  
That there are enough fishy people in Canada without bringing a thousand Fins here.

That the merchants of this city who in using the columns of the Daily and Intelligencer, are drawing trade to their places of business. The lists of subscriptions are on view to any prospective or present advertiser.  
That in using the INTELLIGENCER, you do not require to pay two mediums to reach one class of readers. The INTELLIGENCER guarantees and makes a sworn circulation statement.

That the person who wrote that verse which goes "Gaily and gladly, tripping lightly and brightly, went the eager children to school to-day" was not talking of Belleville children.  
That the boys and girls we saw going to school were neither gay nor glad.  
But that tired feeling will soon wear away, and they'll settle down to hard, useful work.

That the bad sidewalks came near depriving the city of an ornament to the forum—temporarily, at all events. Officer Hayes, while walking up Henry at last night, had occasion to pass two ladies. Just as he got to them the ladies stepped on the end of a loose board, it went up in the air, and Bad smote it a severe blow with his shin bone. Recovering himself quickly, the officer leaned against the fence and said—but there, never mind that he said.

That many murmurs, not loud, but deep, are heard about the water department. Some people think the powers that be are pursuing a paymaster policy in regard to the hours of service. Why not, they say, give another hour night and morning? The City's water supply is limited, and, during July and August, the summer months in the year when the lawn service is most needed, the restrictions put upon it were necessarily severe. Could not a little more dependence be placed in the good sense of the citizens? A man who pays a good round sum for his water and understands that he, as a citizen and a taxpayer, is personally interested in the success or non-success of the system, is not going to waste water like a child. Think it over, gentlemen of the Water Committee, and you may ally a healthy and growing feeling of discontent.

## SPORTING NEWS.

### Dukes vs. Maple Leafs.

A fair sized crowd assembled at Exhibition Grounds to see the above teams play baseball yesterday, and a good deal of interest was evinced. Both pitchers were fairly effective, but Byrne got the best support. Up to the fifth inning the game was close and exciting, but in that inning the Leafs made five hits and their opponents made some errors, with the result that the former took over seven tallies and clinched the game. Some good individual play was shown on both sides. The Leafs' pitcher, Dukes in fielding. The following score tells the story:

### Forest and Stream Competition.

Many boats were out yesterday, but catches were very small. Out of eight boats competing only 3 bass were brought in.  
A. Tidale and H. Geary, with 2, winning Mr. L. H. Appleby's \$3 prize, also Major Casswell's \$5 for heaviest bass.  
W. Ormond and G. Templeton won Mr. Appleby's \$2, also Mayor Johnson's prize of \$2 for pike. Some anglers claim that poor fishing, while others say the large number of fish in the Bay is the reason.  
Nigger Island, Mosquito Bay and all intermediate points were thoroughly fished both by still fishing and trolling, but results were the same everywhere.

## THOUGHTS FOR EVERYDAY LIFE.

### Powerful Discourse by Rev. C. E. McIntyre

On Sunday Morning Last—Hidden Treasures in the Bible Which Many Do Not Find—The Immutability of the Saviour.

At Bridge St. Church on Sunday morning the Rev. C. E. McIntyre preached a sermon which was fraught with many lessons to his hearers, showing that the same influences which guided and comforted the Disciples in the days when the Saviour trod the earth are abroad to-day, and that the truths of the Bible are not hidden from those who seek them with faith and reverence. In his opening prayer the Rev. gentleman implored that the threatened war might be averted, and the racing of the lesson, making an appeal on behalf of the Twentieth Century Fund, and gave a short explanation of the same. We heard a guarantee of the same. "Growing time" in Canada. It was just true that at the present time Canada was enjoying great prosperity. The principal object of the Twentieth Century Fund was to further the interests of the educational institutions of the world, and the Methodist Church. Nearly every day now we all feature were cropping up in educational matters, and to keep their Colleges abreast of the times meant the constant need of considerable money, and the primary object of the Twentieth Century Fund was to furnish material aid for the advancement of education in connection with the Methodist Church. Canada was not standing still, and if they wanted their church to keep up with the times they must see to it that the necessary funds were not lacking.

The preacher took as his text the 14th verse of the 21st chapter of St. John: "This is now the third time that Jesus has risen from the dead."

The simple narrative of the Gospel have a meaning and teach lessons which all, learned or unlearned, can understand, at their meaning. Like the golden rule, many, often read and never catch a glimpse of the precious stores beneath. So how much is implied in the words, "Jesus showed Himself to His disciples." Does not that sentence teach us that Christ may many times be near us and we may not know it? He showed himself to differ not in character from His disciples, and appeared in different places. He spoke to people to day in unexpected places, just as He did then. He speaks to some who they are rejoicing and some while they are weeping. Why did our Lord give such diverse manifestations of Himself? It was to let mankind know that He was always watching and was never far away from any of us. What a comfort and blessing it must be to a home of sickness or sorrow to realize that the Saviour was near, and Christ is with us—nothing can keep Him away from us. He can guide in thought the floor the floor. He can walk to us on the sea, no matter how high the waves may roll. On one occasion the disciples had toiled all night fishing and had caught nothing, but when Jesus came and told them to go out to the deep sea their nets were filled to overflowing. He showed Himself to them by taking an interest in them. After His resurrection we read that they saw Him but that He showed Himself to them. Though excited above all human dignities Christ is unchanging. It is the same Jesus who wept at the tomb of Lazarus who comforts the mourner now. It is the same Jesus who said "Come unto Me all ye who are weary and heavy-laden" who stands near to help us now. To whom did Jesus show Himself in those days?—to those who loved Him and whom He loved. It was the beloved disciple that the most of Him. God has revealed Himself in the world around us, and man, by the study of nature, may obtain a knowledge of Him. No thoughtful man can read the word of God without knowing that there are certain things which must be fulfilled. The treasures of earthy wisdom will not find God. The only way to know God is to love Him. Many could not travel long distances to see Him or pay large sums to see Him, but all men can do all that is required—they can love Him. No matter how dark the surroundings may be, if we love God we may have Him with us all the time. There is no royal road to Christianity. God has no use for the idler or dabbler; it is always the busy and occupied man that He shows Himself. We often think that only when we are engaged in some religious work that we are near God. This is a mistake. Any honest, earnest labor brings us near to the Father. The fishermen caught nothing all the long day, but when they caught much, we must have the Lord with us before we can prosper? While we are following Christ and engaged in His service may we not look for the same reward as the disciples? The same God who blessed them will bless us if we love Him. While we are doing the will of Christ we shall not want anything which is good for us to have. Let us rely upon Him constantly, and He will supply all our needs out of the fulness of His riches and glory.

**THE MATTER NOW HOPELESS**

The Boers Will Probably Declare War at 48 Hours' Notice.

Conflicting Despatches Make It Impossible to Say Exactly What Has Happened in South Africa Regarding the Transvaal Situation. It Seems, However, That the Franchise Proposal Has Withdrawn and the Principle of a Conference at Cape Town Agreed To.

London, Sept. 4.—The crowd of conflicting despatches from South Africa regarding the Transvaal situation is still impossible to say exactly what has happened. It seems evident, however, that President Kruger has withdrawn the franchise proposal, which was dependent on Great Britain's acceptance of impossible conditions regarding sovereignty, and has made some sort of temporary counter-suggestion regarding a conference.

The Standard and Digges' News gives details of a report of the secret session of the Volksraad on Saturday, according to which the Volksraad not only declined to reject the franchise proposal, but also decided to accept it. President Kruger, visiting Cape Town, and resolved to make a stand for the franchise. The Boers, however, the franchise, and the Boers, feel that they have offered all they intended to offer, and are now resolved to stand or fall by this decision.

Boer statements of this kind, coupled with the arrests at Johannesburg, speak loudly for the withdrawal of the franchise. Certainly Mr. Montgomery and the franchise will not be in a hurry to return to Johannesburg. The Boers are now in the hands of the State Attorney.

The Matter Now Hopeless. London, Sept. 4.—The Johannesburg correspondent of the Standard says: "I learn from an official who has been carefully striving for peace that the matter is now hopeless. The Boers will probably declare war at 48 hours' notice, and will try to force the Orange Free State to join the Cape Colony in a conference at Cape Town. The Cape Colony will remain quiet at the outbreak unless it is forced to do so by the fullness of circumstances in their own hands and their own will."

A Mobilizing Statement. Pretoria, Sept. 4.—In connection with the arrests at Johannesburg, the State Attorney has issued a statement in which he declares that instructions were given to the police to arrest any person who was found in possession of arms or ammunition, and that the Boers were not to be taken against them.

Mr. Pakenham Arraigned. Johannesburg, Sept. 4.—When Mr. Pakenham, editor of the Transvaal Leader, was arraigned at the bar of the First Criminal Court today, the public prosecutor announced that on the instructions of the State Attorney, Mr. Smuts, he would withdraw the charge of high treason against the prisoner and enter a fresh plea of insanity. The press law by which the prisoner is held is being put to rest.

Mr. Burger, solicitor for Mr. Pakenham, said he understood the original charge had been withdrawn, and that the charge of high treason was being changed. He challenged the public prosecutor to supply him with the details of the new charge, asserting that it was not right to detain his client for 24 hours in jail.

Mr. Burger then declared that the affidavit made by the charge against Mr. Pakenham was contained no particulars that would justify a charge of treason. The public prosecutor characterized this statement as an "absolute lie," and the proceedings were then adjourned to Sept. 12.

In a Clearer Light. Cape Town, Sept. 4.—The news received from Pretoria today begins to show the situation in a clearer light. It appears that the Transvaal's reply to the franchise was handed on Saturday to the British diplomatic agent at Pretoria, and was delivered to Mr. Chamberlain's secretary at Cape Town, and that another reply will be delivered to Mr. Chamberlain's secretary at Cape Town. This method of splitting the negotiations by the Transvaal is universally commented upon here. The Cape Argus officially declares that the Government of the South African Republic has agreed to a conference at Cape Town.

The Cape Argus also declares that the explanation offered by the Transvaal Attorney, Mr. Smuts, of the arrests is unsatisfactory, and the mystery is one that calls for immediate elucidation.

**TRANSFER AGENT AND REGISTRAR:**  
THE NATIONAL TRUST COMPANY, LIMITED, Chief Office, Toronto and Montreal, Canada.  
**HEAD OFFICE:**  
TORONTO, CANADA.

\$500,000 of the Preference Stock has already been subscribed for by certain of the Directors, and will be allotted to them for cash. \$500,000 of the Preference Stock is retained in the Treasury of the Company for purposes of its future operations.  
**THE NATIONAL TRUST COMPANY, LIMITED, offer for public subscription the balance, viz:**  
**\$2,000,000**  
**7 PER CENT. CUMULATIVE PREFERENCE STOCK AT PAR.**

**THE CANADA CYCLE AND MOTOR COMPANY, Limited,**  
is to be incorporated under the Ontario Companies' Act to acquire as going concerns the businesses, as manufacturers and dealers in Bicycles and Bicycle Parts, now carried on by the following well known Companies:  
**MASSEY-HARRIS COMPANY, Limited, H. A. LOZIER & COMPANY (Cleveland Bicycles),**  
**WELLAND VALE MANUFACTURING COMPANY, Limited, GOOD BICYCLE COMPANY, Limited,**  
**GENDRON MANUFACTURING COMPANY, Limited,**

including the Plant, Machinery, Tools, Stock-in-Trade, Fixtures, Patent Rights, Trade Marks, Trade Names, Copyrights, Good-will and Liabilities of the above-named Companies in connection with their said business; and including also all the real property of H. A. Lozier & Company, and The Good Bicycle Company, Limited.

The bicycle industry is one of great importance and magnitude in Canada. The constituent Companies are the leaders in the trade. Their Trade Marks and Brands are everywhere popularly known, and by reason of their world-wide reputation for unrivalled excellence some of the Companies enjoy a large and growing foreign trade which offers a favourable field for development, and which this Company proposes to extend. The Companies give employment to about 1,700 men. Their outputs for the past year aggregated about 38,500 bicycles. The plant and machinery are of the latest and best equipment, and capable of twice that production with but small additional outlay in tools. The factory is to be acquired by the Company are especially adapted for manufacturing purposes; have advantageous shipping facilities, and will permit of ample extensions to the existing buildings.

Each of the above-named Companies has covenanted not to engage for long periods of years in any business competing with the bicycle business of this Company.

**NET EARNINGS.**  
The steadily progressive character of the business of the constituent Companies is shown by the following Accountants' certificate:  
We certify that the combined net profits in the businesses of Bicycles and Bicycle Parts of the Massey-Harris Co., Limited, H. A. Lozier & Co. (Cleveland Bicycles), Welland Vale Manufacturing Co., Limited, Good Bicycle Co., Limited, and Gendron Manufacturing Co., Limited, for the past three years, are as follows:—  
1896-7 - - - - \$190,914.02  
1897-8 - - - - \$304,907.03  
1898-9 - - - - \$330,115.35

**ADVANTAGES.**  
Amongst the advantages to be gained by this amalgamation of interests, the following may be enumerated:—  
**FIRST**—Reduction in selling and distribution expenses, and advertising.  
**SECOND**—The economies and improvement in production arising from the practical knowledge of the members forming the Board of Directors, which will be available for each branch of the business.  
**THIRD**—The economies due to consolidation of management, manufacturing, office work, and of buying, distributing, and financial arrangements.

The Directors are fully alive to the desirability of conserving the individuality and initiative of the various businesses, and will not allow consolidation to act detrimentally in these matters, but there are obvious advantages to be gained, as, for example, in buying in large quantities in the best markets, in the supply of ample capital, and in the manufacture of a large output of high-grade wheels at prices to meet the demands of the public.

**MANAGEMENT.**  
The Management of the Company will be in the hands of experienced manufacturers, who have been identified with the leading bicycle companies of Canada in the past, and have made a success of the business.

**WORKING CAPITAL.**  
The Company will commence business without any bonded or mortgage debt and with a working capital in excess of \$1,000,000, exclusive of the additional capital available from the issue of the Preference Stock in the treasury (\$500,000).

**DIVIDENDS.**  
The Preference Shares shall confer the right to a fixed cumulative preferential dividend of 7 per cent. per annum accruing from the date of payment by subscribers, to be provided for out of the net earnings of the Company before any dividends are paid upon the common stock, and the further right to repayment of capital in priority to the common stock, but they will not be entitled to further participation in profits or assets. If in any year dividends amounting to 7 per cent. are not paid on the preference stock the deficiency shall be a first charge upon the net earnings of the Company and shall be paid subsequently before any dividend is paid upon or set apart for the common stock.

Dividends will be payable half-yearly on the 1st days of May and November, or such other half-yearly dates as the Directors may determine.

**RESERVE ACCOUNT.**  
The Charter of the Company will provide that 25 per cent. of the balance of the net earnings, after payment of the 7 per cent. dividend on the Preference Stock, shall be annually transferred to a reserve account in the books of the Company, the better to secure to the Preferred Shareholders the payment of the 7 per cent. dividend on their preferred shares, and such annual transfers shall be continued until the amount of said account reaches \$500,000, at which sum it is to be maintained, and it is at any time drawn upon it is to be in like manner restored and maintained.

The amount required to pay 7 per cent. on the preference stock already taken by the Directors and that now offered to the public being \$175,000, it is considered that such dividends are amply assured, and the above reserve account of \$500,000 has been stipulated for in order that the position of the preferred shares may be rendered independent of any possible contingency.

**AUTOMOBILES.**  
It is intended that an important part of the Company's undertaking will be the manufacture and sale of motors and motor vehicles. This branch of business is a natural outgrowth of the Bicycle industry, and is believed to offer a profitable investment for the capital and the large and successful experience in manufacturing which this Company will command.

Arrangements have been made to have the books of the Company regularly audited by Chartered Accountants. Application will be made in due course to have the stock of the Company listed upon the Toronto and Montreal Stock Exchanges.

**\$2,000,000 7 per cent. Preference Stock in the above Company will be offered for public subscription at PAR on WEDNESDAY, the 6TH DAY OF SEPTEMBER, 1899, payable as follows:** 5 per cent. on application and the balance of 95 per cent. on allotment. The right is reserved to reject or reduce any application, and subscription carries with it an agreement to accept such reduced amount. The failure to make payment when due forfeits the previous payment. In case no allotment is made the amount deposited on application will be returned.

**Subscription Lists will open at the chief offices of the National Trust Company, Limited, Toronto and Montreal, and at the Head Office and Branches of the Canadian Bank of Commerce, at 10 a.m. on Wednesday, the 6th September, '99, and close at 3 o'clock on the following day.**

Forms of Power of Attorney to subscribe may be had on application to any branch of the Canadian Bank of Commerce, or to  
**THE NATIONAL TRUST COMPANY, Limited,** 26 King St. East, Toronto, Canada Life Bldg., Montreal.

THE PONTON CIVIL SUIT.

Judge Street's Action Being

Reviewed at Toronto

To-day.

Argument in the Case Began Late This

Afternoon Before Chief Justice

McReth and Mr. Justice Ross.

(Special to the Intelligencer.)

Toronto, Sept. 7, 3:15 p.m.

Judge Street's refusal at Cobourg to

postpone Ponton's suit against the Dominion

Bank for \$50,000 damages for alleged

false arrest in connection with the robbery

of the Bank's branch at Napanee, is being

reviewed by Chief Justice McReth and

Mr. Justice Ross in Divisional Court here

to-day.

Ponton had said his witnesses were not

available, but the Bank's counsel had con-

tended that the evident object of the

application for adjournment was to delay

the civil suit until after all criminal pro-

ceedings had been disposed of.

Argument in the case began late this

HAPPY SEPTEMBER BRIDES

Weddings Galore in the City and

District.

GOULD-RINDER.

The residence of Mr. J. V. Snider, Fox-

boro, was, last evening, the scene of an

event that many had looked forward to. It

was the marriage of his daughter, Miss

Lettie, to Mr. Frank H. Gould, of Plain-

field, son of the late Mr. E. N. Gould.

Over one hundred invited guests were in

attendance to witness the ceremony, which

was performed by Rev. R. Duke and Rev.

F. J. Anderson as assistant. The bride

was assisted by Miss L. Wright, of Tweed,

and the groomsmen were Mr. Mark Snider,

a brother of the bride. After the nuptial

kiss had been exchanged the couple partook of a

sumptuous wedding repast. The groom's

present to the bride was a beautiful ladies'

gold watch and chain, and to the brides-

maid a handsome gold pin. The young

couple are well known and have a host of

friends who will join with us in offering

congratulations. Mr. and Mrs. Gould

will take up their residence in Plainfield.

THORNTON-NIMMO.

At 7:30 yesterday morning at St. Peter's

Church, Brockville, Miss Susan Nimmo,

daughter of Rev. Dr. Nimmo, Anglican

clergyman of Rawdon, was married to Mr.

Albert D. Thornton, of Montreal. Venerable

Archdeacon Belford Jones performed

the ceremony in the presence of the

immediate friends. The bride was accom-

panied by her father, who left for a trip

eastward, after which they will take up

their residence in Montreal.

LINTON-BAKER.

A quiet wedding occurred this afternoon

at the residence of Mr. Wm. Baker, Canif-

ton Road, when his daughter, Miss Madge,

was married to Mr. A. Linton, of Madoc,

a former well known young man of this

City. Only the immediate friends of the

couple witnessed the ceremony.

The ceremony was performed by Rev.

C. J. H. Hutton, rector of Christ Church.

Miss Baker, sister of the bride, was brides-

maid, and Mr. Linton, of Campbellford,

brother of the groom, was best man.

HOLLEY-REID.

THE MUNICIPAL CONVENTION

Reform in Government of Municipalities

Advanced a Stage.

Mr. J. A. Culham of Hamilton, Ohio,

Told How the People's Money Was

Saved by Having a Commission In-

stead of Council—The Way They Do

Things at Hamilton, Ontario, Now—

Resolutions Passed.

Hamilton, Sept. 7.—Yesterday morning

the annual convention of the Municipal

Reform League of Ontario, held at the

Hotel Hamilton, opened with a session

of business. The convention was presided

over by Mayor Tait, with a much larger

attendance than yesterday. J. A. Culham

read a paper on "Municipal Reform in

the United States." The paper dealt largely

upon the development of municipal govern-

ment in the United States, speaking particu-

larly of Hamilton, Ohio, where the board of

aldermen and the government of the city put

in the hands of five commissioners, who, in

the first month of office, saved in civic

expenditures some \$20,000. Mr. Culham

followed this with a resume of the municipal

reform in the United States, and urged the

convention to take some steps toward im-

proving conditions in municipal affairs in

Ontario, and suggested the appointment of a

committee to consider the advisability of

forming a municipal improvement league

in Ontario.

Report From Special Committee.

Following the paper came a report from

the special committee appointed to con-

sider the resolutions presented yesterday.

The report was as follows:

1. That in the opinion of this conven-

It renders the work of the farmer easier and more profitable by draining the soil. It is made of iron plates, each 12 inches long, 6 inches wide and 1/2 inch thick. They are arranged in a series of parallel lines, and are connected by a chain. The plates are driven into the soil by a horse-drawn implement, and the water is then allowed to flow out of the soil through the plates. The plates are made of iron, and are very durable. They are also very cheap, and can be bought in any quantity. The plates are made of iron, and are very durable. They are also very cheap, and can be bought in any quantity.

### DROWNED IN MAINE.

Successful Dental Specialist, Formerly of Belleville, Meets a Sad Fate.

News has been received of the drowning of Dr. George B. Emerson, dental specialist, of Boston, which had event occurred yesterday morning near Moosehead, Maine. It appears that the doctor and his wife were camping at the above place. The telegram simply announced that Dr. Emerson was drowned yesterday morning and that his wife was going to Boston with the remains to-day.

Many residents of this vicinity will remember the deceased gentleman, who was a man of superb physique and exceedingly popular. He was 52 years of age, and left this vicinity when about 17 years old. He was born in Thurlow township and studied in the office of the late Dr. Gilbert, Belleville. He practiced for some time in Lawrence, Mass., and later in Boston, his practice being a most successful one, his clientele including patients from nearly every city between Maine and Mexico.

The doctor was married about fifteen years ago to Miss Hattie Walton, sister of Mr. George B. Walton, of this city. They had no children. Relatives in Belleville and vicinity include Mr. S. C. Emerson, of Corbyville, brother of the deceased gentleman; Mrs. W. B. College Hill, a sister; and Miss Lillian O. Emerson, of THE INTELLIGENCER office, a niece.

### Ribs Broken.

Yesterday afternoon a man named Naylor, an employee at ex-Mayor Lingham's brick yard in Thurlow, fell off a load of wood, breaking two ribs and otherwise injuring himself. A physician from the City attended the injured man.

### WHAT PEOPLE ARE SAYING

That the attendance of Belleville people at the Toronto Exhibition was above the average this year.

That the band made it interesting for one of its members last night, but there was no need for their playing "She is more to be pitied than censured."

That there is an abundant supply of good water in the well at the corner of George and Dundas streets, but the residents of that locality are unable to obtain any owing to the pump refusing to perform its duty.

That things are looking wonderfully prosperous at Albert College. They have very many more non-resident students this year, both ladies and gentlemen, than ever before.

That the speaker of the day, Dr. Dyer and his able staff of assistants, an educational institution which passed 95 per cent. of its students in 1897 and about the same this year has a record to be proud of.

That the ratcatchers of Belleville want to get their thinking caps on and make up their minds who they are going to elect for Water Commissioners on the 1st of January.

It does not always follow, because a man is successful in his own private business affairs, that he is going to be a shining success as a public official. Quite often the opposite is the case. Several names are mentioned as applicants for the office.

Some of them would make fair businessmen, and some of them, judging by their records in other public positions, would be about as much use as a snow plough in the month of July.

That the question of water meters is becoming a live issue. A great many people think that those who desire meters should get them. At present, people are told that, unless they use a certain amount of water they are not entitled to a meter. If this, they say, is one of the rules and regulations of the Water Department, it is in common with some others, is capable of improvement.

By the use of a meter a perfectly fair valuation can be put on service. In no other way can it be done. They hope that before long the Water Commissioners will see their way clear to supply each customer with a meter and remove the absurd restrictions as to so many hours' service which are at present in force.

That it is a good thing for people to have bath slides at a story. We have given one side of the Waterworks story up above. Here is the other: In no City in Canada are meters allowed except in the cases of large manufacturers, who use water in great quantities. If all customers of the Waterworks were allowed meters they would get the rates down to the lowest that could be run at a loss. That kind of thing might be allowed in the Postmaster-General's department, but if the Belleville Waterworks did not pay expenses the very people who are now complaining about the high rate would be willing to let their slide hammers and would be glad to let the department for doing the very thing they are now advocating. As to the hours of the law service, the people here are treated with as much, if not more liberality than they are anywhere else in Canada. In Toronto people are only allowed to use the law service for two hours, at night; at Belleville they have four hours, and when the law service is in use the nozzle of the hose must be held in somebody's hand. These samples of the restrictions in other places.

### BEAR STEAKS

IN PROSPECT.

### A Belleville Sportsman Who Has Gone After Big Game.

For some time past the inhabitants of the late concession of the Township of Rawdon have been alarmed at the presence of a large black bear in that part of the country. Evidences of his presence in the locality has been apparent on several occasions and an effort has been made to capture him, but thus far without success.

This morning a well known sportsman, of the City, heavily loaded with guns and ammunition, and accompanied by three large hounds, drove out to Rawdon for the purpose of securing the prize if possible. It was his intention to secure the assistance of some of the residents near where the bear is said to be in hiding, and a general hunt would ensue. It is to be hoped that the party will be successful in their expedition.

### RED HOT TALK IN THE ROAD

Sir A. Milner's Reply Worked Boers into a State of Mind.

British Troops are There, and They are on the Border to Protect British Interests and Provide Against Unpleasantities—Krugers Roasts Chamberlain, and Eulogizes Gladstone's Action of Retrospection in 1881—A Lively Scene.

Proctor, Sept. 8.—There was great excitement in the first Row yesterday, on Mr. Crocker's interpretation of the Government regarding the presence of British troops on the borders, and the stoppage of ammunition consigned to the Transvaal.

The State Secretary, Mr. F. W. Reitz, said he had called the previous day on the British diplomatic agent, Mr. Conyngham Groom, and had asked him what reply the Government could give in the Transvaal regarding the alleged massing of British troops on the borders, and whether Mr. Groom would communicate with the British high commissioner, Sir Alfred Milner.

The Reply Received.

The reply from Mr. Groom, he continued, had been received yesterday morning, and was in the following terms:

Dear Mr. Reitz:—The following is Sir Alfred Milner's reply to the telegram which I sent him at your request: "I do not know to what Mr. Reitz refers, when he alludes to the massing of troops. This must be the British troops in South Africa, the position and numbers of which are a matter of common knowledge that they are here to protect British interests and to make provision against eventualities."

One member said: "England's action is like putting a revolver into a man's face."

Another concluded a warlike harangue in this strain: "It is time to send our burghers to the borders to ask the troops what they want. The fire is bound to start. So let them light it and allow it to burn out quickly. War is better than this state of affairs. Business is dropping and the public treasury is drying up. Chamberlain is trying to ruin the country."

These speeches, and others attacking Cecil Rhodes, were loudly applauded by the House.

A Declaration of War.

The debate continued throughout the afternoon. Mr. Tson, who declared that Sir Alfred Milner's reply was tantamount to a declaration of war, read a telegram from the field colonel of the Pretoria district stating that the people there were rising in rebellion against the British and the public treasury is drying up. Chamberlain is trying to ruin the country."

President Kruger, rising, said: "The allies have been offered equal rights with the burghers, but have refused them. Mr. Chamberlain is striving to get a franchise for every purchaser. You have a great deal to discuss. The burghers are willing to concede what for the sake of peace, but will never concede their independence."

After eulogizing Mr. Gladstone's action of retrospection in 1881, as a noble deed, President Kruger said that, if it now came to fighting, the Almighty would be the arbitrator. He urged the members of the House to show moderation, reminding them that the reply from Mr. Chamberlain was in essence, and pointing out that if the proposal for a commission was agreed to, the Republic would send delegates to further discuss matters, and, if possible, to make peace. The speeches following the President's were more moderate in tone, and the Road rose without passing any resolution.

Cape Town, Sept. 8.—The Boers, it is stated positively, are concentrating on the border.

Government Will Help.

Johannesburg, Sept. 8.—The burgomaster announces that the Government will help the municipality to continue its preparations for hostilities.

Equipped With Field Guns.

London, Sept. 8.—The Daily Mail publishes the following despatch from Johannesburg: "It is reliably reported from Pretoria that a special military train, with a body of armed men, was despatched to the Natal Company, and the whole structure was completely destroyed, together with about a thousand stores. The five trains from 5 a.m. yesterday till 11 o'clock. Details have not yet been received."

Boer Artillery Called Out.

Bloomfontein, Orange Free State, Sept. 8.—It is understood that all the Transvaal artillery has been called out and that the burghers have been notified to be ready. The latest report of the Transvaal to Great Britain is regarded as marking the disappearance of the last hope of peace.

Fire Raged Six Hours.

Quebec, Sept. 8.—News comes that at Riviere a fire on the line of the Quebec & Lake Saint John Railway, broke out in the large pulp wood mill of the Riviere Pate Lumber Company, and the whole structure was completely destroyed, together with about a thousand stores. The five trains from 5 a.m. yesterday till 11 o'clock. Details have not yet been received.

The Enfranchisement of Women.

Melbourne, Victoria, Sept. 8.—The Legislative Council of the Colony of Victoria yesterday rejected the bill for the enfranchisement of women. A similar measure became law in the Colony of West Australia a fortnight ago.

Groceries Present to Dr. Bell.

Kingston, Sept. 8.—A lad called at Dr. Bell's and left him a parcel, which he said a woman he had met on Williams street had asked him to deliver. The boy disappeared, and Dr. Bell opened the package and found the body of a dead male child. He rushed out to overtake the messenger, but failed. The child had lived. A coroner's inquest is now proceeding.

## DREYFUS FOUND GUILTY A DREEZY SESSION.

And Given a Sentence of Ten Years.

(By Associated Press To-day.)  
Rennes, September 9.—At 5:02 the court rendered a verdict of guilty and Dreyfus was sentenced to ten years' imprisonment. The crowd outside greeted the verdict with cheers for the army. The court stood five to two for the condemnation of the prisoner and found extenuating circumstances. The judgment will be carried to the military court of appeal, which will be a formal matter. The appeal court will only quash the judgment and order a retrial if it should be established that the present court martial had erred in a matter of procedure. The Court of Cassation has also the right to order a retrial if it should decide that the court martial has deviated from its instructions.

## Was very Satisfactory.

The current from the new line of the Trenton Electric Light Company was turned on last night for the first time in the city, and the test proved to be very satisfactory.

In the Central Station was placed a new closed arc lamp which is a great improvement over the old lamp, as it casts no shadows. This lamp will run continuously for 150 hours, without recharging. In addition to a number of electric light being a number of incandescent lights were also tried and proved to be equally satisfactory.

## The Horticultural Show.

On Wednesday and Thursday next the Belleville Horticultural Society will hold a show in Mr. Sewell's stable ring, Pinnacle street, which promises to be the best display ever made by the Society. All entries must be made by 5 o'clock on Monday. On Wednesday evening a grand promenade concert will be given in connection with the show, at which the I.O.O.F. band will be in attendance.

## Surrogate Court.

George Conley, late of the village of Stirling, Probate of will granted to Mr. F. B. Parker. Estate \$5,300. Mr. W. N. Ponton, Solicitor.

## WHAT PEOPLE ARE SAYING

The question "Will there be war?" is the all-absorbing topic in Belleville just now.

It is true these are growing times in Belleville, but a good many merchants say it is the outstanding debts that are growing.

That the Toronto exhibition this year was more like a big variety show than an Industrial fair. The industrial end was neglected and the pink lights and high kicking end was made too prominent, the result being that the Fair as a whole was a disappointment.

That a chime of bells in one of our City Churches would be a popular innovation. Belleville has beautiful churches, why not try to secure one of the most charming features which other places enjoy? Only those who have heard them can understand their delightful melody, when borne on the evening breeze. Would not a subscription be popular?

That nearly anything will pass for "news" in Kingston. The cheerful ill of the Times gets off the following: The latest story concerns a tailor in that sleepy burg called Belleville. This gentleman uses tanglefoot to entangle customers. He places it where citizens are likely to sit down, and consequently his establishment has become the seat of trade for fine summer trousers.

That everybody connecting with Queen Victoria School is wearing a smile these days. The opening was very successful, the attendance being beyond the average for the past two years, and the prospects just now are that the season of 1899-1900 will be one of the brightest in the history of the school. To the great delight of the indefatigable principal, Mr. Milburn, the pupils seem to be actuated by a laudable ambition and the late departmental examinations will probably set as a fair incentive.

That now the holidays are all over it might be as well to do a little moralizing and lay a few plans for next year. It is not necessary to call anybody's attention to the fact that there wasn't a celebration in Belleville this year, and also that we are not going to have any fair. It will be remembered that the 15th Batt. asked for a grant to bring the Governor-General's Foot Guards here on Dominion Day. It was refused. Now, considering that the 15th are the means of \$4,000, and we are not going to have any fair, they certainly, many people think, deserve a little more consideration.

## Mr. Thompson said it was done by the Chairman's order.

The matter of the Waterworks extension to the Rolling Mills came up, and the Mayor thought the expense should be paid out of the elevator fund.

Some of the aldermen demurred to that, and thought it should come under the head of legitimate Waterworks expenses.

The Mayor said it was part of the contract with the Rolling Mills Company that they should be granted free protection, and that was what this was. It was not certain that the Rolling Mills would be customers of the Waterworks at all. Why saddle the Waterworks system with a debt for which they were not responsible.

Ald. Stirling said he thought the Rolling Mills would take water from the City.

The Mayor said Mr. Mitchell had told him that if intended, if possible, to use his own surplus steam in pumping his own water.

Ald. Stirling said pipes were going to be laid in both buildings.

"Mr. Mitchell does not say so," said the Mayor, and the discussion warmed.

Ald. Robinson thought the Waterworks Department should borrow the money to make the extension to the rolling mills, and introduced a motion to that effect, which carried.

A long discussion ensued about people being charged for water. They had taps in their stables, when they were ready to water they did not use the tap, and the fact that in certain parts of the city free water is provided was the subject of an animated debate.

The Mayor did not think it was right for one man to get a pail of water free while another man had to pay for it.

Ald. Robinson coincided.

Ald. Taylor did not seem to think it was right to stop poor people from getting water, and then for a minute or two everybody talked at once.

The Mayor said Mr. Mitchell was finally laid over and Manager Thompson was authorized to stop anybody from hauling water away from a public tap.

Mr. Samuel Hibbard got the contract for painting the water tower, his tender of \$85 being the only one received. The matter of paint was left in the Manager's hands.

The Manager was authorized to purchase five n.w. meters.

## MARKET AND CITY PROPERTY.

An account for \$280 from Mr. Nelson Lingham was laid over.

## EXECUTIVE COMMITTEE.

Ald. Doyle in the chair.

Mr. C. P. Holton appeared before the committee on an exemption of taxation on his mill for the year 1897. It appeared that in 1892 the mill was destroyed by fire and, on rebuilding, it was agreed by the Council that the mill should be exempt from taxation for five years on condition that they employed a certain number of men and fulfilled other requirements.

In 1893-4 five thousand requirements were fulfilled and all worked smoothly, but in 1896 the logs which were coming down the river got stuck and the mill was not able to run. The taxes were paid for 1896, but Mr. Holton now thinks he should be granted exemption for 1897, as he thinks he fulfilled the requirements in that year.

After many questions and a lot of talk it was finally settled that if Mr. Holton will make a satisfactory declaration at next Monday night's Council meeting to the effect that he carried out his obligations to the City in the year 1897 the taxes will be remitted.

The various accounts of the different other committees were passed.

A bill was presented for \$65.25, being the expenses incidental to a four day's trip to Montreal of the Mayor and City Treasurer.

Ald. Robinson thought the amount was excessive. He would like to see an itemized report.

The Mayor said they went to Montreal on the City's business, and they were sent by the Council. He had given up five days of his vacation to go. When he went to Montreal on private business he put up at the Windsor, and when the City sent him he would do the same thing. "What are you talking about, Robinson?" said His Worship. "You charged the City \$14 for one day's trip to Toronto."

"That included railway fare," said Ald. Robinson.

"Does this include railway fare," said the Mayor, and then he went on to make unkind remarks about a certain wall paper transaction.

"You have violated your obligation, Ald. Robinson," said His Worship.

Ald. Robinson stood up and struck an attitude. "Take action if you want to. I'm ready for you, Johnson," he said.

Ald. Doyle—"Order, order."

Ald. Doyle thought a special committee should be appointed to investigate Ald. Robinson's bill.

Ald. Robinson—"I know you are always after me with a knife, Johnson, but any way I'll show you I'm a scoundrel."

The Mayor—"I went to Montreal with the Treasurer as the Council ordered me to do, and you'll pay my bill."

Some other items which had already been paid came up, and Ald. Robinson found fault with them and was severely sat upon and told that he should have been in his place when they came up originally, and the Mayor told him that a man who was absent from his seat for four months in the year should not do any loud talking when he came back.

Tenders were then opened for the printing of the Municipal voters' lists, and the Ontario got the work, their tender being the lowest.

The following accounts were passed: Ald. Robinson, \$45.75; INTELLIGENCER Co. re Waterworks, \$17.30; Bishop Engraving Co., \$17.50; J. W. London, \$2.45; D. Graham, \$11.82; pay sheet No. 18, \$189.00; C. C. Leavens, \$28.88; J. Lewis & Co., \$43.25; J. Lewis & Co., \$53.20; Jutta Percha Co., \$6.00; San Co., \$10.00; J. Lewis & Co. re Waterworks, \$63.25; J. Edgar, \$35.00; Miss Roberts, \$18.00; A. W. Rowland, \$11.25; Express charges, \$1.70; Mayor and Treasurer's expenses to Montreal, \$65.25.

Ald. Jones, Pantar and Hungerford were the only absentees.

The committee adjourned at 10:55.

## FURTHER PARTICULARS

### Relating to the Sad Death of Dr. George F. Emerson.

The following, from the Boston Herald of the 8th inst., gives further particulars of the accident which befell the late Dr. Emerson:  
"Word was received in this City this morning of the drowning, yesterday, of Dr. George F. Emerson, a dentist in the Piers Building, Copley square. Dr. Emerson lived in Allston."  
A later dispatch from Greenville, Me., says that Dr. Emerson had been fishing in the vicinity of Kineo for several days. Yesterday he and a guide went out in a canoe on Indian pond. The doctor, while standing in the craft, lost his balance and fell overboard. The guide made an effort to save him, but was unsuccessful. He was about 55 years old and rather fleshy. His wife accompanied him in his camping trips.

### Nice Fall Overcoats.

This is the weather for a nice new fall overcoat and the Oak Hall is the place to secure it. Come and see the new coats we are showing. Just opened this morning a new line of worsted hosiery, brown color. The latest cut and only \$10.00. Perfect fit.

### Rev. Dr. Workman's Case.

Toronto Star: The whole case is so simple. A noted scholar, stammered and mispronounced for years, asks in God's name for an opportunity to vindicate himself, to set himself right in the eyes of the intelligent members of the great church to which he belongs. Every man with the slightest notion of justice and fairness would be inclined to grant the request of Dr. Workman for a fair hearing. Yesterday, however, this Court of Appeal said no, and their decision is the most shameful piece of injustice that has ever stained the judgment books of Canadian Methodist divines.

## WHAT PEOPLE ARE SAYING

That one of our most popular dry goods clerks is going to start business for himself in a neighboring village.

That the Saturday night bargain sales are a popular institution in Belleville.

That the market gardening industry has proved very profitable during the past summer.

That a month or so ago attention was called in these columns to the dangerous condition of the south side of the footbridge. No notice was taken of it. Yesterday two young ladies tore large rents in their dresses through coming in contact with the nails which stuck out there. Ladies who cross the footbridge should be careful.

That the fact of the Smead-Dowd system being declared, by Judge Macdonald, a violation of the Toronto plumbing by-law is enough to make the Belleville School Board institute a few enquiries.

That the sidewalk got in their work again yesterday. A lady was going to Sunday school on Holloway st. Somebody stepped on the end of a loose board and the lady got a bad fall. Moral: "Keep in the middle of the road."

That the ladies are anxiously waiting for the fall millinery opening, but the gentlemen look on them as "breakers ahead."

That the consensus of opinion in Belleville seems to be that if a man can't preach a good sermon in half an hour he can't preach one at all.

That a certain young man went to the Toronto fair with a clean collar and a ten dollar bill. He stayed there a week and changed neither.

That a newspaper man in Kingston claims he prays harder than any other man in town. We will risk the opinion that certain Belleville newspaper men are past praying for.

That the Kingston Whig ran more to truth than most papers when it printed the following on Saturday night: "Why, just look at Belleville; there's the Quinsie house, a modern hostelry which eclipses anything we have in this city."

That the question "Shall American currency be taken at par?" is an important matter with some of our merchants just now. Some take it, some don't. It would be a good thing to have an unanimous agreement arrived at.

That everybody who has learned to ride the festive bicycle will have a feeling for a good-natured son of Albion who resides on Front st. near the Cadillac road. He is just mastering the art of riding the steel steed, and this morning told a friend of a funny incident which befell him. "I was coming down Front st. this morning," he said, "and as I was cycling, all of a sudden, without a moment's warning, one of the trees in front of the Mac Machine Company's building came right out in the road and knocked me off the blooming wheel." He intends to keep his eye open for that tree after this.

## THE TRUE ROAD TO HAPPINESS

### Is Plain Before Those Who Earnestly Seek Divine Aid.

Practical and Helpful Sermon by Rev. M. W. Maclean on Sunday Morning—Notes of Services in Other Places of Worship.

At St. Andrew's Church yesterday morning, the pastor, Rev. M. W. Maclean, occupied the pulpit and delivered an earnest and able discourse, the theme of which was "True Happiness." There was a good congregation present, and the sermon listened to with close attention. In his opening prayer the Rev. gentleman, before divine aid for the British Empire, referring especially to the present Transvaal trouble and invoking divine guidance towards a peaceful solution of the affairs. After the usual devotional exercises the sermon was delivered, the text being taken from Job, 11th chapter, 13, 14 and 15th verses. The following is a synopsis of the Rev. gentleman's discourse:

If thou prepare thine heart and stretch out thine hand toward Him, If iniquity be in thine hand put it far away, and let not wickedness dwell in thy tabernacles. For then shalt thou lift up thy face without spot, thou shalt abide steadfast and shalt not fear.

In these verses we have set out before us the true road to happiness, and true happiness will follow those who earnestly seek the Lord. The preparation of the heart is the first step towards true happiness. Religion begins with meditation, thought and planning. Thoughtlessness is the cause of many of the errors of religion, and thoughtlessness has ruined many lives. Too little consideration is given to religion. We, too, are adverse to what is good and the teachings of God. No man, however, with common sense, is satisfied with his position in life until he asks whether he is right or not. How thoughtful the true and successful business man is about his earthly affairs. If we are thus so thoughtful of earthly affairs how much more needful it is that we should be thoughtful of the life that is to come. The interests involved in the life that is to come are of such importance that they should claim our most serious consideration. It is a matter that touches our soul's vital interest. Every person must either accept or reject the offer of God for eternal salvation. True it is that so many are neglectful of this important fact; they are negligent of God, who so bountifully provides for us. All nature calls us to remember the goodness of God. The sun shines, spreading its warmth upon the earth, the rain that causes crops to grow, the birds that sing, proclaim God's goodness. All nature proclaims the care of the Eternal Father over us. If we are to live forever in a consciousness of happiness then we must have the soul blessed with God. The scriptures tell us this. Man is not the outcome of mere chance, but he came from God, a perfect man, and is sustained and preserved by God. We should consider these truths and be actuated by them. Should we not give to Him the love of our hearts and work in His service? The heavens, justness and mercy of God should be seriously considered by us all. If the scriptures are true and are the words of God, we must then recognize that there is something more than struggling for mere temporal success. There is comfort and peace of soul in religion. It is the life of God in the soul, and will last present the soul blest with life before Him. There can be no neutrality in this matter. God says that whoever is not for Him is against Him. We are to approach God through His Son, who died for us that we might live. Christ, the God man, has a feeling for our infirmities, knowing our weaknesses. Christ has purchased our souls with His own blood. He suffered and died for us. Almightiness is on our side. The Lord will ever be on our side in time of trouble to help us. God grant that all may partake of His divine love.

### ST. THOMAS CHURCH.

At this place of worship yesterday the services were of an inspiring and thanksgiving nature. It was the annual harvest home services, and the interior of the edifice was beautifully decorated with flowers and fruit. At the morning service Rev. A. Stenden, of this City, preached, and in the evening Rev. J. Halah was the preacher. The singing was of unusual excellence being rendered by Miss Dame, of Brooklyn, N.Y., and Miss S. Hungerford, of this City.

### BELLEVEUE ST.

Rev. C. W. Watch, pastor, preached at both services yesterday, and his discourses were of a high order. There were good congregations present at both services. An especial feature of the services was the singing of Mr. J. S. McMurray, who rendered solos at both services, which were appreciated by all who were present.

### ST. MICHAEL'S.

At the morning service Father Connolly delivered a practical, scholarly discourse to a large congregation. At High Mass Mr. J. Nevin Doyle sang Ave Maria in a highly impressive manner. Special services will soon be inaugurated for a short season.

### BAPTIST CHURCH.

Rev. V. H. Cowart, pastor, occupied the pulpit at both services and delivered two very impressive sermons. The morning topic was "The Resurrection of Christ" and the evening "Hiding from God."

### ST. JOHN'S CHURCH.

The Rector, Rev. Randal Dean Bogert, preached yesterday at both services and his discourses were of a high order. Good congregations were present at both services.

### REFORMED EPISCOPAL.

The Rector, Rev. J. Gilliland, preached in the morning and Rev. Geo. Worrell in the evening. This will be the last appearance of the last named gentleman in a Belleville pulpit for some time, as he returns to Philadelphia shortly. His sermon was much appreciated.

### BRIDGE ST.

At this place of worship yesterday Rev. C. E. McIntyre, pastor, occupied the pulpit at both services and delivered two soul-

## inspiring sermons.

The morning subject was "A Word to Mothers," and in the evening "Christ's Appeal." The attendance at both services was large, especially that of the evening.

### TABERNACLE.

There were good congregations at the Tabernacle Church yesterday. The pastor, Rev. N. Hill, preached at both services.

### JOHN ST.

The services at this church yesterday were of a high order. Rev. T. Thompson, pastor, preached able sermons at both services.

### CHRIST CHURCH.

Rev. Mr. Gustin preached at Christ Church in the morning, and Rev. A. Stenden, Curate, in the evening.

Mr. J. W. Barlow and children, Macdonald ave., have returned home after visiting friends in Hangerford.

Miss Sarah McCreary left last night on the North King for Rochester, having spent the past four months with her parents.

Mrs. Sanford and Miss Elsie Sanford returned on Saturday evening from St. Catharines, where they have been visiting friends.

Mrs. John S. Marsh, who has been at Foresters' Island for several weeks, returned to the City on Saturday evening, much improved in health.

Mr. J. W. Boyce, of this City, left for Boston on Saturday morning, to attend the funeral of his brother-in-law, the late Dr. Patterson, in that city, yesterday.

Mr. W. H. George, of Chicago, brother-in-law of Mr. Walter Fanning, is in the city for a few days. Mr. George holds the responsible position of trainmaster on the C. B. & Q. Road, and reports being booming in railroad matters out west. The crops throughout Illinois, Nebraska and Iowa, Mr. George says, are the best in the history of those States.

### How to Become a Centenarian.

You quite surprise three eyes of mine. They say that you are ninety-nine. They say you are—you needn't frown—A regular buck about the town. You hit the bottle when its ripe. And each half hour you lift the pipe. The old man simply shook his head. "They do not faze me," he said.

"I dare to do these things because I'm younger than I ever was. I'm suppler round about the knees. I'm learning tricks on the trapeze. I bob and row, I ride a wheel. Because just after every meal I cannot feel Death's subtle touch. Because I finish up with Huth."

"I've solved the problem, boy, of life. I've solved the struggle and the strife. In truth, I know when I will die. The stranger fixed him with his eye. The man, although so old and gray. Looked happy, fresh and crisp and gay. "Old Death will have me in its clutch As soon as I quit taking Huth."

### A Tyendinaga Theft.

On Saturday, while Mr. and Mrs. Theodore Parks, who reside in the 6th concession of Tyendinaga, were in the city, their residence was entered and some articles stolen. Amongst other things missed in a patent lever silver watch and chain, attached to the latter being a gold piece; also a penknife and gold pen. It is thought that the party who broke in rode a bicycle, as the tracks of a wheel were seen in the mud up to the milk stand, where the culprit probably dismounted. The officers of the law are endeavoring to find the guilty party.

### Arrested for Assault.

Richard Barrago, a young lad, was arrested this morning on a warrant, charged with assaulting Harry Lott, son of ex Ald. Lott. Owing to the absence of the P. M. from the city, the case will be tried tomorrow.

How It About Liberally to Secure Breithaupt's Election.

Frederick Schmueck Got \$25.—J. Lauber told He Received \$75, But He Was Caught Up in Cross-Examination.—The Scherer Family Compact.—Hosard worked the Lot at a Considerable Expense.—Court Adjourned Till Sept. 21.

Lin. Ont. Sept. 11.—Court opened at 10 a.m. on Saturday. Mr. U. H. Hosard was the first witness. His evidence was so show various political guests at the hotel. Mr. Harry Brown, clerk at the

tion, testified to the presence of Alex. J. Vance, Lewis, H. Jeffrey, J. O. Gentry, J. H. Thompson, J. E. Keld, J. W. Thompson (Whitey), Keld (London), William Carroll Park, T. W. Yates, at the Walpole Hotel, during the election period; also E. J. Davis, Harry, Harcourt, Glendon and the Premier.

The object of the prosecution is apparently to connect one or more of these men in high places with corrupt acts.

They Were Consorting Together.

Brown consorted more or less of the same in question consorting together during their stay.

Aylesworth took objection to this evidence, as he did not see the necessity of going on further without establishing a case for the Lordship ruled otherwise, and Jacob Barker was then called.

Charge No. 50, Jacob Stepien, called, and he was approached by Richard Barker, offered him \$500 for the

he received through a third party,  
and  
Leuber was then called, and swore  
to \$75 from Bessard, but on cross-  
examination he contradicted and got  
out of the witness stand. In the  
matter of the 27 double crossed  
votes, a decision was reached ordering  
the voters to be sworn in, and  
to determine who the voters were,  
he also to ascertain if they were not  
marked after leaving the voters'  
hall.  
Frank Scherer was "seen,"  
and  
Frank Scherer, next called, sworn, said  
he took the vote in the township of Water-  
bury, and that he was to go to the  
election by Bessard, who asked  
how I was going to vote. I told him  
I was going to vote for Leuber, and  
he sent me \$25 to vote for Breithaupt,  
and

who was going to vote. I told him I would not go to the election and he sent me \$25 to vote for Breithaupt, who later on, at his hotel in Berlin, complimented me and received \$35, in consideration of my vote. I told him I also got \$10 more from my brother, Barney, some time later, who told me that he had paid me \$8 for every vote I received. I offered Peter Reier \$20 to vote for me, and he told me that the woman I liked, who was called "the woman," I also asked Ignatz Roth to vote for Breithaupt, but both the men refused.

**\$5 a Vote.**

I offered \$5 a vote that Bassard took on my behalf or so before the election; on that day he took an election at the hotel and gave him \$35, and offered me \$5 for every vote he could turn out. I told him that I was going to vote on the day of the election, and he said: "The poll in New Germany was a gain of four votes for Breithaupt, and Bassard gave me \$30, at \$5, per vote."

**Another Scherer in It.**

I told George Scherer, sworn, said, I live in the neighborhood of Woolwich, Bassard told me that he had paid me \$10, and the poll was increased by ten over the election. On he gave me the \$80. After the election on 1st June, I told him that I was going to vote and gave Joe Lauer \$10, at I not buy any votes. When asked, I said that he was visited last week by a man who was called "the woman," who was liable to a fine and imprisonment for accepting bribes and money at an election.

Scherer and Seellen are the local leaders in interest of Mr. Breithaupt.

The poll in New Germany was a gain of four votes for Breithaupt, and one for Election and Bossard gave \$30, or \$5 per vote.

Another Scherer in it.

George Scherer, owner, said, I live in township of Woolwich, 11 Barre. I have a vote for Election and Bossard. I was increased by two over last year. He gave me the \$50. After the election, I sent Bossard 100, and gave Joe Lauer \$10, as I did not buy any votes. When asked, he said he was visited last week by George Hill and Seelen, who told him he was liable to a fine and imprisonment for accepting bribes money at an election.

Hill and Seelen are the local lawyers in interest of Mr. Breithaupt.

Afternoon Session.

William Brohm, farmer, near Wellsboro, said he received \$10 from Breithaupt for a vote for Election and Mr. Eiler said he was offered \$3 by George Scherer to vote for Breithaupt.

## HAS SOMETHING NEW TURNED UP?

A Belleville Lady Subpoenaed as a Witness

In the Bank Robbery Trial at Cobourg  
—Rumors That Some of the Missing Dominion Bank Bills Have Been Found.

Speculation is rife about new developments in the famous bank robbery case, which comes up for trial on the 19th of this month at Cobourg.

Hearing that Mrs. Harriet Way, a widow lady who resides on Pope st., near the Fair grounds, had been subpoenaed as a Crown witness, our reporter called on her this afternoon.

"May I say, Mrs. Way," said our reporter, "if you have any information about the Bank Robbery case which you would wish to make public?"

"I know nothing about the bank robbery case," said the lady.

"What about certain bills that came into your possession?" said the reporter.

"I will willingly tell you all about them," said Mrs. Way.

"On the last day of February or the 1st of March, of the present year, I obtained a loan of \$200 from a Miss Lavina Hunter, of Nanawau. It was for my son, and was on a mortgage. I kept out \$25 and shortly after went to the Belleville branch of the Dominion Bank and presented the money for deposit. The teller scrutinized the money closely, and said the bills (which were of the denomination of \$5) were marked. I went out and returned with Miss Hunter, who was here at the time, and she said she had got the money from a grocery store keeper in Belleville."

"Were any other questions asked you?" asked the reporter.

"No," said the lady. "and no more questions were asked Miss Hunter either."

"It was rumored that the bills spoken of were damp and mouldy looking," said the reporter.

"I don't remember as to that," said the lady. "I only had the money in my possession for about an hour. The only remark the bank people passed was that the bills were marked."

"Have you been approached by any detective?" said the reporter.

"No," said Mrs. Way, who did not seem to at all relish her connection with the case. "The only person I have seen is the Sheriff, who served me with the subpoena."

## DEBENTURES NOT YET SOLD.

Last Night's Council Meeting a Business Session.

Mr. C. P. Holton's Request Partially Granted—The Wall Paper Bill Was Not Presented—Much Routine Business Transacted.

At the Council meeting last evening considerable business was transacted in an expeditious manner, nothing occurring to mar the harmony of the proceedings. This being the first meeting after vacation much business had accumulated, and the Council disposed of it expeditiously.

## WATERWORKS DEBENTURES.

The Mayor reported verbally as to his and the City Treasurer's trip to Montreal re the sale of waterworks debentures. Owing to the General Manager of the Bank of Montreal being out of the city at the time they were unable to have an interview with him until the second day of their visit. Owing to the condition of the money market at the present time the manager told them that the bid of 98 was a good one and the City could make a good sale at that price. This was all that could be obtained from him. They also interviewed Mr. Wilson Smith, ex-Mayor of Montreal, a well-known financier and money lender, who had made the bid of 98, and he informed them that his bid was off as he had not heard from the City. Mr. Smith informed them that he had bought bonds of the City of Winnipeg at a better price and all his money was at present invested. Barrie had sold bond bearing interest at 3 1/2 per cent. at par, and his Worship thought that a short delay of the sale would be beneficial. He had no doubt that a better sale than 98 would be effected. They were in communication with other parties and expected to hear from them within a few days.

The Mayor also reported upon the recent Municipal convention held at Hamilton, which he and Ald. Bogart attended. The convention was an important one and he had no doubt that if legislation was passed in the line suggested by the convention it would prove to be beneficial to this and other cities.

## COMMUNICATIONS.

The following communications were read and, with the exception of Mrs. Walker's, were referred to their various committees. From W. J. Andrews in reference to an open drain on Coleman st., asking same to be covered.

From Mrs. Geo. Walker, asking for sewer connection on Charles st.

From Mr. W. J. Diamond, objecting to the above petition as the sewer was built on the City's property.

From Mr. R. L. Sewell re assessment of skating rink, asking same to be remitted.

From Mr. W. J. Diamond, Secy.-Treas. of the Horticultural Society, asking for a grant of \$100 to that Society.

From Mr. H. P. Knight and others on William st., south of Bridge st., asking for a water main to be laid on that portion.

From the Mayor to the Rolling Mills Company, in reference to the tie on Ward st., which were laid upon the street and not filled in. In reply to this the company promised to fill in the road and make the crossings good. Their present condition was only temporary.

## COMMITTEES' REPORTS.

Reports were presented from the Executive and the Fire and Light Committees, as already published.

On motion the Council went into Committee of the Whole on reports, Ald. Hanley in the chair.

The Executive Committee's report was first taken up and discussed. A large number of accounts were recommended to be paid.

Ald. Robinson asked if the accounts re Park had been ordered by the Council.

Ald. Hanley—All were ordered by the Council early in the season.

Ald. Doyle—All the accounts were certified to by the proper parties.

The recommendation of the Committee that Mr. F. Dolan be paid \$200 on account caused some discussion.

Ald. Doyle asked if walks had been put down where they had been pulled up. Our Public Works appropriation was about expended and he did not see where the funds were to come from to make new walks or to repair any.

Ald. Robinson rose to a point of order, stating that this was not the question under discussion.

The chairman ruled that the point of order was well taken and the account passed without discussion.

The accounts re Water Works caused some discussion.

Ald. Robinson wanted to know who authorized the purchase of these supplies. It seemed to him that the Council should have more control of the purchases.

The Mayor-The Manager was authorized to purchase coal and other necessities.

Ald. Bogart said Ald. Robinson had been absent from the meeting and did not know what had passed the council.

Ald. Robinson said some members were endeavoring to besmirch his character. He had been absent from the meetings of the council. At the end of the year it might be found that other members of the council had been absent as many times as he.

The accounts passed.

The position of Mrs. Walker was taken up and considered, together with the counter communication of Mr. W. J. Diamond.

The City Solicitor said it had not been enforced as to assessments. He thought the city had the power to grant the request.

The Mayor stated that Mrs. Walker had approached him in reference to the matter, as she desired to improve her premises, and he had advised her to go on. He was surprised at Mr. Diamond's communication.

He urged, to the best of his ability, that she should not allow her to make connection with the said drain. He would be in favor of granting Mrs. Walker's request.

Ald. Pantor was in favor of granting Mrs. Walker's request.

Ald. Hanley was in favor of granting the request.

Ald. Bogart said in the past privileges had been granted to parties to make connection with sewers and he was in favor of granting the request.

Ald. Starling—I would take chances as to his (Mr. Diamond's) knowledge of law. He moved, seconded by Ald. Bogart, that the prayer of the petition be granted.—Carried.

Mr. C. P. Holton made a declaration as to the number of men employed and the number of hours work done at his mill in 1897.

The Mayor thought that Mr. Holton was entitled to another year's exemption of taxes as per declaration. Mr. Holton had in his opinion carried out his part of the contract.

Ald. Starling said he would support the motion if Mr. Holton in 1897 employed 20 men for 12 months during the year, as specified by the agreement between him and the City.

Ald. Bogart said he had done his utmost to carry out the contract made with the City.

Ald. Robinson thought the Council would be justifying itself if it granted Mr. Holton's request. It would be unfair to the Canning Factory, which was similarly affected some years ago, to grant Mr. Holton's request when they were compelled to pay taxes by not living up to the agreement.

Ald. Bogart said morally Mr. Holton had carried out his contract, but not to the letter. If the Canning Factory had to pay taxes for not complying with the contract, then he could not vote for Mr. Holton's request.

Ald. Robinson moved, seconded by Ald. Pantor, that one-half of Mr. Holton's taxes for the year 1898 be remitted.—Carried.

The request of the Horticultural Society for a grant was taken up.

The Mayor said we should have a statement of their financial position.

After a number of accounts were ordered to be paid the Committee rose and reported. On motion the report was received and adopted.

## REPAIRS.

Ald. Pantor asked why the recommendation of the Council to have Front street repaired had been disregarded and other streets repaired.

Ald. Hanley said it had not been disregarded. In reference to Queen street, he repaired it for this street, but it was repaired. As he had not given any authority for it, Streets all over the City were worse than Queen st., yet the latter had been repaired.

Ald. Starling—Queen street did need repair. The XV. Batt. was mired on this street at one time. He moved a motion that Queen street be repaired, and it carried. This motion was made some time ago and was on record.

The Street Surveyor said he had not understood that Front st. was to be repaired from the Ward to the station. If this was done it would cost about \$8,000.

Ald. Starling wished to know who ordered Catherine st. to be repaired. This had not passed the Council.

Ald. Hanley said that only two blocks had been repaired on that street.

Ald. Robinson asked where the crushed stone came from in a lane in rear of the Canadian Hotel on Dundas st. He desired to know if it was obtained from the City.

The Street Surveyor said he knew nothing about it, but would find out.

Ald. Robinson asked if a man had been employed continually at the Park.

The Mayor—A man has been employed there since the opening of the season, and has been doing good work which the citizens appreciated.

Ald. Robinson enquired if tenders had been asked for the work of extending the waterworks to the Rolling Mills.

The Mayor and Manager Thompson said that the work was let by contract and the lowest tender accepted.

Ald. Pantor wished to know how much longer the tearing up of sidewalk was to go on without repairs being made to same.

Ald. Hanley said the sidewalks had been attended to after the streets had been repaired.

Under the head of motions the Mayor said the council should take some action in reference to the new appointment at the water works pump house. Ald. Hanley had been appointed without the sanction of the council and his appointment should be confirmed if he was a competent man, which he believed he was. The council should say who the appointee would be.

Ald. Robinson thought the Mayor was right. The city officials should not have to make money for themselves. There was a tendency to take this power out of the council's hands.

Manager Thompson said during the vacation another man had been engaged, which cost \$2 more per week. He was a competent man and Ald. Jones, Chairman of the Fire, Water and Light, had taken the responsibility. It was owing to a complaint of the G.T.R. in not getting water at an early hour in the morning that the man was engaged. There was also some pumping done now than formerly. The late fireman had also asked for an increase and the amount paid the new engineer, \$9 per week, was but a slight advance over that paid the fireman.

Ald. Starling thought the City had made a good bargain in getting an engineer at the price named, who was a competent man and the increase in wages was slight.

The Manager, in answer to an enquiry, said that the new man would not ask for an additional increase for some time, at least.

The matter was then dropped.

Those in attendance at the meeting were: Mayor Johnson, Aldermen Hanley, Bogart, LaRoche, Doyle, Taylor, Pantor, Robinson, Starling.

THE MERRY HA-HA.

That is What the Latest Story Gets from Mr. Porter.

If the Prosecution Can Connect His Client With Any of Mr. Way's Bills it Will be a Miracle to Him.

There have been no new developments in the bank bill story, and the police theories which some of our citizens have formed would seem to be built chiefly on a structure of nonsense.

When spoken to this morning about the matter, Mr. E. G. Guss, chief counsel for W. H. H. Panton, said it was laughable.

"It is hardly worth talking about," said he, "but it shows that what the Crown are forced in connection with the case."

"Do you think it possible that those bills can be proved to be part of the money stolen at Nanapanee?" asked THE INTELLIGENCER.

"An utter impossibility," said the lawyer, emphatically.

Turning to a book he showed the reporter the evidence. Mr. Baines, manager of the Nanapanee Bank when the robbery was committed, and pointed to the following questions and answers:

"How much local currency was stolen from the bank, outside of the unissued bills."

Answer—"About \$17,000, in round figures."

"Is any portion of that identifiable money?"

Answer—"No."

"What do you think about the rumor that the bills were discolored and mouldy, Mr. Porter," said our reporter.

"Well, admitting the story is worth a thought, which I don't," said Mr. Porter. "I am quite sure that no employee of any bank in Belleville is able to tell by the look of a lot of bills whether they have been buried under ground or not, and even if they could prove it how would that connect any client with the case?"

The reporter gave it up and took his departure.

An Incipient Blaze.

At 3:45 this morning Sgt. Downs whilst on duty saw considerable smoke issuing from a gangway on Pinnacle street just north of Bridge street. He investigated and found a large quantity of paper and rubbish on fire in rear of the telephone office, which he extinguished with a couple of pails of water.

WHAT PEOPLE ARE SAYING

That it is time straw hats were called in. That there was only one bill in the wedding this morning. Mr. Canon Burke made.

That the rise in the price of iron manufacture, may be the reason some nails are not put in the boards in Belleville sidewalks.

That Belleville theatre-goers can appreciate and patronize a good show when it comes this way. The vacant seats last night were like angels' visits—few and far between.

That the ladies are still wearing their sky-scraper hats in the Opera House. If they haven't caught the consideration for other people to take them off they should be requested to do so by the manager of the theatre.

That all the cross-firing and repartee about street repairing, between aldermen in the Council meeting, was only being begotten by the Queen. Her Majesty was so tired it turned out to be a joke to report that Catherine st. was also reported out of it. There's no use crying over spilled milk, but in future it would be well for everybody to understand that the orders of the Council are the ones to be obeyed. This thing of riding roughshod over the wishes of the taxpayers is not justice, and every alderman who does it can bear in mind one thing—a day of reckoning will dawn for him about the 1st of next January.

That in engaging Miss Mabel de Guerre as teacher of singing, the authorities of "Old Albert" have done a wise thing. We understand that the aforesaid lady will also be soloist in Bridge st. Church choir. Miss de Guerre, who is a native of Toronto, took her first instruction from Mrs. Bradley and Walter Robinson, and afterwards studied with Signor d'Avia, of Toronto. She afterwards took a course with the celebrated Van der Linden, of New York. Miss de Guerre was for some time soloist in the Church of the Redeemer, Toronto, and latterly held the same position in the Richmond st. Methodist Church.

That the Hardy Government must quit when they see a Grit party, the Toronto Star, speaking in the following fashion of the North Waterloo election trial: "It is a black blot on the record of a Government that once professed honor and integrity, and on a party that has preached purity for generations. So shameless has been the corruption that the member should throw up his seat, that the party should lose not only in purging itself and bouncing the machine and all its workers, and that the Premier and Attorney-General, should within this day commence proceedings to jail every member of the gang of men who so badly taught the constituency, and that he should not except from prosecution the individuals who conceived, planned and directed the fraud upon the Legislature and the voting."

A SWEET WEDDING.

Nuptials of Mr. Robert V. Fraser and Miss Katherine Phillips.

Popular Young Belleville Lady Joins Heart and Hand With a Montreal Gentleman—A Scene of Beauty and Animation.

The fair sex of the City thronged St. Thomas' church at 10 o'clock this morning to witness an event which had been eagerly looked forward to. It was the marriage of a popular young lady of this City to an equally popular young gentleman of the City of Montreal. The bride was Miss Katherine Phillips, eldest daughter of Mr. Norman V. Phillips, commercial traveller, residing on Charles street, and the groom Mr. Robert V. Fraser, manager of the Montreal Pottery Company. At the hour above mentioned the bridal party arrived at the church, and to the sweet strains of the "Wedding March," beautifully played by Mrs. C. J. Campbell, proceeded to the chancel, where the ceremony was performed. As the bride walked up the aisle, leaning upon the arm of her father, she looked very charming. She was beautifully attired in a gown of ivory satin, trimmed with chiffon silk lace applique, and wore the traditional bridal veil. She carried in her hand a handsome bouquet of white roses. Three maids of honor attended the bride, being Miss Grace Webster, of this city; Miss Ethel Phillips, sister of the bride, and Miss Louise Fraser, of Montreal, sister of the groom. They were becomingly attired in white organdie trimmed with insertion and white organdie tulle with insertion and white lace over slip of yellow tulle. Their heads were crowned with pink roses. Each carried a bouquet of pink roses. The groom was assisted by Mr. Alfred M. Simmonds, of Montreal.

The ushers were Mr. C. E. Kenrick, of the Bank of Commerce, Dresden, and Mr. Geo. N. Gorman, of this city.

The ceremony was performed by the Rector of the church, Rev. Canon Burke, and Rev. Mr. Gustin, Curate, assisted.

After the nuptial knot had been tied the bride and groom retired to the residence of the bride's father, where a delightful wedding breakfast was partaken of. The interior of the residence had been beautifully decorated for the occasion, which made the scene a delightful one. The decorations consisted of floral arrangements, china, silver, and glass, and the table was set with a beautiful effect. Between the arch of the parlor and dining room was suspended a handsome floral bell. After partaking of refreshment the young couple took the noon train for a tour. They will visit Quebec and the Lower Provinces, after which they will take up their residence in the City of Montreal.

The groom's present to the bride was a handsome lady's gold watch and chain, and to each of the maids of honor a beautiful pearl pin.

The popularity of the bride was evidenced in the large number of presents which she received. They were both handsome and costly. Before leaving Montreal the groom presented with a handsome and a handsome gold headed cane by the employees of the company of which he is manager.

Mrs. Fraser has for some time been a member of Bridge st. choir, and her sweet voice has delighted a Belleville audience more than once. To her and Mr. Fraser will be extended congratulations by a host of friends, in which THE INTELLIGENCER most heartily joins.

AMUSEMENTS.

"The Evil Eye," presented to a large audience last night, was one of those immensely funny, light stage productions which so seldom reach Belleville. It gave entire satisfaction and no doubt would do well if it were to be played a return date here. Theatre-goers can rest assured that when THE INTELLIGENCER says that a play is "fit," it means it. Trashy and low class productions, of which this City has seen altogether too many, will receive no quarter from this journal, when foisted upon the Belleville public.

A PITIFUL CASE.

A Local Barber Alleged to Have Deserted His Family.

Was Previously Arrested for Non-Support and the Case Was Enlarged—Said to Have Left on the North King Last Sunday Night.

Rumors of an unhappy woman regarding the elopement of a well-known local barber and a great widow were to be heard about the state this morning, and a representative of THE INTELLIGENCER endeavored to gather the facts. The man in question is Wm. Goldsmith, who resides on Murray street, and the woman Mrs. Thos. Froydell, who has of late been residing near the G. T. R. station.

Mrs. Goldsmith was seen in regard to the matter and stated that on Saturday night, about 11 o'clock, her husband came home and said that he was going for a trip to Rochester, N. Y. He also stated that he would be home not later than Wednesday morning, but he has as yet failed to appear. Although, in addition to Mrs. Goldsmith, there are five small children in the family, the eldest being 13 years, the husband left but 10 cents with his wife, which is all the money she had then or has since become possessed of.

In answer to an enquiry in regard to the elopement story in circulation, she stated that she had heard about it and she afraid it was true. She also stated that she heard that when her husband left the house on Saturday night he went direct to the house of the woman in question and that they proceeded to the wharf together and boarded the steamer North King. She had often heard of his conduct towards the woman and had made complaints about it, but nothing had been done.

In this connection it may be stated that some two weeks ago Goldsmith was arrested and brought before the P.M. charged with non-support of his wife. At that time Mrs. Goldsmith was ill and unable to attend the inquiry, and the case was to have been continued on Monday last, but by her absence from the City prevented it.

Mrs. Goldsmith is at present in very delicate health and her case will appeal to the sympathy of our citizens. Since the husband's absence the neighbors have been compelled to assist her and her helpless children.

A daughter of Mrs. Froydell was seen and stated that on Sunday last her mother left for the States and would be back next Sunday. She would not, however, say what part of Uncle Sam's domain her mother had gone to.

Mr. Bert Coote at the Opera

House To-night—A Great Mirth Provoker.

Mr. Bert Coote, who poses as The New Boy in the three act comedy of that title, is said to be a mirth provoker of the first class, while his antics keep his audience in a roar of laughter from the first to the last act. After sitting through the play one cannot wonder that this farce is rapidly going to the front as one of the best of its kind. The idea of the play, while exceedingly simple, is well elaborated, and Mr. Coote, as Freddy, has gained great favor throughout the United States and Canada. He fairly convulses his audience and keeps them there by his natural, unaffected methods and artistic portrayal. A gem of the play is the courtship scene between Nancy Beach (Miss Julie Kingley) and the French Tutor (Mr. Frank D. Glenn). Mr. Coote will be supported by an excellent company, including, besides Miss Kingley, those sterling favorites, Mr. George Macomber and Miss Minnie Monk.

Story of a Slave.

To be chained and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, N. H., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not get up without my aid. After using two bottles of Electric Bitters she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a gold-silver cure, sickly, run down people. Every bottle guaranteed. Only 50 cents. Sold by J. S. McKee, Druggist.

Wedding Bells.

At 11 a.m. on Monday at the R. O. Church, Madoc, Miss Minnie Martin, of Madoc, was married to Mr. Thos. Hogan, of Millbridge, Rev. Father Hogan officiating. The ceremony in the presence of a large number of friends. The bride was assisted by Miss Aggie Hogan and Miss Donovan, of Madoc. The groomsmen were Mr. D. Kirby and James Mahoney, of Madoc. The bride received a large number of costly and valuable presents. The young couple are well known in and around Madoc and have a host of friends who will join in offering congratulations. A very enjoyable evening was spent at Mr. Martin's, after which the wedding party drove to Madoc and took the train for the east on their wedding tour.

Any person who has used Polson's Nervine, the great pain cure, would not be turned back by the price of a bottle. A good thing is worth its weight in gold, and Nervine is the best remedy for all kinds of pain. It cures neuralgia in five minutes; toothache in one minute; lumbago in one minute; headache in a few minutes; and all pains so rapidly. It is a small test bottle only 25 cents. Why not try it today? Large bottles 25 cents, sold by all druggists and country stores. The Polson's nerve pain cure—Nervine.

## FELL FROM A PEAR TREE.

Young Lad Falls Twenty-five Feet and  
the Consequences May Be Serious.

A lad named Ernest Fry, son of Mr. C. Fry, residing on Thornhill street, was yesterday afternoon the victim of an accident of which at the present it is difficult to tell the result. He was engaged in picking pears and was up in a large tree near the top, when a limb broke off and he fell heavily to the ground, a distance of about 25 feet. In his descent the boy endeavored to grasp a limb and did so, but it was a small one and it also broke. Ernest struck upon his head and shoulders and was rendered unconscious. He remained in this condition for some hours and has since had intervals of unconsciousness. Two local physicians were called in, but they are at present unable to tell fully the extent of the lad's injuries.

This morning the unfortunate lad was removed to the hospital. The physicians in attendance this afternoon were still unable to say definitely what the outcome of the case would be. The boy is no doubt hurt seriously about the head and his spine is also injured.

AN INDIGNANT  
REMONSTRANCE.

To a Sensational Article Which Appeared in a Local Paper.  
To the Editor of THE INTELLIGENCER.

DEAR SIR,—Will you kindly publish the following:  
A week ago, your down-town contemporary published an article which might tend to bring discredit upon servant girls generally. This was the gist of it: A certain member of the "Servant Girls' Association" (something new) had, in the absence of the family, invited quite a crowd of both sexes to come and have a good time in her employer's house. They came: the fun was monstrously uproarious; a disgrace to the neighborhood, and continued all night by moonlight (the moon was three days old). After thumping upon the piano, having a big dance on the parlor carpet and cleaning out the pantry, etc., the party broke up.

The said servant girl did invite a few friends, mostly females, and also provided for them, and they broke up by midnight, early enough, after having a quiet time. As to thumping on the piano and dancing on the carpet, such luxuries were inaccessible, the house being securely locked from front door to kitchen.

So much for shure and lies, tending to defame the character and integrity of the servant girl.

Why should not those who do the work be entitled to a little pleasure, harmless, even if indicated?

Thanking you very much, I remain,  
A SERVANT GIRL.

## WHAT PEOPLE ARE SAYING

That just at present the coming trial of Colbourn overshadows everything else in public interest.

That among a man's best friends, these morning and nights, may be counted his own coat.

That this may not be exactly the growing time, but it is a good time to plant your fall advertisements. Come in and see us.

That it is a mistake to call some Government employees "civil" servants. It seems to be painful to them to attempt to be polite.

That certain people who "plough the raging main" got the worst of a mix-up, in which they decayed eggs played a prominent part, the other night.

That if butter gets much higher it will soon be off the bill of fare of the "hony-handed son of toil." It was 30c a pound this morning.

That one of the very swiftest balls ever seen in Belleville is to "come off in the near future. A great many "buds" will make their debut on this occasion.

That "Peeping Tom" talked about lately will be brought up with a round turn out of these nights, and when caught, he will probably get a ride in the ambulance.

That the question "How would you like to be 'ice man'?" need not be asked any more. The lordly coal man will hold the centre of the stage for the next five or six months.

That "the flowers that bloom in the spring, tra-la" are not the only ones cultivated in Belleville. The Horticultural Society's floral exhibit is a sight to gladden the eye, while the display of fruit makes one's teeth water.

That a certain member of the Board of Education has taken up the matter referred to by THE INTELLIGENCER the other night, and will do his utmost to have the school regulation in that regard enforced.

That a certain well-known citizen is accusing the newspapers of trying to take away his reputation. As an esteemed friend of ours, a member of the Sons of Scotland, would say, "Ye canna steal the bricks from a Highlander."

HORTICULTURAL  
EXHIBITION.The Display of Fruit and  
Flowers Magnificent.

List of Exhibitors in the Various Classes  
--Last Night's Band Concert Very Poorly Attended.

Workshippers at the shrine of the Goddess Flora should not fail to visit the Horticultural Society's Exhibition, which is being held in Sewell's Rink, Pinnacle at the display of flowers and fruit is a grand one, and in that respect the show is a success. The number of entries in the various classes compared favorably with any year in the history of the Society, and in connection with the Bay of Quinte Exhibition. The display of flowers and fruit is without doubt the best that has ever been seen in this part of the country. The many floral designs shown were beautiful, especially that of "Gates Ajar," and a cross designed by Mr. S. J. Wedden. In this connection it may be stated that Mr. Thos. Givens, who is a judge, made a fine exhibit of potted flowers and cut flowers, but was not a competitor. The flowers formed the chief attraction to the visitors. The variety was immense, ranging from tall and stately blooming plants to the most delicate blossoms. The centre space opposite the doors was occupied with a collection of plants, rich and warm looking, with leaves from the deepest to the most variegated lights shaded. On either side of the building the flowers were so arranged as to present them in a pleasing manner to the spectators.

The cut flowers were greatly admired and were shown in abundance. They were artistically displayed upon tables. Some of the collections, such as asters, sweet peas, pansies, verbena, geraniums, etc., were charming, and there were many magnificent large bouquets of mixed flowers arranged with a cultivated taste and skilled hand. The exhibit represented a vast amount of labor but was well worthy of all the time and pains the florists, ladies and gentlemen, amateur and professional, have put into their pleasant occupation.

In the front of the display in the display is not only large but the various specimens are fine. Mr. W. C. Reid shows a one-year-old apple tree upon which is an apple and a two-year-old tree bearing several which is a rarity. A fine display of pears and grapes were also shown.

The display of roots and vegetables was not large, but was exceptionally good.

## THE EXHIBITORS.

The exhibitors in classes A B C D, which includes potted and cut flowers, were: S. J. Wedden, Miss Gail, J. A. Munro, Jas. O'Connell, Wm. Kemp, Geo. Cook, Jas. Potter, F. G. Kennedy, J. W. Butterfield, Gerald Ponton, W. J. Diamond, Mrs. J. Lutton, John Harris, John Hick, J. Humphrey, S. T. Harris, B. B. Fuller.

In class E, which includes fruits, the exhibitors were: Geo. Williamson, W. R. Weese, Wm. Peck, B. R. Fuller, W. A. Ketcheson, John Groat, A. M. Weese, Jas. Munro, W. C. Reid, Geo. Cook, Mrs. J. Lutton, Geo. Leach, W. J. Diamond, F. G. Kennedy, J. A. J. Harris.

In class F, which includes roots and vegetables, the exhibitors were: A. M. Weese, Wm. Peck, Geo. Williamson, A. J. Clarke, B. R. Fuller, W. C. Reid, S. J. Wedden, F. G. Kennedy, Geo. Edwards, W. A. Ketcheson, Geo. Cook, J. Harris.

## EVENING EXHIBITION.

The attendance in the evening was meagre, notwithstanding the fact that the I.O.O.F. band was in attendance and it being announced as a promenade concert.

The band furnished an excellent programme of waltzes, marches, etc., which was much enjoyed by those who attended. It is safe to say that the attendance would have been large had the people of the city realized the pleasure to be had from viewing the display. The Directors of the Society are to be congratulated upon the success of the show as far as the display is concerned, and their efforts were worthy of more generous patronage.

The judges were busy this morning making the awards.

## Our Clothing Must Be Right.

If proof were necessary that Oak Hall clothing is right up-to-date in every particular, here is a good evidence. We sold yesterday two overcoats, one light weight and one winter weight, to a gentleman from one of our largest American cities. He paid us \$20 for the two coats and either one, he states, would cost him that much at home.

## SPORTING NEWS.

The Quinte's Won the Cup.  
The beautiful silver challenge cup presented by Mr. H. Corby, M.P., for competition between the gun clubs of this district, was shot for yesterday afternoon at Massena Park. But two clubs competed, namely, the Quinte Gun Club of this city, and the Wellman's Corners Gun Club. The result was a victory for the local club, which won by shots. Whilst the contest was in progress Mr. Corby with other friends visited the park and a salute of 40 guns was fired in honor of Mr. Corby's presence.

## Kingston Races.

Kingston, September 14.—The horse races yesterday were interesting, and the track was in fine condition. The results were:

Green race—  
Minnie H. T. Healey, Kingston (three straight).....1  
St. Klod, W. J. Lyons, Kingston.....2  
Donnybrook, J. Timlin, Belleville.....3  
Time—2:42, 2:39, 2:43.

Burning Race—

Gypsy Girl, W. H. Watts, Campbellford.....3  
Time—1:15 seconds.

About the Shamrock.  
Speaking of the Shamrock's chances, Al. McVey, the well known yachting expert of Boston, says:

No such excitement was ever known in New York over a cup race. John L. Sullivan asked an old Boston friend the other day what he thought about the race, adding: "Good judges tell me that the Shamrock is a good boat. She is a queer Irish boat with a lot of Scotchmen, Englishmen and Chinamen on board. I hope she'll be beating seven furlongs in the American boat race."

Inquiry at the hotels shows that all will be overcrowded in cup race time, and that some of the visitors will have to go to Brooklyn and Jersey. No such demand was ever known.

Only two weeks remain in which to put the boat in race condition. The Shamrock badly needs a trial race, for after all, sailing does not count for nearly as much as does sailing against another yacht.

The summing up of the London Field, that the chances are against the Shamrock winning the cup, fairly expresses current opinion here in New York, and is a very fair estimate, coming as it does, from a writer who has made a life study of yacht naval architecture.

## Record Ride in an Hour.

Philadelphia, Sept. 14.—Harry Elkes, the champion middle distance bicyclist, rode last night in a race of one hour against time, broke all world's records from one mile to the hour, going 36 miles and 740 yards in 60 minutes. The best previous record for one hour was made by Taylor, the Frenchman, in France, a few weeks ago, who rode 35 miles, 698 yards.

Fashion, comfort and health all demand the fall overcoat. Economy demands that you buy it of Quick & Robertson. Just the right overcoat of just the right style, cut, pattern and finish can be bought here; at considerably less than others call just the right price.

## It's to Be Stopped.

The Official Board of Bridge at Church at its meeting last night decided the position taken by this paper regarding the young fellows who gather on the sidewalks and sit on the fences of the church during the services. The attention of the authorities is to be officially called to it. Several members of the Board expressed their strong disapproval of the immorality of those who compose the crowd. It's to be put a stop to some way.

CHAMPERTY.

The prosecution of "Fighting Joe Martin," late Attorney General in British Columbia, for the crime of Champerty, that is, the buying of suits from parties who in all probability would never think of running the risk of going into court, has brought forth some strange expressions of the manner in which some gentlemen of the profession secure cases and fight them in the courts. The Ottawa Citizen, after expressing its opinion that the prosecution of Martin smacks of persecution, goes on to say:

"Possibly legal ethics are higher in British Columbia than they are in the east, but if the Osgood hall benches got after him the lawyers who are guilty of it in this province they would be kept busy. The Workmen's Compensation act, until recently, was a regular bonanza to the lesser lights of the legal profession. Lawyers, whose offices are almost under the shadow of Osgood hall itself, assumed the newspapers every day, on the lookout for reports or accidents, which would make a decent claim under the act. In some cases a case was discovered there was a race to see who would secure the lucky victim. The competition became so keen that legal firms had standing arrangements with medical friends to give them the earliest tip on an accident, so that they might be first to hold the client. So long as the working of the act nearly every claimant was certain of a verdict, and later on the employers got so timid that they would 'settle' almost any sort of claim. These cases were in the majority of cases taken upon a share basis, and the practice was not confined to the briefcase, but the practice in the province became a scandal, yet the benches took no action to check it as far as the public is aware."

This is a serious charge against the profession generally. Let us hope it is not true to the extent indicated. The taking of a case on shares is clearly a violation of the law of champerty, and the shysters who practice it should be struck off the roll and deprived of their goods.

Yet, is this any worse than one of these pettifoggers rendering a bill of costs of \$600 to \$700, when taxed, showed him to be entitled to not 50¢, of it? The sooner an honorable profession is rid of such a class the better.

## Don't Waste Your Money on Worthless Catarrh Cures.

Japanese Catarrh Cure Cures, and is the ONLY GUARANTEED CURE.

The proprietors of Japanese Catarrh Cure daily receive many letters of gratitude from the catarrh afflicted in all parts of Canada. During December and January we sent out over three thousand free sample boxes. Each box contained a bottle of the cure, and a letter telling us that even the small sample boxes were more good than many dollars' worth of so-called cures. Japanese Catarrh Cure is the result of a prescription perfected by years of experimental study, by one of America's most successful specialists in treating this disease. It is a compound prepared from natural herbs, and contains no drugs or chemicals. The natural heat of the body melts it, and the very act of breathing carries it to the diseased parts. It cures every diseased portion from the orifice of the nose to the innermost recesses of the middle ear, curing invariably all forms of catarrh of the nose and throat, and all forms of extra nasal deafness.

Japanese Catarrh Cure is guaranteed to cure any case of catarrh or money refunded. Sold by all druggists. Price 50 cents; six bottles with guarantee to cure, \$2.50. A full refund in any case where the cure fails. Send for a free sample box. Address: The Griffiths & Macpherson Co., 121 Church Street, Toronto. Sold by J. M. Watson, Front and Bridge Sts.

## Dr. Workman's Case.

The friends of Dr. Workman seem to have lost their heads over the result of the appeal that Dr. Workman argued before the highest Methodist conference in the world. Judging by some of the expressions used by the journalistic friends of the doctor, they think it the business of the Court of Appeal to go into the whole question of the orthodoxy of the doctor, but that is not the duty of the court. That tribunal was merely called upon to decide as to the legality of Dr. Workman's action in calling the committee of the Bay of Quinte Conference had no status. It was a question of law that was dealt with on Wednesday, and the court was not a theological point, and the gentleman who composed the court would certainly have exceeded their duty had they exercised other than their judicial functions as to the merits of the case.

Dr. Workman has the sympathy of every person who is able to appreciate the conscientiousness that he displays in adhering to his convictions, regardless of material considerations. That sympathy is probably just as strong in the minds of the laymen as it is in the minds of the clergymen. The Methodist Church in Canada have acted wisely in refusing to try Dr. Workman for heresy.

If Dr. Workman is right and the Quaternary Conference wrong, the fact will only be demonstrated by time. Meanwhile, that divine word be well advised who were to accept a pastorate and continue in the path he has chosen to follow in this life.

should be like herself—dainty and delicate—yet strong to endure. This is the King Quality all over. It's as pretty as a shoe can be made and as strong also, and yet it doesn't look as though it was made for a man.

People who don't know it, guess the price somewhere around \$5, and yet it is only \$3.

## SNAP SHOTS AT TIMELY TOPICS.

—France will live long enough to regret that she carried Jew-baiting so far.—Boston Journal.

—Even Dreyfus's most vindictive enemies cannot desire to subject him to the torture of a second degradation.

—It is doubtful if the enemies of Dreyfus would have accepted a hostile verdict so temperately as his friends have. That may be one reason why he was convicted.

—The calmness of France and Paris still is France—can only be one of two kinds: That which precedes the most violent of storms, or that which argues the death of all mortal sensibility.—New York Mail.

—Although known as a Free-trade country, Great Britain derived a revenue from customs duties in the fiscal year ended with March of \$110,943,000, as compared with \$206,128,481, received by the United States in the fiscal year ended with June.

—A policeman who was one of the force that is besieging M. Guerin in Paris has been kicked in the stomach by a man who was trying to convey food to the besieged.

In what way was the injury to the policeman supposed to be expected by the stomachs of those inside the building?

—Their success as domestic servants has so elated those Chicago men who took places on account of the security of woman that they have formed the House Domestic Mutual Aid Association of Illinois.

The object of this organization is to further the interests of men as various kinds of household servants. As predicted when the men began to take these jobs, the girls must be lively and attend strictly to business and they will be entirely shut out of this important field of work which has generally been regarded as exclusively women's work.—Buffalo Express.

## MR. VANDERBILT'S FORTUNE.

The Amount Not Known, But Was Very Large.

New York, Sept. 13. What is generally known that Mr. Cornelius Vanderbilt, who died yesterday, was an enormous rich man, yet little is known of his actual fortune. The Tribune says he was a most reticent man about his private affairs. His fortune has been variously estimated at all the way from \$80,000,000 to \$200,000,000. It was mostly in railroad stocks, bonds and securities. He was not interested to any great extent in any of the new industrial companies that have been formed, and in fact had no holdings of moment in any corporation aside from railroads. He was the largest stockholder in the New York and Harlem Railroad, and owned a big majority of the stocks and bonds of that road. He was a large owner of New York Central stock. He also owned a large amount of stock in the Michigan Central Railroad, the Lake Shore and Michigan Central, the Chicago and Northwestern, the Big Four, the New York, New Haven and Hartford, and the Canada Southern.

## WELLINGTON.

Rev. Father McWilliams, of St. Mary's Cathedral, Kingston, is taking charge of the late Father McDonough's parish at Wellington, till the last day of each month. At the month's end, when he will still be about the 19th, an appointment will be made. His Grace the Archbishop of Kingston and the Priests of the Diocese will be present. The Rev. Father, who has been in place in an old church and has a goodly number of adherents, is Mr. Tennant, of Brockville, is visiting her daughter, Mrs. Thompson. Mr. T. Mandeville, F. Murphy, P. Harrington, Mrs. Loffman and Fred Tennant Toronto Fair. Old Mrs. Potts intends leaving Mrs. Haylock to go to Hillier to board with her grand daughter, Mrs. Stapleton. Quite a lot of corn has been shipped from this place for the Canning Factories.

Corey Cronk and wife are attending the Friends Quarterly and visiting friends at Leam. Rev. J. H. Oesterhout, of Bosc and Mrs. Mary A. Dorland, who have been spending the summer at their cottage here, have returned to Washington, D. C.

## Makes You See Spooks.

Night workers of the literary guild took strong nerves should take warning by the confession of Mrs. W. K. Clifford, the well known novelist, and novelist of the "midnight oil." An article in the Windsor Magazine by Miss Dickells tells something of Mrs. Clifford's habits as a writer. Her mind works the best in the evening, but so soon as the family comes in, she usually ceases to write. She begins to hear burglars at work and gets frightened she can hardly creep up to her room.

She one time spoke of this to Mr. Huxley. "It is foolish," she said, "but I always hear burglars moving about." "So do I," answered Huxley. "When I am working at night, I not only hear burglars moving about, but I actually see them looking through the crack in the door at me."

Wilkie Collins was an habitual night worker. He wrote his first novel, "The Moonstone," by the appearance of another Wilkie Collins, who sat down at the table with him and tried to monopolize the desk. There was a struggle, and the instant was upset. When the real Wilkie Collins came to himself, sure enough, the ink was running over the writing table. He was enough of a struggle. After that Mr. Collins gave up night work.

"A very curious thing about the Chinese is their indifference to pain," said Dr. E. Z. Simpson, who returned from a year of service in the great City hospital, the United States, in Canton, and it was at first supposed that there would be great trouble in persuading the natives to take anaesthetics, but the doctors found to their surprise that anaesthetics were rarely needed and that their patients endured the most severe operations without flinching the fraction of an inch.

The average Chinaman will assume the position of a statue and hold on to a statue. When the knife touches his flesh, he begins a slow, monotonous moan, and he keeps it up until the operation is over, but he gives no other indication of pain. Whether this is due to nerve blunting, or to the fact that he is unable to feel pain, I have never been able to determine, but the fact remains that the Chinese hospital uses less chloroform or ether than our hospitals here.

The Files of Egypt. The film of Egypt deserves a tribute to their peculiar character. A plague of American files would be a luxury compared to the visit of one by from Egypt. For untold centuries they have been in the habit of crawling over thick slimy faces and bodies and not being dislodged. Consequently, if they see an American eye, they light on it, and not content with that, they try to get it out of its socket. If they find out that they are not to be molested, they move around to the other side, until they are in a sticky feet. If they find out that they are not to be molested, they move around to the other side, until they are in a sticky feet. If they find out that they are not to be molested, they move around to the other side, until they are in a sticky feet.

The Savage Bachelor. The Savage Bachelor—Well, haven't they more reason? The Savage Bachelor—Well, haven't they more reason? The Savage Bachelor—Well, haven't they more reason?

A Telltale Collar. A well dressed, middle aged woman was walking past the Seventh Avenue Hotel, when she was seized by a man in a top hat and a long coat. The man was everywhere but the direction in which his feet were going, was apparently the crash of breaking glass rang out. The spectators of the collision saw a man in a top hat and a long coat, and a woman in a long coat and a hat. The man was everywhere but the direction in which his feet were going, was apparently the crash of breaking glass rang out. The spectators of the collision saw a man in a top hat and a long coat, and a woman in a long coat and a hat.

His Translation. A good chairman story comes from the Antipodes. A dignified elder of a church was presiding at a charitable concert. A Miss Brown was singing "Ora Pro Nobis," but at the last moment she changed her mind, and a note was passed to the chairman, telling her to sing "The Song That Reached My Heart."

## THE TROTTER RECORD.

The fast New England pacer, McJannet, is now racing with hobblers. Bonnetelli, 2:10 1/2, said to be the fastest trotting mare ever owned in Chicago.

Arbutnot, 2:09 1/2, the Canadian pacing stallion, is one of the handsomest horses on the big ring.

Hal Dillard, 2:04 1/2, is the only stallion with a record below 2:05 to sire a performer with a mark below 2:05.

The foreign buyers have an eye on Argon Star, 2:11 1/2, by Argon, and it is quite likely that he may cross the pond. Lockheart, 2:08 1/2, has two good new 2:20 representatives in Jimmy King, 2:17 1/2, trotting, and Royal L, 2:18 1/2, pacing.

J. L. Tarleton of Lexington, Ky., has a green mare by Cheyenne, that is said to have trotted close to 2:10 with less than three months' handling.

Cosmo, 2:14 1/2, winner of the recent nine heat race at Old time track, twice gone through the auction ring. C. L. Viard, his present owner, paid \$270 for him.

W. L. Snow has the distinction of being the only man who ever drove two horses into the 2:05 list in the same week. He did it at Cleveland with Hal B and Annian.

Five years ago Elsie Powers had a record of 2:10 1/2, but never until this season had she been able to win a heat below 2:10, although trotting in 2:10 1/2 in three different occasions.

Birchright, 2:08 1/2, used to be headstrong and hard to control, but Chatter De Ryder has him rigged with a new driving device which has converted him into a very manageable horse.

Mr. D. A. Snel, owner of Juke, is 73 years old and drove his horse, it is said, very lately a mile in 2:10 and in the winter in 2:15, Snel. Juke will probably make an endeavor to beat the stallion record this year.

## EARS OF NOTED MEN.

Embassador Choate has a fine ear, of perfect size and of about the right shape. Cornelius Vanderbilt's ears are thick, homely, commonplace. They indicate mediocrity.

Russell Sage's ear is about the average size, well shaped, sloping slightly and deeply lobed.

The ears of President Alpheus Stickney of the Chicago Great Western railroad are nearly at right angles to his head.

Richard Croker's ear is just like the man—plain, about medium size, thick and coarse, close to his head, flat, deep concha.

Thomas C. Platt has the ear of a philosopher. The long ears far out and the lobes are rather under than under the medium size.

Admiral Dewey has a small ear, with many angles, which tells us that he is a cruel and tyrannical as well as delicate in fancy. Such is his character.

John I. Blair's ears are enormous, and they have an intense philosophical slope. He increases the angularity and prominence of the ear. Mr. Blair is nearly 100 years old.

J. Pierpont Morgan has a flat sized ear, firmly glued on and nearly straight up. The antithesis of the ear of Richard Croker, and the concha is of small diameter.

## THE THRONE ROOM.

Queen Henrietta of Belgium takes a daily drive of ten miles.

Although the Princess of Wales is always spoken of as Danish, she spent most of her early life in Germany, near Frankfurt, and German, not Danish, was her mother tongue.

Queen Margaret has promised to climb Rocca Melone, one of the highest peaks of the Swiss Alps, to the peak in the dedication of a statue of the Virgin of which the queen herself is the sculptor.

The crown prince of Sweden and Norway has a peculiarly physical characteristic. Along the roots of all his teeth runs a bar or strip of bone. Whenever he has a tooth extracted this bone has to be cut through.

King George of Greece goes in for music in private, and his instruments are not unlike usually seen in royal palaces. He performs on handbells and on glasses of various sizes, which give forth their notes when touched by a wet finger tip.

## SUMMER ZEPHYRS.

Modern invention has not yet produced a device for subjecting a dog day to the hot sun and the hot sun.

The city girl who spent her vacation on a farm, imagined she had solved the meaning of "pasteurized milk." She saw the cows feeding from the pasture. What could be simpler?—St. Louis Star.

Newport people are complaining that the weather has treated them badly. They are not much worse off than other people, to be sure, but why is not an exception made in favor of Newport?—Boston Transcript.

The annual swordfish, with more than its usual annual frequency, has been plunging its 18 inch horn through the annual two inch plankton of the annual schooner and just capturing transfixing the annual sardine, in accordance with its annual stupidity.—Boston Herald.

## TRUST THRUSTS.

The coal trust won't fix the price of coal until it finds out how much money the people have. Then that will be the price.—St. Paul Dispatch.

Some will say, "Then the shoemakers and gloves are going to form trusts, the nation may be in trouble." Probably one reason why we do not hear of more new trusts these days is that there are so few things left on which the trustmakers can exercise their ingenuity.—Indianapolis News.

## THE NURSERY.

Don't place the cot in a position where the light will fall on the child's eyes, even in a draft.

Don't hang curtains around the cot. Children need plenty of air, especially when sleeping.

Don't allow a child to sleep with an elder person. Its rest will be less disturbed and more beneficial.

Don't make up the baby's bed on the floor. The air is most pernicious near the floor and purest in the middle of the room.

## Fall Top Coats.

As usual Fashion, with the new fall styles, makes the first bow for approval and patronage at Quick & Robertson's.

The correct shapes are marked with strong individuality—seen at a glance, but difficult of description.

So exceedingly elegant is the fit and appearance, so thoroughly tailored in every detail, that only a very few of the high price, exclusive merchant tailors can furnish so good a garment at their highest standard of prices.

We name \$6, \$7, \$8 AND \$10

as showing price variety—worth of make the same in each, price distinction being purely quality—difference of materials, which embrace the correct shades in Coverts, Whipcoats, Herringbones, etc.

We note the new Top Coats are quite "boxy" with roomy sleeves—but a fit and hang that is the very essence of high-class, good-form dressing. All the elegance of the ultra fashionable tailor for half his price.

The lines of sizes complete. Your inspection and purchase solicited.

## THE FASHIONABLE FALL SUITS.

Full harmony prevails in this store. Quality of the highest grade embodied in the most graceful styles, yet at saving prices.

Suits for Men at \$3.75, \$5.00, \$6.50, \$8.00, \$10.00 and \$12.00.

Only the best merchant tailors make such suits and they ask double our prices. Fit? We are more particular about that than you are. Just give us a trial this week.

New styles in Hats and Caps. Extraordinary values in Underwear.

Thus we keep our store abreast the waves of newness all the time; good, honest, satisfying goods always sure; always a step ahead in quality, yet never ahead in price. We make our stocks worthy your patronage.

**WHAT PEOPLE ARE SAYING**

That a certain popular Sunday School Superin-

tendent will have more time on his hands

now.

That visitors must form a queer opinion of Cana-

dians if they judge them by the election

trials.

That the members of the Horticultural Society

can hardly be blamed if they don't have an

exhibition next year, after the "liberal sup-

port" they got this year.

That a lot of people, in the last few years, have

lost their city to better themselves, but we

still have a lot of growing young men

left. If you don't ask some of the merchant

tailors.

That at the Kingston fair they had to have

soldiers from the military school to prevent

people from hurting each other by crowd-

ing. It is quite gratifying to note that

there was no danger from overcrowding

at our Horticultural Show.

That the need of a fire alarm system was never

more clearly demonstrated than at last

night's fire, when, with the conflagration

behind John at church, the firemen were

galloping around in different directions try-

ing to find out where the fire was.

That one of the most exciting track events ever

seen in this vicinity came off at the Exhibi-

tion grounds to-day. Messrs. Crook-

Stevens and Hanna, three employees of a

local paper, rode three times around the

track. They say the race was close and

exciting, but by a brilliant sport Stevens

won by a quarter of a mile. There is some

talk of a protest, as it is said the winner got

off his wheel and made a lay on.

That the scorching on some of our principal

streets should be stopped. Last night a

cyclist went down Front St. at about twenty

## AFTER TWENTY-FIVE YEARS Of Active and Earnest Labor in Sunday-School Work,

Mr. William Johnson Was Presented With a Felicitous Address Last Night, Accompanied by a Beautiful Clock.

All through Canada, wherever Method-

ism flourishes, the fame of Bridge St.

Sunday School has spread, and wherever

the record of the Sunday School itself is known

there also may be heard the name of Mr.

William Johnson, the aggressive and hunt-

ing Superintendent. Gifted to a phe-

nominal degree with all the qualities

necessary to make a successful Sunday

School worker, Mr. Johnson has, for more

than a quarter of a century, labored with

might and main to further the interests of

the Church.

Some two months ago it was noted in

these columns that Mr. William Ellis, a

well known resident of this City, who re-

sides on the west side of Mary st., had had

an operation performed at the hospital, by

which his left eye was removed. Since

then he has suffered greatly, and, as he

said himself, "the pain nearly drove him

crazy." Punctures have been continually

applied to the affected part, but the agony

has continued. His wife told an INTELLI-

GENCE reporter this morning that about

three weeks ago the unfortunate man

suffered from his razor, and told his daugh-

ter that he was going to get rid of him-

self, he couldn't understand why the Lord

didn't take him away."

Everything possible was done to relieve

the afflicted man, and he has been under

medical care, but without avail.

Last night about 7 o'clock, a neighbor,

Mr. Lewis Marlowe, went to the Ellis

residence to shave the old man, which

operation took place in the kitchen. After

the shaving was completed Mr.

Marlowe, after laying the razor

down on a table close to where

old Mr. Ellis was sitting, went to the

woodshed to wash his hands. The family

were seated around the kitchen, talking

quietly, when suddenly they were horrified

to see the old man reach out and seize the

razor, and before anyone could reach him

he had drawn it across his throat.

"My God," said his daughter, "what

have you done?"

The old man returned no answer, but

the torrent of blood which was flowing

from a gaping wound in his throat showed

that the self-inflicted wound was a serious

one.

Mr. Ross was hastily summoned, and he

did all possible for the unfortunate man,

who this morning is resting easily with

the chances in favor of his recovery. The

wound made was about three inches long

and required six stitches.

Mr. Ross told THE INTELLIGENCE that

had the gas been a little above or below

where it was, the consequences would have

been fatal.

Old Mr. Ellis, who is about 75 years of

age, has for many years been a resident

of this city, and his death would be a

loss to the church and community.

For the sad occurrence are heard every

hand.

## BARRED FOR ONE YEAR.

Miller & Sibley Cannot Exhibit at Industrial in 1900.

Manager Morton Admitted That the

Editors of the Prize Milk Cows Had

Been Tampered With. Prize Money

Was by Miller & Sibley Will Also

Be Retained by the Industrial Fair

Association.

Toronto, Sept. 15.—The mystery sur-

rounding the death of ten valuable milk

cows at the Industrial Exhibition has

been cleared up, so far as the Exhibi-

tion board of directors is concerned. At

their meeting yesterday the association

appointed to make an investigation brought

in a report. After the board adjourned

Dr. Bell, assistant to Mr. Bell, said

that the report contained the signed state-

ments of Dr. Smith and Hodgins, veteri-

nary surgeons, who made post-mortem

examinations of the animals. They found

no signs of contagious disease, but that

the milk of the cows had been tampered

with. This had been done by injecting

milk into them, which operation ultimately

resulted in their death.

Mr. Morton, manager of Miller &

Sibley's farm, of Franklin, Pa., four of

WANT TO BE LED  
INTO THE FIELD.

But Probably a Good Many Will Have to Be Carried Out.

News From Cape Town To-day. It appears that War is Almost Certain—Evidence that the Last Act in the Drama is in Sight.

(Special to THE INTELLIGENCER.)

CAPE TOWN, Sept. 16.—Further telegrams from Pretoria to-day confirm the forecast: of the reply of the Transvaal to Great Britain, which does not accept the demands of the British Government as a whole.

Great excitement prevails at Pretoria over the consequences which may ensue. The young Boers are asking to be led into the field immediately.

It is impossible to predict what will be the situation after the delivery of the reply to London.

The feeling here is that it will be impossible for the Imperial Government and unaligned on its part again to enter upon an interchange of arguments.

## Overcoats Are Selling.

This cool weather has started the overcoats going at the Oak Hall. We have sold as many this week as in any other week. Say! Have you seen the overcoats we are showing this season? They will interest the most critical buyer.

## TAKES EXCEPTION

To Certain Misleading Remarks, and Gives a Rind for an Oliver.

To THE EDITOR OF THE INTELLIGENCER.

Sir,—What Ald. Robinson has stated in reference to myself in his letter re Mayor Johnson I wish to refute as being misleading and unjust. I was presiding as Chairman of the Executive Committee when the row between them commenced, which to say the least, was quite disorderly. After order was partly restored, I only suggested that their disputed bills be submitted to a committee, without showing the least partiality to Mayor Johnson any more than Ald. Robinson. Had Ald. Robinson remained at his post in the Council during the summer, when the most difficult work had to be done, he would be in a position to know who was able to "muddle up sufficient" to show fairly for the City, without seeking pleasure trips, etc. It seems rather unfair to the taxpayers to have sidewalk taken away without being replaced, while a hotel money is spent in railway fare and hotel bills.

IS IT PROSECUTION  
OR PERSECUTION?

The Attorney-General's Department Breaks its Pledged Word.

W. H. H. Ponton, Who Goes on Trial Next Tuesday, is in Sore Straits Financially—British Fair Play? Not a Factor in This Case.

THE INTELLIGENCER dropped around this morning to find out how matters stood with the defence in the coming Ponton trial, and found out one or two facts which surprised him. It will be remembered that at the time the defence consented to a change of venue from Napanee to Cobourg, the Crown agreed to pay the defence sufficient money to provide for the subpoenaing and procuring of witnesses. The Attorney-General himself promised this, in presence of his deputy. The money was to be paid two weeks before the Court opened. An affidavit was filed showing that the witnesses' fees would amount to \$600, in round figures, which even went so far as to give names, addresses, railway fare, etc., but the Government has not given them \$250, and that, too, within the last week.

All of the latter money has been spent in getting witnesses from the United States, and now, two days before the trial, the defence is left without a cent to get witnesses from Napanee, Belleville and other places.

The Napanee defence fund was used up in preparation for the trial which was supposed to have taken place at Toronto.

The defence have been relying on the Government's word, and are now left in sore straits.

"Here we are," said Mr. Porter, indignantly, "on nearly the last day before the trial and the witnesses not at court."

All legal expenses of the various motions to change the place of trial, etc., which are very costly, have been borne by Ponton's counsel.

B. B. Oiler, legal advisor of the Dominion Bank, is still the prosecuting counsel in this case, although there are prosecuting attorneys in Napanee and Cobourg, by reason of their appointment, are supposed to be able to take charge of the case.

These facts will surprise a good many people in Belleville, we have no doubt. Under this condition of affairs the friends of Mr. Ponton will realize that just now there is a fitting opportunity to show their friendship in a substantial way.

## STILL NO WAR DECLARATION

Martial Law Proclamation Being Printed at Johannesburg.

That Reply is All Ready, and is Expected to Be Handed to the British Agent at Pretoria This Morning—A Note Book Issued in London—Sir Alfred Milner, Premier, Pressed to Urged the Government to End the Tension.

Pretoria, Sept. 15.—The Executive Council of the Transvaal Government discussed the final reply to Great Britain all the morning and part of the afternoon yesterday.

At the close of the discussion both sides met in secret session to discuss the final draft of the Transvaal reply, which will be handed to Mr. Conyngham Greene, the British agent here, this morning. It is understood the reply is courteous, urges the acceptance of the joint conference and maintains the constitution of 1894.

An Ominous Request.

All the commissioners have been asked to send immediate returns of all the burghers available for military service.

Possibilities for Inciting Natives.

Cape Town, Sept. 15.—The British high commissioner, Sir Alfred Milner, has issued a proclamation prescribing severe penalties for inciting the natives of Bechuanaland and other districts to rebellion.

Martial Law Proclamation.

Johannesburg, Sept. 15.—The Eastern Star of Johannesburg asserts that a martial law proclamation is being printed. It is reported here that the reply of the Transvaal Government to the British note will suggest a seven years' franchise.

"Majuba Hill."

Manchester, Sept. 15.—The Right Hon. John Morley, Liberal member of Parliament for Montrose Burghs, while addressing a peace meeting in this city last evening, was frequently interrupted by cries of "Majuba Hill" and other anti-war demonstrations. In returning to the interruptions, Mr. Morley said: "A year or two ago the United States saw only one aspect of war, and what are they doing today? They are repeating. They have their yellow press and we have our yellow press. If I am asked to speak in this hall a year or two later I shall find those who now oppose me repeating also."

The proceedings finally became so noisy that Mr. Morley had great difficulty in obtaining a hearing. He urged an adjournment of the five years' franchise proposal and advised President Kruger to accede to Great Britain's suggestion regarding the conference.

## TERMINATE THE SUSPENSE

In the Cry of British South Africa to the Imperial Government.

London, Sept. 15.—A blue book containing the last Transvaal despatch of the Secretary of State for the Colonies, Mr. Joseph Chamberlain, relating to the matters which led up to its being sent was published to-day. The text of Mr. Chamberlain's note is identical with the despatch as published in the Associated Press.

Sept. 15.—The highly important feature revealed in a telegram from the British high commissioner, Sir Alfred Milner, dated Aug. 29, referring to the commercial distress and saying:

"I am receiving representations from many quarters to urge the Imperial Government to terminate the suspense. British South Africa is prepared for extreme measures and is ready to suffer much in order to see the vindication of British authority. It is the prolongation of the negotiations, endless and indecisive, that is dreaded. I fear seriously that there will be strong reaction of feeling against the policy of the Imperial Government in matters of drag. Please understand that I invariably reach confidence and patience and not without effect. But, if I did not inform you of the increasing difficulty of doing this, I should be falling in my duty."

There Are Other Despatches.

Other lengthy despatches from the British high commissioner are published, but they only reiterate the ultimatum and the commissioner's ideas regarding the propositions already made.

The blue book throws no new light on the situation as it is to-day, except to show the commissioner's patience has reached the oblong point.

Green's Diplomatic Blander.

Mr. Conyngham Greene, the British agent at Pretoria, in a letter to the Transvaal Government, said the Imperial Government did not desire to hurt the Boer sensitivities by publicly reasserting suzerainty, so long as no reason to do so was given by the Transvaal.

The Globe, commenting on this letter, expresses the greatest regret at such language and trusts Mr. Greene's words do not represent the attitude of the Colonial Office. The Globe adds: "The blue book gives little encouragement to the belief that the Boers will show themselves reasonable."

Interview With Kruger.

A published interview with President Kruger, who has been stationed one hour from Johannesburg, is far more important. He is quoted as saying:

"I have tried all along to place the Boers in the Transvaal on the same footing politically as the burghers. Mr. Chamberlain says I have not kept my promises. This," thundered President Kruger, "I deny."

Continuing the President of the South African Republic is said to have added:

"The Boers of the Transvaal have the same commercial rights as the burghers. They have not been allowed to trade without interference. I want to let them have the same political rights. But they would not have the same rights. Roughly, there are more than 100,000 Boers who have been more than once driven out of their homes. This is the only right to the franchise. Yet, of the British subjects who have availed themselves of it, I have not heard of one who has been an Englishman. This shows that the British in the Transvaal do not want the franchise."

"In my opinion there is no cause whatever for war. Everything could be settled by arbitration."

Estimate News Confirmed.

The advice from Cape Town yesterday confirmed the pessimistic view of the "Times" correspondent at Newcastle, Natal. The news that a strong force of British troops has been stationed one hour from Johannesburg, commanding the Pretoria and Johannesburg roads, has created great indignation at Cape Town.

Warships Regained Arrived.

The first battalion of the Manchester Regiment arrived at Cape Town yesterday. He has landed and marched through the streets. The soldiers were wildly cheered. After they had been reviewed by the British troops in South Africa, the battalion re-embarked and proceeded to Natal.

If not, Why not?

If you have rheumatism and refuse to take the proper cure for it, how can you expect relief? Dr. Hall's Rheumatic Cure really cures. Try it and see for yourself. Mr. S. Donaldson, Pittsburgh, P. M. at Dufferin Post Office, was lame with Muscular Rheumatism for two years. One bottle of Dr. Hall's Rheumatic Cure cured him completely. This preparation is taken internally, 50 cents a bottle, containing ten days' treatment. For sale at all drug stores.

WHAT THEY THINK OF EACH OTHER.

The Edmonton Bulletin of the 24th August, owned and edited by Mr. Orren, Liberal member for Alberta, in the House of Commons, has a proper appreciation of its eastern fellow-laborers in the Grits fold. It has at last learned that narrow partisanship is the field in which the leading organs of Liberalism move and have their being.

The great North West in times gone by, when the present men in power were in opposition, was a theme on which they used to dwell in terms not at all complimentary, in fact, nothing could be said or written to a contemporary of the country or its people. The Bulletin therefore must not be surprised if they have not yet returned to sound sense, particularly when party interests are involved. Not rebelling the violation of all professions and the course otherwise pursued by the Globe and its enthusiasts, the Bulletin writes in the following style of them:

If the far northwestern part of Canada is even opened up for the sole benefit of Canadian trade it will not be the fault of the Toronto Globe, Winnipeg Free Press, and many other such pirate craft assuming to sail under the Liberal party flag.

Apparently the Globe and its gang will never get over their throw down on the Yukon deal. If they cannot be allowed to steal the Yukon they will do all they can to hinder its development for the benefit of anyone else in Canada.

Friend Orren, you have hit the nail straight on the head. Why do you not act upon the same principle in the House of Commons and vote to turn them out?

## THE CHARLES ST. SEWER.

A COMMITTEE IN SESSION

What Mr. W. J. Diamond Has to Say in Regard to the Matter.

TO THE EDITOR OF THE INTELLIGENCER.

DEAR SIR,—Permit me, through your columns, to refer to the reports of the proceedings of the last sittings of the City Council as it appeared in reference to my communication re Charles street sewer.

The Charles street sewer was built from Victoria Avenue (Hotel street) to Bridge street upon the principle of "Local Improvement" under the special clause of the Municipal Act, and the amount requisite to pay for the same in ten years is assessed against the owners on the East and West sides of the street.

The amount varies according to the frontage—for example, R. E. Clarke is assessed \$16.12 and I am assessed \$9.25, yearly, and the rest in a similar way.

By some peculiar influence the sewer has been tapped by Mayor Johnson and others whose properties are not on Charles street, without the payment of one dollar towards the construction of the sewer.

In other words, we are, under the opinion of the Mayor, compelled to pay for ourselves and others who receive the full benefit of it.

As Mrs. Walker's property is situated on Ann Street and she was about to ask the City Council for the sewage of her property, I was called upon to write to the Mayor, entering my protest against permitting any person to tap the sewer without the payment of the full cost of the sewer.

## THE LADIES WERE DELIGHTED

With the Beautiful Creations Shown To-day.

The "Made" Hat Will Hold Full Sway This Fall—Notes From the Show-rooms of Belleville's Up-to-date Millinery Houses.

Nothing daunted by the threatening weather, crowds of the fair sex to-day wended their several ways to the different show-rooms where they eagerly looked forward to events were to be seen—the Fall Millinery Openings. The consensus of opinion among the ladies seemed to be that the displays this year were fully up to, if not better than the standard shown in former years. The "made" hat will reign supreme. Artistic creations are shown in many different and charming effects, and ladies who cannot get tired of Belleville's Millinery must be indeed hard to suit. Following our usual custom we give a resume of the varied and interesting displays to be seen in the different parlors:

### Geo. Ritchie & Co.

The commodious premises of Messrs. Geo. Ritchie & Co. always contain much that is fascinating to the fair sex, but this season they seem to have surpassed all previous efforts in the magnitude and variety of their stock. The large store is literally packed with goods in their various lines, and it seems to us it would be a most fastidious taste that could not be satisfied from their stock.

We sometimes forget the importance of such a store as Ritchie's being situated in our midst as a distributing centre for the products of the world's great manufacturers. Almost every manufacturing country of any note is represented in their stock.

There are piles of beautifully fine linens direct from the looms of Ireland and Scotland; lovely silks from France, England, Switzerland and Italy; dress goods and cloths from Great Britain, France and Germany; silks and rugs from China and Japan; fancy trimmings, buttons, buckles, etc., from Bohemia and Austria; curtains, lace and embroidered goods from Switzerland, etc., etc., all gathered together at one very doors by this enterprising firm.

To-day being their formal opening day for the autumn season, they had a great many visitors, and the courteous staff of clerks were kept busy showing the new goods.

The millinery department, which to-day was the centre of attraction, was tastefully decorated with ribbons, silks and trimmings suitable for millinery, as well as a number of beautiful palms and other plants.

It is at once noticeable that the dress hats are large in size and trimmed very high. Indeed, should the ladies insist on wearing their hats at the opera, there will be no chance for those sitting behind them this season to see the stage. Another marked feature is the quantity of trimming used in the brims, some being heavily trimmed with soft silk scarfs with fringed ends.

### QUIET HOME WEDDING.

### The Nuptials of Miss Huffman and Mr. Von Buskirk Celebrated This Morning.

A quiet home wedding took place at 10 o'clock this morning at the residence of Isiah Huffman, Charles Street, when his only daughter, Miss Lillian Maud, was married to Mr. Peter Edwin Von Buskirk, civil engineer, of New Milford, N.Y. Only a few of the immediate relatives of the interested parties were present at the ceremony, which was performed by the Rev. C. E. McIntyre, pastor of Bridge Street Church. The bride looked very pretty in a dress of mousseline de crepe, over a dress of white silk. The services of bridesmaid and groomsmen were dispensed with. After the nuptial knot had been tied, the present party of the wedding repast which was an elegant one. At noon the young couple left for Montreal and other eastern points. The bride's travelling dress was a tailor made suit of tan brown broadcloth and hat to match. Mr. and Mrs. Von Buskirk will probably make New Milford their future home. Amongst those who attended the wedding were Mr. Frank and Miss Susan Von Buskirk, brother and sister of the groom. The bride was well known in the City and her numerous friends will extend congratulations, and wish her and her partner in life every happiness and prosperity.

### Furs.

Miss Merbert's work rooms are open. Customers are invited to call and inspect the fur and trimmings. Hours—10 to 12 a.m., 2 to 6 p.m. After these hours appointments only by special arrangements.

have a great run. A great many of the new hats have the Tam o' Shanter crown. The feathered style again supplies a large proportion of the demand for millinery. Gulls and other large birds are used in their entire size, as well as a great many smaller birds, also quills of all kinds. Pheasants' breasts, Butterflies, Ostrich feathers, Osprey and Hawks are also seen in profusion. A few hats had shiny strips of mink for on them, and some were trimmed with Grebe. Wide plain ribbons are also much used, combined with very pretty new styles in jet, steel, gold and rhinestone buckles and ornaments. Some handsome buckles were shown in the new pastel colorings.

The colors this season are much more subdued than for some time past. The soft tints of Drapes, Claret, Brown, Grey, and Black and White will be the leaders. Phedra and Zaire, two new shades on the old Rose tones, will be used as well as Blue and Violets.

There was an extensive display of Walking Hats and Suits, which are much more trimmed than formerly. Pheasants are also much used, combined with very great abundance. These will replace the Rough Riders, which are now on the wane. The most brilliant hats Miss Urquhart saw in New York was a trim Sailor, the price of which was \$20.

A number of Pattern Hats were shown from the well known modistes of Paris and New York, but those designed by Miss Urquhart and her able staff of designers were quite as much admired, and are only a few of the price of the imported ones.

There was also a pretty lot of children's head-wear and a quantity of mourning millinery.

The entire display is a credit to Miss Urquhart and proves her to be a milliner of no ordinary ability.

In the Mantle department is seen a large stock of ladies' and children's Jackets and Mantles, also a great variety of Fur Garments. Mr. Reid spent ten days in Berlin making a selection of the latest novelties in these lines. The Jackets are very short and have a particularly smart appearance. Many of them are handsomely trimmed with a new make of silk braid. In this department is also carried an immense stock of Corsets and Underwear from the best makers.

The Carpet and House Furnishing Department, which occupies the entire top floor and basement, main store, and men's department are all overflowing with new goods, and the Dress and Mantle making department under Mrs. McLean is very busy.

Messrs. Ritchie & Co. have made preparations for a large trade this season, and we have no doubt from the beautiful goods shown their expectations will be fully realized.

### D. V. Sinclair & Co.

This firm has, during the past season, found it necessary to greatly enlarge their stock of goods, and to meet the demand for more room and more to better advantage their ever increasing patrons. In this enlarged department, which is very prettily decorated, is shown a beautiful display of fall millinery, consisting of London, Paris and New York importations of decided novelties known to the world of fashion.

The new autumn colorings are here seen to advantage in rich shades of browns, blues, purples, mulberry, pastel and modes, and velvets, plain and mirror, silks, plumes, feathers, and all the latest novelties and fancy ornaments contribute largely to the production of the most artistic headwear.

The most popular hats shown are the Directoire, Gainsboro, Napoleon tique and Spanish Turban, the two latter having prominence for fall head dress. They set well off the face and are decorated to the left side with velvets, taffets, ornaments, quills or wings, producing a very pretty effect, and are most becoming to the youthful face. There is also shown some decided novelties in fur plumes, mounted on a padded surface and shaped to fit the different outlines, seal skin, mink and sable being used in their construction. Mrs. Glenney, who has charge of this department, shows a very pretty hat, made of a soft material, made of one of the rich brown shades of velvet with a rolling brim of white and brown grebe, producing a very new effect; two pairs of large wings and a full crown of the velvet, faced with white satin and fastened with large Rhinestone ornaments. This hat is very much admired.

Another large hat, the Directoire, is a shape of light fishnet, with brim of medium width which covers at side and dips over the face. The brim is faced with a shade of green velvet and is put of ivory satin elevates the hat in the front. The crown of the hat is high and is draped of velvet and silk edged with fancy cord. A large wide quill of iridescent feathers is stuck carelessly through the draping and caught with an ornament.

In this same department are shown the ladies' and children's Jackets, Capes, etc., which the firm import direct from the best German makers. A feature of the new fall Jackets is the very pretty fancy Gimp which are shown in the very low priced garments.

In the main store, which is largely devoted to ladies' wearing apparel, is shown in great variety all the new effects in fall and winter dress materials, together with a very complete stock of Silks, Satins, Velvets, Gimps and other fancy trimmings which constitute a complete dress goods department. Mr. Sinclair shows with pleasure the celebrated Gold Medal back dress gowns for which they are selling agents, these goods being known and sold over for their superior dye. The Gold Medal goods are shown in all the new weaves, including Crepons, Poplins, Cheviots, Armures, etc., every yard of which is guaranteed by the makers either to spot or shrink, thereby assuring the customer of the usefulness and durability of the wear of Gold Medal goods.

Miss Conway remains in charge of the Dress Making department, which fact assures the firm's many customers of perfect satisfaction in the manufacture of all garments and dress materials.

This enterprising and go-ahead firm report a large increase in trade, and they rightly deserve it, as they have spared neither expense nor pains to cater to the wants of their numerous customers. Their rooms have been enlarged and re-fitted throughout, and, being on the ground floor, are most convenient for the public. It is one of the largest and best appointed show rooms between Montreal and Toronto. This is to be a milliner's

season, as the made hat reigns. Every year the art of trimming reaches a higher degree of excellence and demands a more artistic conception in combination of material and color effects, which will result in a ravishing affair that will be a dream of beauty, and will make a plain woman look handsome and a good looking one divine. Velvets—plain, mirror and fancy velvets especially—are used on all of the best patterns. A new feature is the folded chiffons of silk facing on the brims. They give a soft background for the face and are the loveliest things imaginable. The velvets and silks are draped, corded and twisted. Chiffon is used extensively. Large birds' wings and feather novelties of all kinds are also used. The feather butterfly, being perhaps the newest, is in vogue. The new French ornaments of enamel in pastel colors are very effective in trimming. Wide ribbons in taffets and ornamental satins are knotted, twisted and made in big bows. Appliques of all materials are used for the soft crowns. The Phœnix Breast and Grebe in natural black and the Hackles are used as the large turban and the new shapes are the large turban and the new pictures hat, with drooping brim front and back, with demi plumes. Also the Russian toque, and turban. In the ladies' shoes they are also showing something. Bitching settees are these, with muffs and hats to match. The numerous hats would be impossible as they are real gems in the art. Miss Irwin has excelled herself. Her ability as an artist is well known. Her efforts combined with those of one of the best trimmers in Canada, are a complete success. Mourning and children's goods are especially remembered, also a large assortment of velvets, plain, ordinary mirror and fancy velvets with patterns. Ostrich plumes and fancy feather sprays are shown, and every conceivable novelty that goes to make a grand success in millinery. If you cannot attend on opening day go later on or you will miss a treat.

### Miss Campbell.

The large numbers of ladies who visited the millinery parlors of Miss Campbell were more than delighted at the really superb display made. It is noticeable that this is to be a "milliner's season," as the "made hat" reigns. Velvets, plain and fancy mirror velvets especially, are used on all of the best patterns. A new feature is the folded chiffon of silk facings on the brims. They give a soft background for the face and are the loveliest things imaginable.

Corded and twisted chiffon is much used. Still in vogue are large birds' wings, and all kinds of feather novelties, the feather butterfly being, perhaps, the newest. Some charming effects are seen in new French ornaments of enamel in Pastelle colors. Wide ribbons in taffets and Oriental satins are knotted and made into bows. There is also shown a natural and black, and also the hackle feather. Saint Nouriss, which gives the effect of Terry Velvets, is seen to good effect.

In color the variety is great. Blue tones, violet shades, old rose and China blue tones are in evidence, as are Reseda and Nurier, as also Pastelle shades. The above are the latest in shades in natural and black, and also the hackle feather. Saint Nouriss, which gives the effect of Terry Velvets, is seen to good effect.

In mounting goods Miss Campbell makes an extensive and rich display, and children there is everything from parents could desire. The celebrated P.D. Corset is also sold here. Although her Miss Campbell excels her previous efforts, showing her determination to lay before the ladies as choice and stylish millinery as can be seen in any establishment in Canada.

### Miss A. Mills.

The splendid millinery show rooms of Miss A. Mills, Bridge street, never had a better and larger display, neither did she receive more flattering encomiums than those of to-day. A large number of the fair sex of the city visited the establishment and were apparently delighted with the display in the millinery line. Miss Mills has spared no pains in arranging her creation of the head gear. Her parlors are also prettily draped with ribbons, and flowers and feathers are to be seen in abundance. A number of the hats made up are beautiful and could not but please the most fastidious taste. The hats are of various shapes, all quite large. The pokes are in the way of the leading styles and is a very pretty hat. Feather trimmings and fancy birds are used very extensively in the hats and are arranged in such a manner as to be very effective. Greys and fur trimming is also used considerably. The shades used principally are castor and brown. In mounting hats ostrich feathers are quite extensively used, and in this line Miss Mills has made quite a display, and her exhibit of misses' and children's head gear is beautiful and varied.

## HONORABLY DISCHARGED.

Four Belleville Boys Who Were Quick-witted and Courageous.

Four boys, named Frank Smith, John Jardine, Gilbert Seams and A. B. Pitney, were before the Magistrate this morning. They were charged with breaking into a bathhouse belonging to Mr. Wm. Omond on the bay shore, in the vicinity of the hospital, and taking therefrom a boat. When, however, the reason was given to take the boat, to rescue two young men who had capsized in the bay, the Magistrate not only honorably acquitted them but commended them for the act performed. Mr. Omond stated that he had known the boys took the boat for the purpose of rescuing the men who never had preferred the charge.

## Committees Meet.

A committee of the County Council composed of Warden English, Councillors Cross, Holgate and Denyes and the County Clerk, this afternoon met a Committee from the town of Trenton for the purpose of discussing and arranging the Administration of Justice accounts. On January last the agreement between the county and the town expired and a new one will be entered into lasting probably four or five years.

## Remarkable Rescue.

Mrs. Michael Curtin, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her drooping suggested Dr. King's New Discovery for Consumption. She bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking six bottles found herself sound and well; now does her own housework, and is as well as she ever was—Free trial bottles of this Great Discovery at J. S. ## ONE WITNESS RETURNS

How Public Sentiment Runs in Cobourg.

People of that Town Don't Take Much Stock in Roach's Story, and Say He Has Learned His Lesson a Little Too Well.

Mr. George Moxam, caretaker of Queen Victoria School, who was one of the Crown's star witnesses at the Cobourg trial, has returned home, and THE INTELLIGENCER had a short talk with him to-day. Mr. Moxam was not put into the witness box at all. Detective Greer plied him with many questions, and when he found that he knew very little in particular about the case, and that what he did know was more in favor of the accused than against him, he was promptly dismissed with his services. "Would you mind saying what you were asked, Mr. Moxam," said our reporter. "Well, he asked me if I ever played pool with Ponton in Mackie's hotel," said Mr. Moxam. "I told him 'no' I don't play pool and don't know Ponton."

He was approached on other matters, but his replies evidently were not satisfactory to the Crown, for he was told last night that he could go home, he would not be put into the witness box.

Mr. Moxam states that John McNair, another Belleville witness has no idea of what he is subpoenaed for.

When asked as to the popular feeling in Cobourg about the case, Mr. Moxam said "You couldn't find twenty-five people in Cobourg who believe Ponton is guilty."

The general opinion in Cobourg is that the jury are intelligent body of men, and hardly anybody can be found who thinks that the evidence of the three crooks will have much weight with them. The detectives are very busy on the streets of Cobourg, looking for news, and they have agents in all directions.

The people of Cobourg are very anxious to hear the evidence of Robert Mackie, as they think he is more liable to tell the truth than either Holden, Pare or Roach.

In his cross-examination of Roach Mr. Porter made several telling points. "How long is it since you began to be good, Mr. Roach?" he said, and the witness admitted that until he was taken into custody he had never really made up his mind to be good.

Another good point was when Mr. Porter got Roach to admit that he had studied the newspapers containing the reports of former trials. The impression at Cobourg is that Roach has learned his lesson a little too well.

## WHAT A KINGSTON PAPER SAYS.

Kingston Times. It is now generally understood that Robert Mackie will not be a witness for Ponton. Some time ago it was announced that Mackie would give evidence, and this statement was generally accepted. But Mackie, since his arrival at the Penitentiary, has been a model prisoner, and it was the opinion of his friends that if he went on the stand for Ponton he might in cross-examination say something that would injure his own chances of securing his liberty. That is providing that he, Mackie, is guilty or cognizant of something in connection with the robbery. Last week James Mackie, brother of the prisoner, brother, Dr. Mackie, of New York, visited him, and yesterday his wife also called upon him. It is surmised that they used their influence to induce him to keep out of the box. It is difficult to get any definite information as to what his intentions are, beyond the fact that he volunteered at first to testify. It was all arranged, as already stated, that he should go to Cobourg this morning, and it is certain that he did not, though what he may do later it is hard to say. It is current talk in Cobourg that he will remain neutral, and the change of front, like a change of venue, puts an entirely new aspect on the whole business.

What effect will this move have on Ponton's chances? Mackie was to be a star witness. His evidence was to be in direct rebuttal of that given by Pare and Holden, and Roach's testimony for the defence was considered as a prospective helpful adjunct.

## WHAT PEOPLE ARE SAYING

That public interest in the Ponton case is greater than it ever was.

That the testimony of all the crooks in Canada is not worth the word of one honest man.

That a lot of sleuths and would-be detectives came to town last night and found a mare's nest.

That now Drayton has been pardoned the editor of the Belleville Independent will probably cease advocating the boycotting of the Paris Exposition.

That people should not burn up the dead leaves which fall from the trees. They are one of nature's protections for the roots of the tree and should not be disturbed.

That Cobourg girls resemble Belleville girls very much. One of them told a reporter "You are no good in this town unless you are for Ponton." To use a Liberatorian, the fair sex all over Ontario seem to be with "Billy" to a man.

That the Boers may get a little the best of it in the hostilities break out in South Africa, but oh, what a monumental lying they will get when Col. Sam Hughes gets out there.

That they are not talking politics much in Belleville these days. If you see a group conversing on the street you don't need to be gifted with second sight to know what they are talking about. Certain good ladies who were engaged in the commendable occupation of making clothes for the little heathen have had to give it up. "We just can't sew any more till the Ponton trial is over," one of them said.

If those Crown officials, the despicable individuals, who in the former trials furnished the Wilkes testimony, are to be believed, then there is new evidence. Moxley bills traced to McGinnis' store, Belleville, are held up as indisputable. But, it must be remembered, that the evidence of a paid detective is valueless, so have rolled several High Court Canadian judges. Testimony given by men paid to collect evidence and whose reputation as successful sleuths depends upon conviction or acquittal, are apt to stop at nothing. So as regards that, all the evidence given by detectives against Ponton, unless thoroughly substantiated, will be thrown to one side, even though either Daugherty or Wilkes again tell the key story. Better evidence than that must be produced. They must be better than the theory of a Silas county constable and better than a Pare and Holden confession. Robert Mackie and "Billy" Ponton may both be guilty, but it will need better evidence than any yet adduced to convince the general public. It is to be hoped that Mackie may yet change his mind and testify for Ponton.

## HOW MACKIE LOOKED.

Kingston Whig: Quietly and unostentatiously, Robert O. Mackie, made famous through his arrest, trial and sentence for complicity in the robbery of the Dominion bank at Napanee, was removed from the Kingston penitentiary this morning and driven to the lower Grand Trunk depot at nine o'clock where he boarded a train for Cobourg to give evidence for the defence of Ponton in the trial of the last named. Mackie was accompanied from the prison by driver Kennedy, keeper Kennedy and deputy warden O'Leary. They arrived at the depot some minutes before the train pulled into the yards, in order to shield their prisoner from the prying eyes of the few who stood around the platform they drove up and down the road for some time.

Mackie looked as though he had fretted since his confinement. His features showed plainly that the spirit unconquered to restraint longed to be free and chafed in confinement. He was not in a mood for conversation and reminded one, by his attempt at a cheerful smile, of a man recovering from a long siege of illness.

## ANOTHER SEARCH PARTY.

Constable Silas, of Napanee, was in the city last evening, and as he had been here a number of times previous in connection with the bank robbery case his presence here again gave rise to a rumor that he was on a fishing expedition. This proved to be the case, and he desired to obtain the assistance of one and only one member of the local police force. To the sergeant in charge, owing to the absence of the Chief from the city, he would divulge nothing. The officer he wanted was Policeman Hayes, whom he secured. They visited the Dominion House, and, clothed with authority, made a minute inspection of the premises. The search was thorough and crevice was looked into, the chimney holes even not being overlooked. At one time during their search the officers were suspicious that the room was being watched, and in the twinkling of an eye their light was lowered. When the coast was again thought to be clear the light was again turned up and the search continued. Although they were about the premises for some time their labors were fruitless, and their countenances portrayed that they were somewhat disappointed.

## A RUNAWAY HORSE

Inflicts Severe Injuries on a Popular Local Medic.

This morning Dr. H. McKee had a narrow escape from serious if not fatal injuries. He was driving in the vicinity of the G. T. R. station when his horse became frightened at a passing engine and ran away. The doctor endeavored to check the animal, but was unable to do so. It ran into the station yard, colliding with some car wheels. The doctor was thrown out and the right side of his face was badly bruised, the right wrist sprained and he was bruised about the body. The buggy was literally smashed to pieces.

## Mrs. Graham's Funeral.

The remains of the late Mrs. Peter Graham were this afternoon consigned to the tomb. Services were held at the family residence, Maria street, conducted by Rev. A. L. Geen and Rev. M. G. Reid. The bearers were Messrs. W. C. Reid, H. McDiarmid, R. Arnold, S. Benson, W. Nelson and R. Blain.

## Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. One of them told a reporter "You are no good in this town unless you are for Ponton." To use a Liberatorian, the fair sex all over Ontario seem to be with "Billy" to a man.

That the Boers may get a little the best of it in the hostilities break out in South Africa, but oh, what a monumental lying they will get when Col. Sam Hughes gets out there.

The Crown Making Strong Efforts to Prove That Hope McGinnis Handled Some of the Stolen Money.

Rumor That Mackie Would Testify for the Crown Proved Untrue.

The Prosecution Has Closed Its Case and Neither He Nor Pare were Called.

A Rumor From Cobourg That the Worst to be Expected is a Disagreement.

More About the Hold-Up Story Which Roach Told.

Cobourg, Ont., Sept. 21.—Strong evidence was advanced by the Crown in the Ponton case to-day on the line connecting the prisoner with bills which from every indication are a portion of those buried near the railway track by Pare and Holden after the robbery. Mr. Oler proved by several witnesses, among them Constable Silas and Chief of Police Adams, that a strong friendship existed between Ponton and a young man named Hope McGinnis, of Belleville. Then G. J. F. Wurtel, teller of the Merchants bank at Belleville, swore that he had received deposits made at different times by McGinnis, containing a large number of Dominion bank bills of the denomination of \$5. The bills were all brittle and appeared as if they had been wet and dried out. The counter signature on the bills looked as if it had been tampered with. Following this came the evidence of Edward C. Bowler, teller of the Dominion bank at Belleville, and of Mrs. Harriet Wain, showing that a deposit of \$125 had been made in bills of exactly the same description by Wain in the Dominion bank. Miss Lavonia Hunter swore that she gave Mrs. Wain the money deposited and that she received the bills from Hope McGinnis.

Cobourg, Ont., Sept. 21.—In support of Roach's story, told yesterday, Jas. C. Frasse, a cheese manufacturer of Lennox Co., was called. Roach had said that Ponton told him once in June that a cheese merchant would be in town the next Saturday and would draw a large sum of money, and Ponton had suggested that the man be held up by Pare, Holden and Roach and sufficient funds secured to carry them along comfortably until the robbery of the bank was effected.

Mr. Frasse swore that in June of 1897 he had been accused at the Dominion bank in Napanee and he remembered telling Ponton that he would be in the bank on Saturday to draw a large sum of money. He went into the bank on Saturday and was met by Ponton, who told him that he (Ponton) had the money all ready counted for him. Frasse replied that he had made a mistake in the day and would not require the money until the following Saturday.

David Young, the safe expert, gave evidence as to the condition in which he found the safe/shed/room set up to open it after Pare had tampered with it. He declares that it would be impossible for any man to open the combination without knowing the secret. He would not change his opinion on a cross-examination.

Clarence Bogart, Assistant Manager of the Dominion bank at Toronto, who investigated the robbery, gave evidence upon the point of several mis-statements made by Ponton.

This closed the case for the Crown.

The defence will be taken up this afternoon.

## CONVICTION NOT LOOKED FOR.

A rumor was current to-day that the defence need look for nothing worse than a disagreement.

The Intelligence last night had the pleasure of a talk with Mr. Ford Ford, one of the brothers, who left Belleville twenty years ago, and for a few days he had been in the city on his holiday in order to be enthusiastically "towed" to the prettiest little city he has seen in all his travels." The Ford boys were enthusiastic volunteers, and Mr. Ford has many anecdotes to tell of the days when he belonged to the old 49th. For the last seven years he has been in the employ of the B. Eddy Paper Mills, at Hual, and is enthusiastically on his chosen vocation of "Eddy works," he says, are up to date in every respect, and they employ large machines making all kinds of paper, though their principal product is

Mr. Ford gives some interesting figures as to the consumption and output of the highly specialized machinery of the paper mill. Spruce and sulphate, and the revenue machines use up no less than 88 cords of wood.

"How long does it take to manufacture paper from the raw material?" asks the reporter.

"It is a common experience to haul logs in the morning, make the paper, send it to the mill, and have the newspapers printed on it the same night," we reply, "but, if we were pushed, after the logs were cut, we could get them to the mill and have them ready for the printing press in two days."

"Pretty good," said the newspaper editor, and he took his leave, proudly conscious of the fact that, compared with other industries of the nation, he had a "right in it" as far as paper making was concerned.

## SOME PRESS OPINIONS.

What the Globe Calls the Best Gauge of the Crown's Case.

Roach's Lawyer Says He Did Not Advise His Client to Confess-The Pickpocket Sent for Holden's Lawyer-A Suspicious Circumstance.

Toronto Globe: Cobourg, Sept. 21.—The Crown in the trial of Wm. Ponton has rested its case, and it is not going beyond the mark to say that Mr. Oler has presented to the jury an array of evidence such as has not been able to secure in many of the criminal proceedings in which he has been engaged, and he has with the dropping of Pare as a witness avoided a great deal of the doubtful testimony which in the belief of the jury was attached to the first trial. With exceedingly protracted sessions it has been made possible to place before the court the evidence of the prosecution within three days, and a verdict on Saturday is now assured. The best gauge of the effect of Mr. Oler's presentation of the Crown's case is, however, its effect on those engaged in the trial. Mr. Porter is more confident than ever of a triumph for his client, and Mr. Ponton, while a trifle belligerent, is cheerful and as much a bright and careless boy as he was on that day two years ago when he was taken into custody.

Mail and Empire: The Crown case, as it stands, is admittedly stronger than at Napane. The defence witnesses to-day were all unimpaired, the heavy guns being reserved for tomorrow. Apart from the evidence as to sales, Ponton himself is practically his own chief witness. As the case stands, it is his word against the stories of the crooks and the mass of circumstantial evidence.

Mr. W. G. Wilson, of Napane, who has been more or less connected with the case for a year back, wishes to correct the impression that he tendered Roach's evidence to the Crown. His position in the matter is this: On Roach's arrival in Napane he was retained as his solicitor, and came to Cobourg to look after his client's interests. Quite without his knowledge Roach sent for Mr. S. H. Preston, of Napane, who has been acting for Holden for a year or more, who advised him to throw himself on the mercy of the court. Mr. Wilson was entirely in the dark on the matter on the Tuesday evening Roach had called in Preston. Mr. Wilson says he never would have advised Roach to confess had he continued as his counsel.

## The Patterns in Our Fall Suits.

Makes our stock the most stylish to be seen in this City. The desirable suit is the rule here—not the exception. Reasonable prices is another rule. Grand values in men's suits at \$5, \$6, \$8, and \$10.—QUICK & ROBERTSON.

## Horse Stolen and Recovered.

Some time during Tuesday night a horse was taken out of Mr. Thos. Munley's stable, near Albert College. A bride was also missing, which evidently indicated that the thief had ridden the animal off. Yesterday the animal was found on a road in the township of Tyndinaga. There was no clue as to who stole the horse.

## These Autumn Mornings

And evenings you'll naturally turn towards light weight overcoats. The Oak Hall has a good showing of these, put right on—and at just right prices. The only difference between the kind we sell and what the tailor will sell you is the price. We have pleased hundreds and can please you.

## WHAT PEOPLE ARE SAYING

That golf has some devotees in Belleville and the number is increasing.

That there is a cat on the west side of the river with whiskers like Oom Paul.

That it would be a good thing if some politicians would turn Queen's evidence.

That "rings" are very good things in their place, but they are very bad things when they conspire to put up the price of any of the necessities of life.

That the "honor among thieves" which we used to hear so much about seems to be conspicuous by its absence among the crooks at Cobourg.

That for originality, a correspondent at Evanhoe takes the cake. Here is how he announces a birth: "John Benson is wearing a plug hat and a smiling face. It's a dish-washer."

That the Boers will have a hard enough time when fighting broke out without being worried to death before it starts. It would be just like a good deal if he should happen to hear the rumor that the 49th are thinking of volunteering.

That the rumor of Mr. Hardy's retirement has again cropped up. It looks as if there were some truth in it. If his resignation should take effect before the last Thursday in November it would be a good thing. It would be something else to be thankful for.

That it is to be hoped fighting in the Transvaal will not begin till the trial at Cobourg is over. Ontario readers have about all they attend to now; if that eventuality was to occur some of 'em wouldn't get any sleep at all.

## SOME EXPERT TESTIMONY

Arthur Gravelle Opens Combination Locks.

A Methodist Minister from Minnesota Who Can Open Safes by His Delicate Sense of Touch—A Good Witness for the Defence—Billy Ponton on the Stand This Afternoon.

(Special to the INTELLIGENCER.)

Cobourg, Ont., September 22.—When the fourth day of the Ponton trial opened this morning, shortly after nine o'clock, all Cobourg seemed to be about the doors of the Court House, and the Court Room itself was packed to suffocation with the more favored ones.

His Lordship had scarcely taken his seat when he asked Mr. Porter to call his first witness.

The counsel for the defence then continued his presentation of a list of evidence, and called O. D. Macaulay, Mrs. Macaulay, Miss Lulu Davey and Miss Jessie Maclean, all of whom testified in support of the evidence of Miss Newberry, given yesterday, to the effect that Ponton was at the house of Mrs. Davey, of Belleville, from 8 to 11 o'clock on the night of Sunday, April 24. The Crown contends that on that night Ponton met Holden in the Dominion Hotel, Belleville.

The evidence of Edward Milburn, head master of Belleville High School, and City Treasurer Thompson, and Monsignor Farrelly, of Belleville, were all put in. Each witness declared that they had all believed Ponton to be a fine, honest, truthful boy.

Then Mr. Porter called W. G. Wilson, a lawyer, and Chas. Anderson, a livery man, of Napane, to prove that High Constable Sills had stated that he had the evidence in his pocket which would acquit Ponton.

His Lordship, however, refused to admit the evidence, and Mr. Porter called Dr. Chamberlain, Inspector of Prisons for the province.

Dr. Chamberlain produced a letter which was written by Pare just before his last escape from jail.

Again His Lordship interfered and refused to allow the letter to be put in as evidence as there was nothing to show who wrote it.

Mr. Porter then said that he intended to ask that Pare should be produced in court to swear as to his signature on the letter.

Mr. Oler said that if Pare came into court it would have to be as a witness for the defence and the defence could not con- fute its own witness.

As Mr. Porter refused to grant the request, His Lordship refused to grant the request.

Mr. Oler took charge of the letter and gave it to the press.

It simply stated that Pare had been promised his liberty after three months if he told what he knew about the robbery.

He had told and they had left him in jail to live on bread and water, with no tobacco.

He threatened that if ever brought into the breach of his promise, he would show up the "false pretences" of the Pinkerton detectives.

He wished to say good-bye to those who had been good to him, but the best of friends had to part. If his leg improved he would send Dr. Leonard, the jail physician, a nugget to remember him by.

Arthur Gravelle, of the Rentlaw Bureau, a lock expert, was called and declared that it was possible to open a four wheel combination lock. He had done it himself by a system based on mathematics. Mr. Gravelle produced a four wheel lock of the kind used on the bank safe at Napane, and opened it with several different sets of figures, all based, however, on the original combination.

J. C. Van Aukon, an ex-minister from White Cloud, Mich., who was a safe expert for some years, was called. He told Mr. Porter that he had opened hundreds of four wheel combination locks and a few five and six wheel locks. He was enabled to do this by his extremely sensitive nerves. He could tell by his sense of touch or hearing whether or not the tumblers in a lock fell and if this failed he would commence on a multiple. His reason for doing this was that people had a habit of getting their combination locks on such sets of figures. Mr. Oler did not see a great deal on cross-examination.

The evidence of J. H. Durand, given at the trial, was read, and at 1:25 o'clock the prisoner Ponton was put upon the witness stand. He had begun the story of his arrest when court adjourned.

## A WISE PRECAUTION,

Which Will Put an End to a Present Source of Anxiety, if Properly Carried Out.

THE INTELLIGENCER this morning had a talk with Dr. Tracy, Medical Health Officer, regarding the cases of scarlet fever which are now in the City. The doctor, in speaking of children who had attended one of the Public Schools while suffering from the disease, said that, when the schools opened, he had given orders to the different teachers that no scholar was to be allowed to attend when he was ill.

The doctor states as his opinion that many of the cases which are now in the City were brought in from outside places by people who have been out of town visiting.

When asked as to the nature of the disease, Dr. Tracy stated that it was of a mild type, but just at present, when the weather is so changeable, he would advise anyone having this sickness among children to seek the services of a medical man, as the disease is so changeable, and if not properly attended to, grave consequences might ensue. The only time the disease is catching is when the "peeling" process is going on. Children should not be allowed to attend school for at least six weeks after the inception of the disease.

Belleville people, the Doctor said, had been very lucky, as so far there had not been one death from the disease, and in only three cases had there been serious complications.

## Worth Ten Dollars a Bottle.

Any person who has used Folsom's Nervine, the great pain cure, would not be without it if it cost ten dollars a bottle. A good thing is worth its weight in gold, and Nervine is the best remedy in the world for all kinds of pain. It cures neuralgia in five minutes; toothache in one minute; lame back at one application; headache, rheumatism, and all pains just as rapidly. Small trial bottles, only cost 10 cents. Why not try it to-day? Large bottles 25 cents. Sold by all druggists and country dealers. Use Folsom's nerve pain cure—Nervine.

## REV. DR. POTTS TALKS

On the Twentieth Century Fund, and Makes a Deep Impression on a Large Audience.

A large number of the Methodists of the City and surrounding country gathered at Bridge at Church yesterday afternoon to listen to an address on the \$1,000,000 Century Fund by the Rev. Dr. Potts, of Toronto, who has been styled the father of this movement. The meeting was held in the large Sunday School room, which was filled. The students of Albert College turned out en masse, Principal Dyer and the staff also being in attendance. Rev. C. E. McIntyre was Chairman of the meeting. The proceedings opened with devotional exercises, prayers being offered for the success of the movement. Dr. Potts spoke nearly an hour and with his eloquence made a deep impression. He gave a detailed account of the history of the movement and the various branches of church work which would be benefited by the raising of the amount named. The setting apart of a portion of the million dollars to relieve church debt would prove to be a great benefit. If the churches were relieved of their embarrassments much more good could be accomplished in extending God's kingdom on earth, and the spirituality of the members would be quickened. He did not desire this to be a begging scheme, but a free thanksgiving offering to God. The address was most interesting and will be remembered by all who were present. At the conclusion of the address, a meeting of the members would be quickened. He did not desire this to be a begging scheme, but a free thanksgiving offering to God. The address was most interesting and will be remembered by all who were present.

The following from the City were appointed as a committee to carry out the programme: Messrs. W. H. Gordon, convenor; C. P. Holton, W. W. Chown, Wm. Johnson, C. Clapp, W. J. Magrath and A. J. Taylor.

Couldn't Locate Wreck.

The gang of wreckers, with Diver Newman, which the Donnelly Salvage and Wrecking Co. sent up from Kingston to Prinyer's Cove, Bay of Quinte, to locate the sunken steam barge Alberta and remove her boiler and machinery, have returned. They were unsuccessful in their mission, they were unable to locate the wreck. Before returning Diver Newman placed a new blade on the propeller of the steamer Resolute.

## MILLINERY.

Our Millinery Show Rooms are now open for the season. We extend a cordial invitation to all the Ladies to come in as frequently as they find it convenient. Fresh Novelties will be added to our already large stock every week throughout the season, and there will always be something new to see here.

Miss Urquhart has associated with her a large staff of expert designers and trimmers, and any orders entrusted to us will have our very best attention. For those who prefer to do their own trimming we have a large stock of Velvets, Wings, Birds, Feathers, Quills, Chiffons, Ribbons, etc., and a large assortment of new shapes in Dress Hats, Sailors and Walking Hats.

As these are imported by us direct, you will find our prices very moderate for high quality goods.

## Porter, Ponton and Victory!

"Not Guilty" was  
the Verdict  
RETURNED AT COBOURG BY THE TWELVE  
GOOD MEN AND TRUE

A Mighty Shout Went Up When the  
Verdict was Announced.

The Jury was Only Out an Hour—An Affectionate  
Scene Between Mother and Son—Roach  
Goes Free—Pure Gets Three and  
Holden Four Years.

E. GUSS PORTER.  
Whose masterly conduct of the defence has made him famous from the Atlantic to the Pacific.

W. B. NORTHRUP.  
One of the great trio of lawyers who have just gained a "famous victory."

Cobourg, Ont., September 23.—William Henry Hamilton Ponton was declared innocent of complicity in the robbery of the Dominion Bank at Nanapan by the jury this morning.

The twelve men occupied but one hour in coming to their verdict, and when they filed into court shortly before one o'clock and rendered their finding of "Not Guilty," a great shout went up and the cheering was continued for several minutes, while a general rush was made for the dock.

The sheriff shouted for order, but scarcely any one paid any attention to him. Ponton's mother, who sat in front of the dock, jumped to her feet and he caught her in his arms and kissed her repeatedly.

Then Mr. Porter walked around the table and shook hands with them both and Ponton was then led out among a throng of people.

When he reached the street he was again cheered and received an ovation at his hotel, the Dunham house.

The address of Mr. Oiler upon behalf of the Crown was a masterly effort, but was very brief. His argument was that a convincing case had been made out aside from the evidence of the accomplices, Roach and Holden.

His Lordship's charge was also brief and, if anything, was slightly against the prisoner.

While the jury was deliberating upon the verdict, Pare and Holden were brought into court.

Holden pleaded guilty to the charge, but Pare, inasmuch as being left out of the Ponton case, said that he would not plead guilty unless he was promised consideration for the time that he had spent in jail as a Crown witness.

After some delay the court appointed F. M. Field, of Cobourg, as lawyer for Pare and the two left the court for a conference.

Pare, after the conference, pleaded guilty.

### THE CROOKS SENTENCED.

Cobourg, September 23, 2 p.m.—Roach pleaded guilty and was allowed to go on suspended sentence.

Pare was sentenced to 3 years. Holden was sentenced to 4 years.

At a church practice they were rehearsing a selection, the first words of which were, "I am a pilgrim." The music divided the world pilgrim, and made a pause after the first syllable. The soprano sang in a high key, "I am a pil—," and stopped. The alto, however, "I am a pil—," and the tenor acknowledged he was "a pil—," and when the bass came thundering in with the like declaration, "I am a pil—," it was too much for the gravity of even a church choir.

### AN ABLE-BODIED FRAUD

That is What Mr. Charles A. Winfield, Probably Was—The City Well Rid of Him.

The Chief of Police last evening received a communication from a party in Stirling village stating that a well built colored man had been in that village soliciting aid for the African Methodist Church of Canada and was spending the money in drink. The letter intimated that the party referred to was probably a fraud. The letter in question was placed in the hands of Constable Hayes, who found the man in an up-town hotel, and escorted him to the station. He indignantly refuted the statement that he was a fraud, and produced a certificate and documents stating that he had authority to collect subscriptions for the church. He also stated that he was in Stirling that day and had walked from that village to Belleville. From the book which he carried he showed that he had collected but 50 cents in the village. The Magistrate was consulted in the matter, with the result that he was told to get out of the city, which he did on the midnight train, going east.

From documents in his possession his name appeared to be Charles A. Winfield, and he had a license to preach, which license was granted to him some 15 years ago. His age was 49 and he stated that his home was in Bradford, Ont. When taken in charge by the officer Winfield was snoring in an old colored clay pipe and his breath was certainly perfumed with something stronger than the water supplied by the city. He appeared to be a rather intelligent person and a man of commanding appearance. He stated that during the past week he had sent away \$30 to the connection which he had collected in this district, and which had left him about penniless.

### Mining Machinery.

The Mac Machine Company of this City to-day shipped a considerable quantity of mining machinery to the Belmont gold mines in Marmora Township.

### Prince Edward County Fair.

The Grand Central Ontario Fair will be held at Pictou on the 27th and 28th of September. W. H. Williams, Pres., T. B. Sec., Treas.

### WHAT PEOPLE ARE SAYING

That all signs point to a long, severe winter.

That Roach might as well have been tried in Belleville. He could have got a suspended sentence here.

That certain Belleville newspaper writers are adepts in the gentle art of "blowing their own horn."

That election time is drawing nigh and some of the aldermen are "playing to the gallery."

That when the British begin fighting in South Africa they won't stop at Laing's Neck this time. Kruger's neck will be the objective point.

That while the sidewalks remain the way they are the aldermen will never be stuck for something to talk about.

That, owing to the condition of some of our streets, bicyclists are compelled to ride on the boulevards and sidewalks or else walk and push their wheels.

That there is no doubt this City has at present the best system of electing aldermen. All they have to do now is to find the least alderman to elect.

That the law against selling tobacco to minors is openly violated in Belleville. It looks bad to see little chaps of 12 or 13 smoking the evil-smelling cigar.

That the fall is setting in early and the most disagreeable time of the year is at hand, when it's too hot if the coal stove is lighted and too cold if it's out.

That a layman one of the most peculiar things about criminal trials is the fact that quite often a piece of evidence which would seem to do the defence the most good is ruled out by the judge.

That it is to be hoped the Council can see that they are clear to grant the request of Messrs. T. C. & Son. An old established firm like this, which has given employment to hundreds of citizens and brought many thousands of dollars into the City in days gone by, should not be treated in a niggardly spirit.

That most church-going people will commend the action of that Halifax minister who, when the church choir began singing the good old hymn, "Rock of Ages" to a new-fangled tune, stopped them and asked for a tune in which the congregation could join. It is a fact that nine people out of ten who go to church like to take a hand in the celebration themselves once in a while.

## Daily Intelligencer.

"TRUTH IS MIGHTY AND SHALL PREVAIL."

After enduring for three years the most rigid surveillance which it is possible to inflict on any man, William Henry Hamilton Ponton was this day found "Not Guilty" by a jury of his peers. That verdict was a just and wise one hardly anyone will question. The evidence revealed itself in the word of an honest, straightforward young man against the testimony of three self-confessed bank burglars and thieves.

Undoubtedly, the frank, open, manly way in which young Ponton gave testimony in his own behalf weighed heavily with the jury. The contrast between his courteous, gentlemanly demeanor and the cunning, brazen manner of the self-confessed criminals was too strong to be lost sight of by any body of intelligent men.

To Mr. E. Gus Porter and the clever lawyers associated with him the man just acquitted owed much.

Pitted against a wealthy corporation, with unlimited means at their disposal, who boasted of being from a famous country man to try and crush his client, the lawyer for the defence has proved himself more than a match for the man supposed to be the greatest criminal lawyer in Canada. Though at times the outlook was black and many shook their heads ominously while the stories of the crooks were being unfolded, the accused did not lose his cheerful air of innocence nor the prisoner's counsel their air of confidence. As the 11th proverb has it, "Truth is mighty and shall prevail." That justice and truth have prevailed in the Ponton case we have no doubt. Congratulations to W. H. H. Ponton and the clever trio of lawyers who have made him a free man.

## SNAP SHOTS AT TIMELY TOPICS.

—From the way the French papers are dealing Mr. Guerin for surrendering so meekly one would think the fondest desire of his countrymen was to have him fight the entire French army single-handed.

—Jane O. Yarnall has beaten all bicycle records for women, having ridden 700 miles in 81 hours and 5 minutes. For three and a half days she slept less than two hours. Who now will question that bicycle riding by women develops the intellectuality of the sex?

—The Eugenic Trust has come. The managers of the "athletic clubs" in and around New York have formed a combination to cut down the compensation of fighters, to blacklist realists, etc. The slugs must now organize a trades union and boycott the trust clubs.

—Those in attendance at the meeting were Mayor Johnson, Aldermen Hanley, Taylor, Robinson, Panter, Bogart, La Roche, Doyle and Jones.

—Before going into committee a communication was read from Messrs. Tickell & Sons, asking that their assessment on property proposed to be purchased by the city of \$3,500 per year for a period of 10 years.

—Mr. E. Tickell, who was present, was heard in reference to the matter, and stated that it was the intention of the firm to increase their plant and employ at least 20 men. They intended to manufacture baskets and also chairs. They asked that their assessment be placed at the amount named for 10 years.

—The Mayor said he would like to see the old business continued which was so long closed and by the late Mr. G. S. Tickell. He was entirely in accord with the petition.

—Ald. Hanley moved that the matter be favorably recommended to the Council and it be referred to the City Solicitor for his opinion.—Carried.

—Mr. A. E. Lewis asked for the privilege of tapping Bridge at sewer of Church st., north of Bridge st., Methodist Church.

—On motion the request was granted.

—The Mayor said he wished to speak on a question of privilege. It was in reference to the communication of Mr. W. J. Diamond re Charles at sewer. No undue influence had been used by him (the Mayor) to tap the sewer. Others had tapped the sewer. This sewer had been laid largely by the efforts of Mr. E. O'Flynn when an Alderman, and Mr. Diamond had opposed it. Mr. Diamond's insinuations in the letter were contemptible.

—PUBLIC WORKS.  
Ald. Hanley, Chairman, presided over this committee. The following accounts were recommended to be paid:  
Pay sheet No. 19 ..... \$430.10  
Or & Dock work ..... 60.30  
Marsh & Harkness ..... 75.38

—A communication was read from Mr. W. J. Andrews, asking that the drain on Coleman ward be increased to 10 in. The drain was 8 in. The Mayor said he was building a residence adjoining it.

—Ald. Hanley was in favor of the petition being granted.

—On motion the matter was laid over for further consideration, in order to obtain the Solicitor's advice thereon.

—Ald. Bogart said he was in favor of granting the petition, but there was two walks which must be repaired or an accident would occur. One of the walks was from ex-Ald. Pitt's premises on Mill street to Mr. McGinnis' grocery, and the second was from Church at Church street north of Dundas. He moved that these walks be repaired. It was time something was done to our sidewalks.

—Ald. Panter said sidewalks after sidewalk have been taken up and no walk replaced. The taxpayers were walking in mud, which was a shame.

—Ald. Doyle said it was disgraceful how Coleman ward had been treated this year. It was apparently an orphan.

—Ald. Bogart said that some sidewalks in Coleman ward were in a disgraceful condition, especially on Baldwin street.

—Ald. Panter said that a board sidewalk on Wickett street was taken up and no walk had replaced it.

—The Mayor said the motion made by Ald. Bogart would be laid over. The Council would have to reconsider the motion which it made in reference to building new walks.

—Ald. Hanley said that as soon as the work on Front street was done the sidewalks would be attended to.

—After a lengthy discussion Ald. Bogart said that on Monday night he would move to rescind the motion passed in Council, if it was necessary, in order to get the walks repaired.

—The Street Surveyor gave a detailed list of the various streets in the City where sidewalks needed repairing. It was his intention to place a number of them in repair in a day or two as soon as the work on the streets was passed.

—MARKET.  
Ald. Panter, Chairman, presided over this Committee. An account of W. J. Holland for \$13.75, for attending the City clock, was passed.

—Tenders for coal were opened and found to be from the following: T. Stewart, Capt. N. Allan, and C. C. Leavens.

—On motion the tender of Capt. Allan was accepted at \$5.14 per ton.

A Long and Warm Discussion on the Sidewalks—Repairs to be Made Immediately the Street Repairs are Finished—A Long and Busy Session of the Committees.

The session of the various Civic Committees last night was a lengthy one, but a number of important matters were brought up and thoroughly discussed. The dilapidated condition of the sidewalks throughout the City was the subject matter of a lengthy argument. The repairing of a number of them will, however, be undertaken at once.

Those in attendance at the meeting were Mayor Johnson, Aldermen Hanley, Taylor, Robinson, Panter, Bogart, La Roche, Doyle and Jones.

—On motion the request was granted.

—The Mayor said he wished to speak on a question of privilege. It was in reference to the communication of Mr. W. J. Diamond re Charles at sewer. No undue influence had been used by him (the Mayor) to tap the sewer. Others had tapped the sewer. This sewer had been laid largely by the efforts of Mr. E. O'Flynn when an Alderman, and Mr. Diamond had opposed it. Mr. Diamond's insinuations in the letter were contemptible.

—PUBLIC WORKS.  
Ald. Hanley, Chairman, presided over this committee. The following accounts were recommended to be paid:  
Pay sheet No. 19 ..... \$430.10  
Or & Dock work ..... 60.30  
Marsh & Harkness ..... 75.38

—A communication was read from Mr. W. J. Andrews, asking that the drain on Coleman ward be increased to 10 in. The drain was 8 in. The Mayor said he was building a residence adjoining it.

—Ald. Hanley was in favor of the petition being granted.

—On motion the matter was laid over for further consideration, in order to obtain the Solicitor's advice thereon.

—Ald. Bogart said he was in favor of granting the petition, but there was two walks which must be repaired or an accident would occur. One of the walks was from ex-Ald. Pitt's premises on Mill street to Mr. McGinnis' grocery, and the second was from Church at Church street north of Dundas. He moved that these walks be repaired. It was time something was done to our sidewalks.

—Ald. Panter said sidewalks after sidewalk have been taken up and no walk replaced. The taxpayers were walking in mud, which was a shame.

—Ald. Doyle said it was disgraceful how Coleman ward had been treated this year. It was apparently an orphan.

—Ald. Bogart said that some sidewalks in Coleman ward were in a disgraceful condition, especially on Baldwin street.

—Ald. Panter said that a board sidewalk on Wickett street was taken up and no walk had replaced it.

—The Mayor said the motion made by Ald. Bogart would be laid over. The Council would have to reconsider the motion which it made in reference to building new walks.

—Ald. Hanley said that as soon as the work on Front street was done the sidewalks would be attended to.

—After a lengthy discussion Ald. Bogart said that on Monday night he would move to rescind the motion passed in Council, if it was necessary, in order to get the walks repaired.

—The Street Surveyor gave a detailed list of the various streets in the City where sidewalks needed repairing. It was his intention to place a number of them in repair in a day or two as soon as the work on the streets was passed.

—MARKET.  
Ald. Panter, Chairman, presided over this Committee. An account of W. J. Holland for \$13.75, for attending the City clock, was passed.

—Tenders for coal were opened and found to be from the following: T. Stewart, Capt. N. Allan, and C. C. Leavens.

—On motion the tender of Capt. Allan was accepted at \$5.14 per ton.

## FIRE, WATER AND LIGHT.

Ald. Jones, Chairman, presided over this Committee. The accounts passed were: Electric Light Co. \$319.11; Gas, \$27.05; Belleville Gas Co., \$200.

The Chairman stated that the contract with Mr. McCoy for horses, etc., in connection with the fire department, expired on Oct. 1st and it should be renewed. Mr. McCoy's contract at present was at the rate of \$5.50 per day for 5 horses and 3 men, which he considered reasonable.

Ald. Robinson objected to the amount of money which was paid to Mr. McCoy in compensation for the horses, etc., he stated, Belleville was paying too much and he gave a detailed statement as to the number of horses used, etc., but could not give what it cost. Some of the horses seemed for fire purposes worked on the streets 10 hours daily.

In answer to an enquiry as to what class of insurance Belleville was in, Ald. Robinson said Class A.

Ald. Lal-sche said Ald. Robinson was mistaken.

A number of the Aldermen said that the fire department was not allowed to work on the streets and Belleville retains its present standard.

Ald. Hanley and Jones spoke in favor of the contract with Mr. McCoy being renewed at the same figure as before.

After some further discussion the matter was laid over until the Council meeting on Monday.

The petition of Mr. H. P. Knight and others, asking for a water main to be laid on William street, south of Bridge street, was laid over until the Waterworks Commissioners are elected.

—VARIATIONS.  
A few accounts for work, cartage, etc., were ordered to be paid, and W. Alfred was ordered to be paid \$436 for work done on extending the service to the rolling mill.

Mr. J. A. Cummins was present and was heard in reference to water rates. He said that he had some 12 houses in which the water service was in use, and in some of them scarcely any water was used. He desired to have meters placed in and pay for every gallon he used and no more. He was willing to pay for the meters.

This was the subject of a lengthy discussion, in which all present joined, but at the conclusion Mr. Cummins stated that he was satisfied, and the subject dropped.

Under this head, Ald. Robinson stated that he had been told that one of the City employees was taking water from a tap by the barrel, and taking it to other houses loaded.

The Mayor and some of the Aldermen stated that this was a serious charge and should be investigated.

Ald. Jones said he would have the matter thoroughly investigated.

—FARM COMMITTEE.  
Ald. Bogart presided over this committee. The following accounts were presented:

W. P. Clarke ..... \$10.01  
R. H. P. Clarke ..... 10.01  
I. O. P. Dan, I. O. P. Dan ..... 10.01  
I. O. P. Dan, I. O. P. Dan ..... 10.01  
A. Wallace ..... 7.72

Ald. Panter objected to the paying of the bill of \$16.50 for the extra concert given by the band.

This account was allowed to stand over. The account of A. Wallace was also laid over for further consideration.

—EXECUTIVE.  
Ald. Doyle, Chairman of this Committee, presided. The accounts recommended by their committees were passed, and the following additional accounts were passed:

G. N. W. Telegraph Co. .... \$1.27  
G. S. Seantlebury ..... 1.00

The Mayor stated that he expenses to Hamilton of Ald. Bogart and himself amounted to \$27.70, and asked the Committee to pass the same.

Ald. Panter, whilst not objecting to the amount, objected to the fact that the Mayor stated that he had asked the City Solicitor to accompany him to the Municipal Convention, but as he could not go he asked Ald. Bogart, who accompanied him.

Ald. Doyle desired an itemized account. The account was passed and the Committee adjourned.

—FURS.  
Miss Barber's work rooms are open. Customers are invited to call and inspect the stock of furs and trimmings. Hours—10 to 12 a.m., 2 to 6 p.m. After these hours appointments only by special arrangements.  
13-16-27

—Americans Broke the Law.  
Four Americans, who were camping out on the shore of Kootenay lake, in Peterborough county, and shooting black and partridge without a license from the Crown Lands Department, were found, and fined \$20 each on Tuesday, by Game Warden Smith of Belleville. He also confiscated their guns. The Americans called from Niagara Falls, N. Y., but their names were not included in Mr. Smith's report to Chief Game Warden Tinsley. One of the guns confiscated was a double-barrelled shotgun, a beautiful new weapon, worth probably \$15. The men had only arrived in the province on Sunday. Being foreigners a license would have cost them \$25 each.

—Bismarck's Iron Nerve  
Was the result of his splendid health. Indomitable will and tremendous energy are the qualities which made him a great man. He was a man of iron nerve. He was a man of iron nerve. He was a man of iron nerve.

—A new swimming record for 300 yards was established by F. C. V. Lane at Blackpool, England. Lane, who holds the championship of Australia as well as the English championship at 220 yards and 440 yards, swam the distance in 3:47.45.

## GREAT BRITAIN AND THE BOERS.

## A True Presentation of the British View of the Dispute.

From the London Spectator.

Before we leave Mr. Morley's speech we desire to deal with one more point. When your children ask you, he says, "What the war is about, and why you are killing men, what is your answer going to be? Is it to be the franchise, or parliament, or the price of dynamite, or what?"

We do not think that there need be much difficulty as to the answer. If we cannot win the war by fighting to make the Boers yield a share in the government to the majority of the inhabitants of a country to whose inhabitants, without restriction, we entrusted self-government under republican forms, and because their refusal to concede this to the majority of the Boers and English to live together in peace and unity.

That is an answer which no Englishman need be afraid to give when asked "What the war is about." He may give it with as good a conscience as the New Englander gave his answer when he was asked why he was seeking the furs and forests of Virginia with the blood of America's best sons.

For the South African Dutch, says Mr. Morley, but do not say to one race, "You are to be at the top and the other shall be at the bottom." We ask for no better terms. We do not want to establish a system of domination for one race, but fusion, and fusion on fair terms. But what is it that stops fusion, and who is he who has said to one race, "You shall be at the top and the other at the bottom?"

The greatest enemies of fusion, the great inspirers of race hatred, are the Transvaal Government. It is President Kruger who has said for the last fifteen years that one race shall be at the top and one at the bottom. Unless that evil spirit of prejudice and race hatred is laid there can be nothing but ruin in store for South Africa.

It is not the British Government who want to exalt one race over the other and to prevent fusion, but the reckless, fanatical, and short-sighted men who rule at Pretoria. At present the Transvaal sets a demoralizing example for all South Africa, and until the races are put on an equality there race hatred will not be expelled and utterly obliterated, as it should be, from the Cape to the Zambesi.

His Life Was Saved.  
Mr. J. E. Lilly, a prominent citizen of Hamilton, Ont., lately had a wonderful deliverance from a high fever. In reference to it he says: "I was taken with Typhoid Fever that ran into Pneumonia. My lungs of them scarcely any water was used. He desired to have meters placed in and pay for every gallon he used and no more. He was willing to pay for the meters."

For coughs, colds, bronchitis and all lung and throat troubles, there is no preparation so effective as compare with **Little's Ankle Consumptive Syrup**. It never fails to cure prompt and permanent relief. It removes all mucus and loosens the phlegm. It immediately soothes the most inflamed and swollen throat. It promotes expectoration, removes the mucus which stops up the air tubes which causes difficulty in breathing, thereby gives relief to the chest. Public speakers and singers will find **Little's Ankle Consumptive Syrup** of most valuable use. It is especially adapted to all cases of throat and lung troubles, and always allays irritation and huskiness in the throat. It is a powerful tonic, gives power to the vocal cords, renders the voice clear and sonorous. If parents wish to save the lives of their children, let them take **Little's Ankle Consumptive Syrup**, and whenever a child has taken cold, has a cough or hoarse voice, give the Syrup according to directions. It is easier to be good than great—there is less opposition.

## THE COUNCIL GOT THEIR PAY

Repairs to Sidewalks Still a  
Live Topic of Discussion.

AM. Robinson has a Scheme to Econo-  
mize on the Present System of  
Hiring Horses for the Fire Brigade  
--Nobody Wants to Take the Re-  
sponsibility for Queen Street.

The Council proceedings last night  
were somewhat lengthy, but the discus-  
sions were upon important matters.  
The two principal subjects under  
discussion were the recommendation of the  
Fire, Water and Light Committee that the  
contract of Mr. McCoys for horses, help,  
etc., in connection with the Fire Depart-  
ment, be renewed, and a motion of Ald.  
Bogart in reference to the rebuilding or  
repairing of two pieces of sidewalk.

Those in attendance at the meeting were  
Mayor Johnson, Aldermen Jones, Robins-  
on, Pantar, Taylor, Hanley, Hungerford,  
Bogart, La Roche and Starling.

THE TICKET COLLECTION  
The following communication was read  
from the City Solicitor, re exemption to  
the Mayor, Tickell & Sons:

The Municipal Amended Act is such that  
the Council now have the power to grant  
exemption in whole or in part only when a  
by-law has been passed, approved of by  
two-thirds of the electors on the voters'  
list entitled to vote. I therefore think you  
cannot grant Messrs. Tickell's request  
without submitting it to the electors.

Ald. Hanley thought the Council had  
power to instruct the assessor to assess the  
property at a certain valuation for a cer-  
tain number of years.

The Mayor thought that this Council and  
the succeeding Council could instruct the  
assessor to tax the property at a fixed rate.

Ald. Hungerford thought if it was pos-  
sible to assist Tickell & Sons we should do  
so.

Ald. Bogart said he would support any-  
thing to assist Messrs. Tickell & Sons. He  
moved that the Council be referred back to  
the Council for further consideration.

COLEMAN ST. DRAIN.  
The Solicitor also wrote the Council in  
reference to the petition of Mr. W. J.  
Coleman for the covering of the drain on  
Coleman st., north of where his residence  
is being erected. The Solicitor's opinion  
in reference to same was read, being as  
follows:

If the drain that Mr. Andrews refers to  
is a natural water course, as I understand  
it, the City is not obliged to cover it  
over, if the Council is of the opinion that  
it would be responsible for any dam-  
ages arising therefrom, and if the City  
undertook to cover it, and it is a natural  
water course, they might be liable for  
damages in case of a freshet, in case the  
water was passed back, as it might be  
alleged it was, by reason of the City's  
action.

In view of the Solicitor's letter no action  
was taken.

A few accounts were presented for pay-  
ment.

COMMITTEE REPORTS.  
Reports were presented from Executive,  
Public Works, Fire, Water and Light,  
Markets and City Property, Industrial,  
Railways and Park Committees, as already  
published.

On motion the Council went into Com-  
mittee of the Whole on Reports, Ald. Taylor  
in the Chair.

The Executive Committee's report was  
first taken and the various accounts were  
passed.

THE ACCOUNTS OF THE FIRE, WATER AND  
LIGHT COMMITTEE were passed. The recom-  
mendation of the Committee that the con-  
tract with Mr. McCoys for three years be  
renewed at the old price, namely, \$2,007-  
50 per year, was next considered.

Ald. Robinson moved in amendment  
that the corporation purchase horses and  
hire drivers, instead of renewing the con-  
tract.

The mover of the amendment said if the  
City owned the horses and hired its own  
help he believed a saving of some \$800  
could be effected. He cited the case of the  
town of Brockville, which owned its horses  
and some of the horses were used for work  
upon the streets. He went into the sub-  
ject minutely, giving figures as to prices of  
horses, cost of feeding same and cost for  
help. He thought that drivers could be  
obtained to do the work at \$2.50 per  
annum, or a total of \$750, and the cost of  
five horses a year would bring the annual  
cost in all to \$1,125, which would effect  
a saving of \$682.50. The five horses in  
Brockville were kept for \$270 per year.

Ald. Starling said the Brockville horses  
were not kept in the fire stables at night,  
but adjacent thereto.

The Mayor asked Ald. Robinson if he  
believed Mr. McCoys had made \$900 a year  
out of the City.

Ald. Robinson--I could make it out of  
the City at the same contract price as Mr.  
McCoys.

Ald. Bogart said there was a considerable  
discrepancy between Ald. Robinson's  
figures as to the keeping of the Brockville  
horses. The auditor report for last year  
showed that it cost that town \$410.07 to  
keep the horses, which was \$140 more than  
what Ald. Robinson had stated.

Ald. Robinson--I obtained my figures  
from the Chief of the Department.

The Mayor said he was a believer in  
municipal ownership, and for that reason

had advocated the purchase of the water-  
works. If Ald. Robinson could convince  
him that a saving of \$800 or even less  
could be effected he would support it.

Ald. Jones said he knew from experience  
that you could not feed a horse at the sum  
mentioned by Ald. Robinson, namely, 20c  
cents per day, and keep it in good con-  
dition. He could not support any other  
contract than that proposed to be given to  
Mr. McCoys. It was a reasonable contract  
and he would support it.

Ald. Bogart said he came down to listen  
attentively to Ald. Robinson on this sub-  
ject, but when that Alderman made state-  
ments which were contradicted by the  
auditor's report of the town he questioned  
them and could not support him. He thought  
that Mr. McCoys was only getting a fair  
price for the services he rendered.

Ald. Robinson said that perhaps those  
figures were not for one year but more.

The Mayor--We must take those figures  
as correct.

Ald. Hanley said something had to be  
done immediately. It takes a long time to  
train a horse for fire service. If we are to  
depend on green horses, the result might  
prove disastrous. He did not believe men  
could be secured here at the salary named  
by Ald. Robinson. He thought Mr. Mc-  
Coys's pay was not excessive.

Ald. Starling said something would have  
to be done immediately, as Mr. McCoys's  
contract expired on October 1st. There  
was, however, a clause in the agreement  
between the City and Mr. McCoys that the  
contract could be terminated with three  
months' notice. The drivers hired by Mr.  
McCoys also assisted at fires, which should  
be considered.

Ald. Hungerford said all the members  
wanted to save money for the City. Mr.  
McCoys's horses were well trained. He would  
however, support the Committee's recom-  
mendation.

Ald. Pantar said the contract expired on  
Oct. 1st, and he would support the amend-  
ment. If the saving is not very material,  
he would not advocate it. The contract  
with Mr. McCoys could be terminated.

The Committee's recommendation pre-  
vailed, with the understanding that the  
matter was to be looked into and, if a sav-  
ing could be effected by the City, the lease  
was to be terminated at the end of three  
months.

The account of the I. O. O. F. band for  
an extra concert, \$16.00, caused some  
discussion.

Ald. Pantar objected to this account  
being paid. He objected to any individ-  
ual of the Council authorizing an expendi-  
ture of this kind. He did not object to the  
amount, but to the principle.

Ald. Hungerford said that a large num-  
ber of prominent citizens had called upon  
him and requested him to order an extra  
concert. He ordered it, and he thought he  
was doing it for the interest of the citizens  
of Belleville. He was willing to take all  
the responsibility in the matter.

Ald. Robinson said he felt that as well  
go with the tide. The hide had gone and  
he supposed we might as well pay this ac-  
count. There had been, during the year,  
a great deal of criticism of the Council.

He referred to the expenditure on  
Queen Street.

Ald. Starling rose to a question of  
privilege. He had moved that Queen Street  
be repaired after Front Street, but, as an  
alderman living on that street, he declined  
to bear any part of the responsibility for  
the almost unnecessary thoroughness with  
which the street had been reconstructed  
and beautified.

Ald. Bogart said Ald. Pantar had re-  
paired the Mayor's office without consult-  
ing the Council.

Ald. Pantar said this was a necessity and  
not a luxury.

Ald. Hanley said the Council had given  
universal pleasure and he would support  
the payment of the account.

THE ITEM PASSED.  
A communication from the American  
Municipal Association, as to the City send-  
ing a delegate to the convention to be held  
at Toronto in October, was read.

Ald. Robinson moved that no action be  
taken in the matter.

The Committee rose and reported. On  
motion the report was received and adopt-  
ed.

PUBLIC WORKS.  
The recommendation that the sidewalk  
on Baldwin st., west side, be replaced with  
a stone walk, prevailed.

Ald. Hanley said the appropriation of  
\$800.00 was about used up and he intended  
to stop work when it was expended. The  
appropriation was inadequate for the work  
needed to be done.

The City Surveyor was authorized to  
change the old street roller so as to use it  
in making gravel walks.

ENQUIRIES.  
Ald. Starling asked what had been done  
in reference to opening up George st. to  
Marla.

Ald. Hungerford said he and the City  
Solicitor had been appointed a committee  
in regard to it and he had seen Mr. Sills  
in reference to the purchase, but that gentle-  
man was not to do the matter.

Ald. Hanley said nothing had been  
done in the matter.

MOTIONS.  
Ald. Bogart moved, seconded by Ald.  
Pantar, that the resolution of the 17th of  
April be amended by adding the words  
that the sidewalk on Mill st., between Mr.  
Lott's mill to McGinnis' corner, and that  
between Mill and Dundas st., north, between  
Front and Pinnacle sts., be rebuilt or re-  
paired.

The mover said he wished to have the  
motion carried, as it was necessary to have  
these roads repaired. He believed in  
permanent improvements, but a small por-  
tion of granolithic walks had only been  
built this year. The sidewalks mentioned  
in the resolution had been here some  
thoroughfares and were in such a condition  
that they could not be repaired, but had  
to be rebuilt.

The Mayor thought it was a serious  
thing to thwart the action of the Council in  
April last. It was not showing a public

spirit to have granolithic walks placed in  
these localities. It would in his opinion  
be a bad precedent. He would not put  
this motion until a motion to rescind the  
one passed in April prevailed.

The Street Surveyor said the walks re-  
ferred to needed attention.

In answer to a question as to whether  
gravel walks there would suffice, he said  
they would.

Ald. Hanley said gravel walks were  
good enough for any part of the City  
they could be put down at about one-half  
the cost of board walks, and would last ten  
times longer. If citizens were pre-  
pared to pay for granolithic, the gravel walks  
would suffice.

Ald. Pantar would support the motion  
of Ald. Bogart. He did not think the  
gravel walks would prove a success.

Ald. Robinson was going to support Ald.  
Bogart's motion. From what he had heard  
the gravel walks were not a success.

After some further discussion the motion  
of Ald. Bogart was amended that the side-  
walks referred to be repaired, which motion  
prevailed.

The Council then adjourned.

Charged With Non-Support.  
John Hutchison was this morning  
charged before the P. M. with neglecting  
to properly support his wife and family.

The wife testified that they had been mar-  
ried 15 years and had 6 children. Her  
husband did not properly care for or sup-  
port them, drinking to quite an extent.  
The Magistrate after giving Hutchison a  
severe reprimand allowed him to go with a  
caution.

Strictly True  
In every respect and attested by the testi-  
mony of thousands that Putnam's Painless  
Coca Extractor is a sure and painless cure  
for corns. The claim that it is just as good  
made by those endeavoring to palm off imi-  
tations for the genuine only proves the  
superiority of Putnam's. The only Put-  
nam's Painless Coca Extractor. Sure, safe,  
painless.

WHAT PEOPLE ARE SAYING  
That it will be "brown October" this year for  
sure.

That the closed street cars should be put into  
use on a day like this.

That the ice cream signs should be stored away  
till next summer.

That it is time people who have Mayanly as-  
pirations were letting their intentions be  
known.

That the jury in the Ponton trial only took  
seven minutes to make up their minds as to  
the verdict.

That now the Ponton case is settled, the doing  
of Uncle Paul and the good yacht Sham-  
rock will have a chance.

That just now, if anybody has a little sympathy  
to spare, he can bestow some of it on our  
rural neighbors who have, in many in-  
stances, had their fall fairs spoiled by the  
wretched weather. In a good many places  
there won't be as many spectators as there  
are pumpkins in exhibition.

That it is a good thing in this time of the Toronto  
Highlanders are not to be allowed to go to  
New York. Travelling to a foreign coun-  
try at this season of the year without their  
unseasonable, they would be sure to  
catch cold. We can't afford to lose any  
of our brave boys just now, at least, not until  
the Boers have given up looking for  
trouble.

That the excellent institution, the Y.M.C.A.,  
should receive better support from our citi-  
zens. It has in the past done a good work  
and may be relied on to do as well, if not  
better, the coming winter. With a lib-  
eral and a hustling and aggressive  
staff of officers, they propose, with proper  
support, to fully live up to their high  
motto, "improve the mind, strengthen the  
body, save the soul."

That the Belleville Camera Club can make it-  
self useful just now. If every member of  
the club will go and take a snapshot of  
the old Dundas st. burying ground and  
present a proof of it to some member of  
the Methodist church in this vicinity, there  
may be something good come of it. Sure-  
ly, if they have the evidence right before  
their eyes of the deplorable state of that  
neglected spot, they can't help moving in  
the matter at once.

That the Kingston Whig hits the nail squarely  
on the head when it prints the following  
comment: "The man, Mackie, who is to  
serve by far the longest sentence, was not  
the testimony adduced, not so active a  
factor in the bank burglary as either Pare  
and Holden. Not only so, the evidence on  
which Mackie was committed to prison, was  
almost wholly given by Pare and Holden,  
and bore equally strong against  
Ponton. Yet the Cobourg jury refused to  
believe this testimony, and in face of it  
brought in a verdict of not guilty; but it  
seems to us that the jury were so convinc-  
ing as to warrant a verdict of guilty in the  
case of Mackie. The result furnishes one more  
illustration of the great inequalities to be  
met with in the administration of justice in  
our criminal courts."

# THE FRANKFORD FAIR.

A Large Attendance and a Successful Exhibition.

The Races Excellent—Cattle and Horse Exhibits Fine—Beautiful Weather Favored the Show.

The directors of the Frankford Agricultural Society have good reason to congratulate themselves on the success of their annual exhibition, which, as usual, was first-class in every respect, both in point of attendance and exhibits. The weather during both days was good, which had much to do with the success of the show.

The first day's attraction consisted chiefly of racing, and it was the opinion of all that no better sport of the kind had ever been seen in Frankford. Following are the summaries of the different events:

Green race—111  
Hazy Dried—222  
Cheesboro—222  
Shammy—433

INSURGENTS WERE ROUTED.

Gen. Snyder Gained a Decided Victory Near Cebu.

The Tenaciously Took a Hand In—They Were Aboard Ship Ready to Start for Home, But Went Ashore for the Fight—Captured Americans Are Now Fighting for Aguinaldo as Officers.

Washington, Sept. 27.—A despatch has been received from Manila by the War Department, stating that Gen. Snyder attacked the position of the insurgents five miles west of Cebu, and destroyed some forts and quite a number of smooth bore cannon. The insurgents were utterly routed, and Snyder returned with his force to Cebu. The Tenaciously was already aboard transport to come home, but disembarked to take part in the engagement.

Two English Prisoners. Manila, Sept. 26.—Two Englishmen, who have been held by the insurgents since June, have arrived at Angeles. They report that the Filipino Congress has resolved that four American prisoners shall be surrendered on Wednesday or Thursday. They have, however, no information as to the whereabouts of Captain Charles M. Rockefeller of the 19th Infantry, who disappeared in April last, and of whom no trace has been discovered. They assert that three Americans who were captured by the rebels are acting as officers in the insurgent army.

Victory for Col. Snyder. Manila, Sept. 27.—Col. Simon Snyder, commander of the 19th Infantry, with 517 men, has captured the insurgent forts in the Island of Cebu. The insurgents were completely routed. The Americans had one man killed and four wounded. The enemy is believed to have lost 40 killed.

INCREASED \$9,017,804.

Marvellous Development of the Trade of the Dominion.

Ottawa, Sept. 27.—The trade figures of the Dominion for the month of August last were issued by the Department of Customs yesterday. They show marvellous development in Canada's trade, as compared with the same period in 1898.

For the month the aggregate trade increased by \$9,017,804, as compared with August, 1898.

The imports show an increase of over \$3,000,000, while the exports are nearly \$6,000,000 greater than for August, 1898.

There is an increase in duty of \$678,000. Details are as follows:

Imports—\$2,048,389, 1898.  
Duties collected—\$2,047,250, 1898.  
Exports—\$3,960,396, 1898.  
Canadian—\$1,291,136, 1898.  
Duties collected—\$1,288,247, 1898.  
Canadian and foreign—\$2,669,260, 1898.  
Total—\$14,297,133, 1898.  
Increase—\$9,017,804, 1898.

DEWEY AHEAD OF TIME.

Flagship Olympia Has Anchored Inside Sandy Hook.

New York, Sept. 27.—Much to the surprise of everyone in this city, the flagship of the United States fleet, the Olympia, which Admiral Dewey ordered, arrived off the Sandy Hook lightship at 5:55 yesterday morning. There was a heavy mist on the coast. The flagship came up to the lower bay and anchored inside Sandy Hook.

As soon as it added that Von Bülow, the former lieutenant in the German army, who organized the forces of the Kaiser, had been going about the country, interviewed by the Matsuda, chief. This is objected to by the British and Americans, as likely to accentuate the hostile feeling.

Princess Ranjitsingh Coming. Toronto, Sept. 27.—Mr. J. E. Hall, the secretary of the Canadian Cricket Association, yesterday received a telegram from Prince Ranjitsingh at Philadelphia gladly accepting invitation to play in Toronto. Mr. Hall had offered the dates Oct. 10 and 11, and the team to meet the Prince's Englishmen will be selected shortly by the Canadian Association.

More Rioting at Ferrol. Ferrol, Spain, Sept. 27.—There has been renewed rioting here. The strikers, with women and children, attacked a number of persons, and a hall of stone was thrown and revolver shots were fired. The gendarmes charged and dispersed the mob. A number of persons were injured, including the commander of the ironclad, Cardinal Sinerio, who was seriously hurt. Three are now picketed along all the leading streets.

FIVE MEN WERE DROWNED.

Particulars of the Foundering of the S.S. Line Captain Adams.

Kingston, J. A. Sept. 27.—The Atlantic Line steamer Adula, from Kingston for Baltimore, which foundered Monday off the coast of Jamaica, has been just obtained. She left Kingston with a deckload of 2,000 barrels of sugar, and was wrecked between this port and Port Antonio. She encountered a heavy sea from the windward passage, and the vessel was turned over, and sank in 50 fathoms of water about two miles from the shore. The crew had no opportunity to make use of the boats, and tried to reach the shore by swimming. With portions of the wreck, Chief Officer Percy and four women were drowned. The others were rescued by the shore. Captain Adams died shortly afterwards.

Four Days Without Food.

Port Arthur, Ont., Sept. 27.—Two Americans, lost in the bush at Nepean, were brought into town yesterday. They had been four days without food. Their names are P. F. Kennedy of Cambridge, Mass., and E. Eastman of Saginaw, Mich. They were found by Indian parties sent out to search for them.

LARGEST DIVIDENDS. SAFEST INVESTMENT.  
Boston & Texas Copper Company.  
CAPITAL STOCK \$2,500,000.  
250,000 Shares. Full Paid and Non-assessable.

OFFICERS AND DIRECTORS:  
HON. EMERY M. LOW, President.  
JAS. M. WHEATON, Secretary.  
F. M. SPAULDING, 2d Vice-President and General Manager.

STILLMAN CLOUGH, Capitalist, Lowell, Mass.

CHAS. O. BRIGHTMAN, Contractor and Builder, New Bedford, Mass.  
PRESTON R. MANSFIELD, Treasurer Abbott 174 Co., Dedham, Mass.  
HON. GEO. D. ALDEN, Boston, Mass.

The Company owns over twelve thousand acres of rich copper land in Texas, opened, tested, developed and NOW BEING OPERATED. Millions of tons of copper bearing clay and marl running from five to ten per cent., and large quantities of ore carrying from fifty to seventy per cent. copper in sight. Cheaply mined and treated, favorable climate, cheap fuel, and ample water. Stated by geologists, chemists, experts and engineers to be one of the greatest and best in the world. Amount of land, quantity and quality of ore, cheapness of mining and treatment, the increasing demand and profit in producing copper considered, the Boston and Texas Copper Company possesses unequalled advantages and affords the best kind of an investment.

This Company can produce copper as cheaply as any in the world. COPPER MINING IS THE SAFEST AND MOST PROFITABLE OF ALL INDUSTRIES.

Calumet and Hecla ore averages 4 1-2 per cent. copper. It has paid \$62,850,000 dividends Tamarack ore averages 3 per cent. It has paid \$5,910,000 in dividends.

Atlantic ore averages 85-100 of 1 per cent. It has paid \$780,000 in dividends. Boston and Montana ore runs 7 per cent. It has paid \$10,775,000 in dividends.

Franklin ore averages 1 37-100 per cent. It has paid \$1,290,000 in dividends. The Quincy ore averages 1 8-10 per cent. It has paid \$11,070,000.

THE AVERAGE OF BOSTON & TEXAS ORE IS OVER 50 PER CENT., and of copper marls and clays from 5 to 10 per cent. Both the ore, marl and clay are within a few feet of the surface of the ground, so that the expense of mining and hoisting is minimized. A party of New England capitalists who have just returned from an examination of the mines in conjunction with one of the ablest mining engineers in the country, report the property to be one of the largest and best in America, and to contain inexhaustible quantities of rich copper deposits.

It is estimated that the plant now being arranged for will produce \$3,000 to \$5,000 per day, NET.

Prospectus, engineers' reports, assays and full information will be furnished on application. Remit by check, P. O. order, draft or registered letter to Treasurer.

Limited amount of stock only at \$5 per share, full paid and non-assessable, by immediate application.

SCHOONER EMERY ASHORE.

A Coal Carrier in Serious Trouble.

Rochester, Sept. 27.—The schooner W. Y. Emery, Captain Alexander Mitchell, which left Charlotte Monday for Des Moines, Ia., was wrecked ashore at Pease River, N. B., yesterday afternoon.

The vessel is said to be in a bad position, with a heavy list to port and a high sea running. As soon as the Emery's signals of distress were observed by the life-saving station at Charlotte, they secured the tug Proctor and launched their lifeboat, and went to the rescue of the schooner.

The schooner was carrying a cargo of coal, and was wrecked on a rocky shore. The crew managed to escape, but they were rescued. All hands suffered from want of food and drink. They were picked up by a passing vessel.

JUDGE THEM BY THEIR ACTS.

Many of the pamphlets distributed broadcast by the Liberals in 1896 are now the secret concern of the party. They prove that the Liberal Government has utterly failed to keep its pledges to the people and no one is more conscious of the fact than their own friends; their protest to gain power, and now that they hold the reins to the Dominion through their former protestations of economy have vanished.

It is interesting, remarks a contemporary, to now read the "Principles, Policy and Platform of the Liberal Party," an official pamphlet published under authority of the Ontario Liberal Association, and which includes a series of "strong recommendations" why "the Liberal Party should be entrusted with the administration of the government," the last of which declares that they "will stand by the platform adopted at the National Liberal convention."

How has the Liberal government stood by its party platform? Scarcely a plank has been assimilated in the legislation that has ensued.

The ten existing tariff was declared to be "founded upon an unsound principle, and used, as it has been by the government, as a corrupting agency wherewith to keep themselves in office, has developed monopolies, trusts and combinations." Notwithstanding being in office over three years, yet the government has not yet effected any material change in the principle of the customs tariff, and this season has witnessed the consummation of the most gigantic trust in Canada, the combination of the bicycle manufacturing firms.

"A fair and liberal reciprocity treaty" was promised. It is yet to be secured. The Conservative government was arranged for election "large contributions of money for acceptance purposes from the funds of railway companies," which, while paying the political contributions, was receiving government subsidies. Liberals must surely blush when re-reading this plank of their platform and recollecting the recent revelations in West Huron, Brockville and Waterloo, and reflecting on the fabulous sums voted for railway subsidies only a few weeks ago.

The expenditure of 1893 was viewed with alarm; yet it was not much more than two-thirds of the amount spent last year, and still the appropriations for 1899 were very largely increased.

These quotations and comparisons are enough to convince all thoughtful people of the utter failure of the Liberals to carry out their pledges, but the remaining planks have been equally ignored, and even the sincerest friends of the government have to acknowledge that it would be a good thing for the party if their past professions and promises could be eliminated from public memory.

## SPORTING NEWS.

Belleville Men Win Prizes.

The dog show at Peterboro, held yesterday under the auspices of the Kennel Club of that town, was a success. Over one hundred dogs were shown, and the following prizes were won by the Belleville men: Mr. H. J. Thomas, of this City, was a judge on all sporting points, pointers, setters, fox terriers and bull terriers. In the Scotch terrier class he was an exhibitor and secured three prizes and two silver medals, donated by the judges. Mr. W. A. Carver, of this City, another well known dog fancier, was fortunate in securing a number of prizes in the following classes: Open dogs, 1st, Elmwood Carver; novice dogs, 1st, Elmwood Carver; open bitches, 1st, Elmwood Carver; novice bitches, 3rd, Elmwood Carver; puppy dogs and bitches, 1st, Elmwood Carver; puppy dogs and bitches, 2nd, Elmwood Carver.

The Prince Who Plays Cricket.

"Only 27 years old, and yet in some respects the greatest cricketer living." This is what Englishmen say of that distinguished Oriental prince, Kumar Shri Ranjitsingh, who has been doing such wonders with his bat in England, and who is now in the United States and intends to visit Canada, to show how easy it is to score runs and how fast, as a rule, are the efforts of some of the most insidious bowlers to dislodge him from his place at the wicket. Prince Ranjitsingh, best known in 1896 by making 250 runs in 48 completed innings before that he was known as a first-rate batsman, but until he made that memorable record the public did not consider him as in any sense a successor to Grace.

He was born at Sardar, in the Province of Kashmir, in western India, September 18, 1872, being the son of a royal family which has for centuries been potent in that part of India. According to the legends of the Indian people, the Prince, who has been brought under the influence of western civilization, he was educated in England with English ideas, and cricket being a fundamental part of the young Englishman's education, he naturally learned to play the game, and he quickly indicated his masterly skill, that, during his last term, he was easily the foremost cricketer in the school.

Shamrock Trials Over.

New York, Sept. 28.—The Shamrock trials are over and as a yachtsman said, who saw her warped into the Erie basin at noon today, "Now her troubles begin." It was the intention of Sir Thomas Lipton, who was to sail on Saturday, September 24, to sail the Shamrock, but she was so badly damaged by the storm that it was necessary to postpone the race. The Shamrock was damaged by the storm, and it was necessary to postpone the race. The Shamrock was damaged by the storm, and it was necessary to postpone the race.

No Right to Ugliness.

The woman who is lovely in face form and temper will always have a husband, but one who would be attractive must keep her down, she will be nervous and all run down, her complexion will be sallow, her hair will be thin, her eyes will be red, her lips will be pale, her cheeks will be sunken, her feet will be cold, her hands will be dry, her voice will be hoarse, her breath will be foul, her sleep will be restless, her appetite will be poor, her digestion will be bad, her bowels will be constipated, her nerves will be weak, her spirits will be low, her health will be ruined, and she will be ugly.

It is simply perfection. It has all that a shoe ought to have—ease, durability, style—and but \$3 while it looks like a \$5 shoe. Try and judge for yourself.

## BLUFFED BY A CRIMINAL

The Court of the Counties of Northumberland and Durham Humiliated.

### THE PINKERTON DETECTIVES.

Who Made the Pinkertons Judge and Jury?—A Disgraceful Scene in a Court—The Matter of Queen's Evidence—Let the Crown Maintain its Dignity.

(Port Hope Times.)

When it was proposed to try the self-confessed criminal, Pare, in the court of the Counties of Northumberland and Durham, the press of the United Counties, voicing the opinion of the people, protested vigorously. The indignation aroused by adding us with the expenses of these trials has been excited to fever heat by the fact that our court has not been used to satisfy the ends of justice but that justice might be prostituted and the Crown humiliated and disgraced. The second Pare, on whose evidence a man named Mackie is serving a term of ten years in penitentiary for complicity in the Dominion Bank Robbery, who according to his own statement was the ringleader in this crime, had the audacity to stand in the prisoner's dock and bandy words with the court. This man Pare, possibly the most dangerous criminal ever brought to bay in Canada, was allowed to dictate to the Crown the course to be followed in dealing with his case. The representatives of the Crown listened to this man and in so doing degraded the majesty of the Crown and humiliated the dignity of the court. Pare's excuse for this conduct, that certain persons were made to him by Pinkerton Detectives, is altogether inadequate. Canadians do not look to Pinkerton detectives for administration of justice. Hitherto in Canada's democracy has rested with a higher court. When we see the authority of a judge and jury usurped by a detective the dignity and majesty of the court has dwindled to small potatoes, and the masses are educated to despise that which they should respect. The first fruit of contempt for the law on the part of the masses is mob-rule which ends in violence and bloodshed. In Canada, where the laws are fearfully and fairly construed by honest judges, they are respected, feared and obeyed. In the United States, where the Pinkerton detective has full sway, mob rule and lynchings are common. Canada has little to gain by taking the administration of justice out of the hands of her judges and placing it in the hands of Pinkerton detectives. In charging the jury on the Pare case the eminent counsel for the Crown said that one unpunished crime would breed a hundred, yet the counsel urged for Pare, who had broken jail, and had earned the reputation of being the most dangerous criminal ever caught in the Canadian jail. No wonder the eminent judge, Sir John Boyd, said it was most unusual.

The jury in the Pare case refused to believe the stories of Pare and Holden, notwithstanding the fact that the counsel for the Crown endeavored to show repeatedly that these men told their tales without hope of favor from the court. Suppose the jury had accepted the assurance and believed the evidence of these criminal witnesses, how would they have felt when Pare, in the open court, said that his plea would depend whether promises were made him on behalf of the Crown would be kept. Fortunately the jury knew the judge knew and the people knew that as a matter of fact, the criminals had everything to gain by throwing the responsibility of their crime on other shoulders. They hoped to gain clemency for themselves. To gain clemency for themselves these men would stick at nothing. Pare, who was the ringleader in the Dominion Bank robbery, was sentenced to serve three years in penitentiary. Mackie, who was convicted by the evidence of Pare and the other counsel, Holden, was sentenced to ten years imprisonment. Circulate a petition to release Mackie and every man who believes Pare and Holden are liars will sign it and who is fool enough to believe anything else.

The distinguished justice, Sir John Boyd, said that while Queen's evidence was recognized in the Canadian courts it was not considered by the courts as evidence to be taken into account. He was there to interpret the law, not to transcribe them. We think that any Canadian jury will agree with the Chancellor, and refuse to accept the unsupported evidence of criminal or professional witnesses against a man of hitherto unblemished character. Against William H. Ponton there were two classes of witnesses: The criminal witnesses, Pare, Holden and Mackie, and the professional witnesses, the Pinkerton detectives. By their own admission or even as it turned out by simply testifying against him, the criminals had clemency to gain and the detectives money. We hold that the Bank had a right to take the matter in their own hands and accuse W. H. Ponton if they thought him guilty, and they would be justified in doing so. But while the prosecution rested in the hands of the Crown the matter should have been lifted above speculation. We mean that those who worked on the case should have been salaried officials. It cannot be denied that when large amounts are offered as rewards for the conviction of some unscrupulous thief criminal this same reward is a very tempting bait to influence some sharper to endeavor to make out a case against an innocent person. The assumption is that the Crown merely represents the law, therefore a man defending himself against the Crown should expect to find his accusers as fair, disinterested and impartial as a judge. Although Mr. O'Neil conducted the Pare case very fairly yet every one who testifies against the accused was an interested party and consequently witnesses which the Crown, out of respect for its own dignity, should have declined to hear.

The people living around the corner of Albert and Victoria aye. have good reason to complain of the way mail is collected from the letter box at the above spot. Verbum sap.

That, down at the Rolling Mills, "coming over the hills and through the valleys," two thousand dollars a month in salaries now. Just watch their smoke when they get running full ball in November.

That the weather man has been pretty good to us during the past summer, but if he "queers" that famous exhibition, the "World's Fair," at Shannville, we will never forgive him, no, never!

That it was quite right and proper to make Sir Will a colored man, it is nonsense to say he has no military record. How about that historic speech of his about shouldering his musket and aiding the rebels on the banks of the Saskatchewan?

That if every man who believes Pare to be a liar signs the petition for clemency to Mackie it will be a monster petition and should have great weight with the authorities. Read what a fearless Post Hope newspaper man writes, published in another column.

That many people act as though there were a lot of truth in that youngster's remark in Brockville, who, when asked by his Sunday-School teacher to define a liar, said "It was an abomination in the sight of the Lord and a very present help in the time of trouble." The Brockville papers said that the boy came from Belleville, but he evidently lived in the former City long enough to imbibe a few new ideas.

That the people living around Foxboro are going for to form a Vigilance Committee. Mr. J. R. Youker writes THE INTELLIGENCER as follows: Many people on the 8th line of Thorvald are being visited by sneak thieves. Mr. Willet Ketcheson has lost sugar and fruit; Mrs. Wm. Townsend fowls; John Ashley, fowls; Mr. Gordon fowls, and last night our humble servant lost two fine black porkers weighing about 50 pounds each. We have organized a shotgun brigade and hope to wage our game soon.

Extraordinary State of Affairs Reported.

Lifeboat Swamped and Many Drowned—Alleged Robbery of Passengers by Crew of the Vessel.

(Special to the INTELLIGENCER.)  
QUEBEC, Sept. 29.—Information from Rimouski indicates that the wreck of the Scotman was accompanied by most extraordinary incidents. The vessel went ashore at two o'clock on Friday morning. The first boat, loaded with women and children, was swamped soon after it left the ship's side and all of the occupants were drowned.

Immediately after the vessel struck the rocks commenced a most barbed robbery of the passengers, taking all the valuables they could lay their hands on. The passengers who escaped had the greatest difficulty in reaching a place of safety. They had to climb over the rocks for miles to reach the light house.

The food supply for four days was of the scantiest. The passengers lost everything they possessed.

Had the weather been colder many of the women and children would have perished in making their way to the light-house.

The S. S. Montford is a freight ship, with scarcely any accommodation for passengers, and the unfortunate people from the Scotman had a most uncomfortable time of it while on board her.

LATER.  
Rimouski, Que., Sept. 29.—The first lifeboat which left the Scotman after she went ashore was swamped. The following were drowned so far as known:—Mrs. Robertson and daughter, of Toronto; Mrs. Childs, wife of the stage manager of the "Sign of the Cross" Co.; Miss Street, of Montreal; John Dickson, of Windsor; all first cabin; Miss R. Weavers, Mrs. Talbot, Mrs. Scott, Mrs. Skelton and an infant of Mrs. Robertson's, second cabin.

To Stop Infection.

A clergyman was walking through the outskirts of his parish one evening when he saw one of his parishioners very busy whitewashing his cottage. The parson, pleased at these somewhat novel signs of cleanliness, called out—"Well, Jones I see you are making your house nice and smart." With a nervous air, Jones, who had recently taken the cottage descended from the ladder and slowly walked to the hedge which separated the garden from the road. "That's not exactly the reason why I'm whitewashing this ere job," he whispered; "but last two couples as lived in this ere cottage 'ad twins; so I says to my missus, 'I'll take an whitewash the place so these mayn't be any infection.' Ye see as 'or we got ten of 'em already." Whether the whitewashing was effectual or not we have not been able to ascertain.

BELLEVILLE, ONTARIO, SATURDAY, SEPTEMBER 30, 1899

NO. 129

## "FOR HE'S A JOLLY GOOD FELLOW."

That Was What the Boys Sang About

Mr. John R. Matheson, Who is Going to Leave Belleville for New York.

Mr. John R. Matheson, son of Mr. Robt. Matheson, ex-Bureau of the D. & D. Institute, who for some time past has been employed as bookkeeper at the Sun office, is about leaving the city. The numerous young friends of "Jack," as he is familiarly called, last evening tendered to him a complimentary supper, which took place at Mr. Jas. Wallace's restaurant, and was a most pleasant affair. The various speakers of the evening referred in complimentary terms to their guest and wished him every success in his new field of labor. Mr. C. Leavens most acceptably filled the position of chairman, and upon his right was the guest of the evening. The repeat, which was supplied by Mr. Wallace, was all that could be desired, all the delicacies of the season being provided.

After due justice had been done to the spread the following toast list was replied to, interspersed with suitable songs: "The Queen"—The National Anthem by the company, and responded to by Messrs. J. N. Doyle and J. Harrison. "The British Empire"—Song "Red White and Blue," responded to by Mr. Geo. McLeod, of Montreal. "Songs"—"The Palms," by Mr. Geo. McLeod. "Don't get funny," Mr. Johnson, by H. Lake.

"Our Fair Dominion of Canada"—Responded to by Messrs. C. Dickenson, Jas. Wallbridge, V. Wansley, E. Harrison. "Our Guest"—"For he's a jolly good fellow." This toast was appropriately responded to by Mr. John R. Matheson, the guest of the evening. Song—"Two Children," by Mr. Vincent Doyle.

"Our City"—Responded to by Messrs. J. Turley, F. Robinson, E. Green, P. Allan, S. Hyman and C. McKeown. "Camp Bohemia"—Responded to by Messrs. W. Burke, V. Hyman, L. Adamson and J. N. Doyle. "The Ladies"—Responded to by Messrs. E. Clapp, H. Lake and Leo Riggs. "The Press"—Responded to by P. Harrison. Song—"Sweet Nancy," by Mr. J. N. Doyle.

Instrumental solo by Mr. F. Robinson. Song—"Soldiers of the Queen," by Mr. J. N. Doyle. The Chairman—Appropriately responded to by Mr. C. O. Leavens. Host and Hostess—Responded to by Mr. Jas. Wallace. The pleasant proceedings were brought to a close by the singing of "Auld Lang Syne."

Those in attendance were: Messrs. E. Dickenson, J. Wallbridge, V. Wansley, E. Linder, J. Turley, F. Robinson, E. Green, P. Allan, S. Hyman, C. McKeown, C. O. Leavens, Geo. McLeod, W. Burke, V. Hyman, L. Adamson, N. Doyle, E. Clapp, H. Lake, L. Riggs, J. Doyle and P. Harrison.

## WHAT PEOPLE ARE SAYING

That, as usual, a large number of citizens attended the "only" Shannonville Fair, which took place today.

That bicyclists these days have a bad time of it—the mud keeps them off the streets and the law off the sidewalks.

That the performance at the theatre last night played to but small business. It was not a house "greater than has been."

That Jack Frost caught a good many people napping last night, and a good many ladies are mourning because they neglected to take their plants indoors.

That the article from the Port Hope Times, printed exclusively in these columns last night, on Monsieur Pare, the Pinkertons and the secret of that ilk, was very favorably commented on.

That Belleville without the farming community would not be very prosperous. Business men who are wise will use THE WEEKLY INTELLIGENCER advertising columns to reach the agricultural community.

That the title which some papers are giving modern times, "the greatest naval fight of modern times," needs a good deal of qualifying. But then, it is a battle, and for the reckless assertions of some of those Yankee editors.

That the artless simplicity of one of our esteemed contemporaries is quite touching. It says: "Show the howler to your friends and ask them to subscribe to it." We would not really suggest that the howler be changed so that it will read: "Don't show the howler," etc. After they have seen it once no power on earth will make them subscribe.

That we are none of us any too glad to think that the snow will soon be here, but then in some cases, a good thick man, but now is like charity—it covers a multitude of sins. Just think—if we had a foot of snow every street in the City would be as smooth as Queen st., and then, how a good deep fall of snow would add to the appearance of the old Dundas st. burying ground!

That many people in Belleville have many ideas concerning the street letter boxes. They are for letters only. People who want to post newspapers should either take them to the general office or put them on top of the street letter boxes at their own risk. People who trust newspapers into the slot in the letter box locking it up and thus preventing others from posting letters should be punished.

That the proprietor of a certain store in this City would not have to look very far to find people who send to Toronto for their goods. Two of his clerks' wives send away and purchase articles which their husbands' employer deals in and which their husbands sell over the counter. If that isn't robbing Peter to pay Paul it looks very much like it. That Merchants' Protective Association can't be farred too soon.

## BIRTHS.

ADAMS—Mrs. R. W. ADAMS, Farin street, a daughter.

## IN A NUTSHELL.

Saturday Night Sizes Up the Ponton Trial.

The case is over. Saturday night has never wavered in its faith in W. H. Ponton and is greatly pleased because of his acquittal. Foreign, private and irresponsible detectives have received discouragement. We do not want them in Canada at all. Respectable officers, responsible to the Government, should be the only secret agents of the Crown. Only such men should be permitted to search the premises of suspected persons, since all the subsequent proceedings—of judge, Crown prosecutor, jury, even the hangman—may swing into place and depend upon the result of that search. Detective works plays too vital a part in the processes of justice to commit its being entrusted to the passing stranger.

## AN INCORRIGIBLE YOUTH.

Sent to the Reformatory for an Indefinite Period.

A boy named James Jackson, was yesterday afternoon brought before the P.M. on a charge of vagrancy. It appears that the lad, who is about 14 years of age, has no parents or relatives here, and will not stay with those who would take care of him. It was alleged that every cent of money he could procure, would be spent for cigarettes. The magistrate committed him to the Reformatory at Pontunguene, for an indefinite period, not to exceed 5 years.

## To Oblige Some

Disappointed stamp collectors will take note of the Double Stamp the three first days of next week. Remember they are also good for ordered clothing and Boys' and Men's Ready-made Suits and Overcoats. THE PATERNON CO. SYNDICATE STORE.

## Privation at Dawson.

Toronto, September 29.—Mr. Francis E. Rutland, of Dawson City, is at the Rosin House, on his way to England to secure capital for investment in the Yukon district.

"There are," says he, "at least ten thousand men in Dawson for whom there is no work, and who are unable to get out. There is nothing for them to do, and they are bound to suffer great privation during the coming winter."

## A Very Poor Performance.

"Under Two Flags," as presented to a Belleville audience at the theatre last night, was far from good. The company was poor outside of the leading man and a subreptic. The dancing and young men's part in "a paw" gayer times a poor specimen of the art.

## First-Class Clothing.

Take in consideration this fact—The Old Fall carry a first-class stock of made-up clothing. Sent garments as we turn out are only equalled by fine tailor-made work. The only competition we recognize in Belleville are the tailors. Our stock grows so much higher than the ordinary ready-made stocks that a customer need not be at all a good judge to see the difference. We invite a comparison all around. We have all ready-made opposition by our high class goods and we distance the tailor in prices.

## Police Court.

Mrs. Bridget Clapper was yesterday afternoon on trial before the P.M. charged with using insulting language to Joseph Denny, a neighbor. The language alleged to have been used was shocking. The magistrate deferred judgment for a week, and told Mrs. Clapper that she must leave the place where she now resides.

## ILL TREATED A HORSE

A Boy Sent to Jail For a Month For This Offence.

The lad James Mayers, who was arrested two weeks ago, on a charge of causing painful injuries to a horse belonging to Mr. Robt. Kerr, of Hungerford, was this morning tried before Judge Laidlaw and found guilty. He was sentenced to 30 days in jail. The boy tied an old tin pail to the animal's tail, which caused it to run away, and in its flight it cut its legs in such a manner as to render it almost worthless. Mr. P. J. M. Anderson appeared for the Crown, and Mr. Wm. Carrow for the accused.

## PICTON FAIR.

A Successful Exhibit—An Up-to-Date Show.

Pictou, Sept. 28.—The second day of the Prince Edward County Fair, held here, was a great success financially. The weather was all that could be desired. Excursions from Cos. Hill and along the line of the C.P.R. to Belleville, Napane, Deseronto and Cape Vincent filled the town with visitors. Over three thousand adult tickets were sold today. The races yesterday were quite a success, and the horse show both days was pronounced the best known between Quebec and Hamilton. The produce of fancy work showed that Prince Edward people were thoroughly up-to-date.

## Y.M.C.A. Notes.

The Secretary of the Y.M.C.A., will begin a series of studies on the "Jewish Talmud," to-morrow at 4:15. The talks which are free to all men will be held in the rooms, and will be preceded by showing how excesses of any kind give rise to social workers, can be met from scripture.

## The Dan Godfrey Band.

The agent of this great Military Band, Mr. W. W. Power, has been in the city and made all arrangements for this popular musical organization to appear here on Monday, Oct. 16th, at the Opera House.

## Their Business Booming.

Probably no one thing has caused such a general revival of trade at J. S. McKeown's Drug store as their giving away to their many customers of so many free bottle bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable remedy, from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup and all throat and lung troubles are quickly cured. You can test it before buying, getting a trial bottle free, large size 50c and \$1.00. Every bottle warranted.

## The Ilflated Scotsman.

Two of our local merchants, namely Messrs. Geo. Ritchie & Co. and Quick & Robertson had goods upon the Ilflated Scotsman.

## ELBORADO.

A car of barley containing about 1000 bushels has just been shipped from Eldorado by Mr. A. F. Wood, who is buying grain at his elevator here. It is for export, and goes via Central Ontario and C.P.R. Railways, to the seaboard. This kind of extra good in this neighborhood, one party threshing over 900 bushels bright barley from 21 acres. The latter part of season has been dry, but the rains have come in good time. There is no doubt of this being a good season for farmers.

One of the Wallbridge Hematite is being steadily shipped from this station to Hamilton and quantities from one of Coe's mines are being shipped over the same road, going at Montreal to the same furnaces. Mr. Stephen Wallbridge is also shipping a quantity of ore from the Seymour Iron Mine to Deseronto. He draws the ore to Macdon station. Three carloads have gone as a test for charcoal iron purposes this time was tested, sixty years ago by late Mr. Seymour and found highly suitable. It is black magnetic. The probabilities are this mine will soon be worked actively.

## A DYSPEPSIA CURE

Ever Reliable and Welcomed by the

Most Delicate Stomach of Dr. Von

Stan's Pineapple Tablets.

Let the worst dyspeptic eat a pineapple

a day for six months, and, so greatly

will feel like a new person. The reason is

plain. The pineapple holds a generous

supply of vegetable peptic, which, next to

the juices of the stomach, is the greatest

digestive known. Very few people can

obtain the daily pineapple, but everyone

can get Dr. Von Stan's Pineapple Tablets

which are mainly composed of this precious

fruit juice. They are eaten as candy, are

as harmless as ripe fruit, and always give

satisfaction. They cure all digestive

troubles. Box of 60 Tablets, 35 cts. Sold

by J. S. McKeown.

## SATURDAY NIGHT SALE.

In our Millinery Department we will offer 4 Doz. Ladies' Trimmed Rough Riders, regular price \$1.75 to \$2.50, your choice for \$1.39.

In our Hosiery Department we show special values in

NEW CARPETS.

It has been said that it takes a rich man to draw a check, a horse to draw a cart, a pretty girl to draw attention, a toper to draw a cork, a free show to draw a crowd, and an advertisement in the home paper to draw trade.

# The Intelligencer

(Daily and Weekly)

is the home paper of Belleville,  
Hastings and Prince Edward  
Counties, and continues to draw  
more trade for its advertisers  
than any other paper published

combined sworn circulation exceeds 3,375, and advertisements are accepted with the guarantee that its combined circulation is over 1,000 greater than the

issues of any other daily and
